

# HOOSIER FARM LANDS \$25 ACRE HIGHER IN YEAR

U. S. Expert Shows Rate of Increase and Comparisons With Country at Large.

## WHEAT NOT SO WELL

Farm land values in Indiana have increased \$25 an acre over last year, according to a report issued today by George C. Bryant of the United States department of agriculture legislative reference bureau in the statehouse.

The value of Indiana land today over the 1917 value is \$47 an acre. The average value of farm land for the state is \$145 an acre for improved land, \$113 for land without improvements, \$80 for poor plow lands and \$150 for good plow lands. The average value throughout the United States is \$92.24 for improved land and \$74.41 for unimproved land.

## GROWING WHEAT NOT ENCOURAGING

The condition of the growing wheat crop in Indiana is not very encouraging the report says, and is causing many farmers to hold their old wheat.

The reserve of corn on Indiana farms on March 1 was more than 10,000,000 bushels greater than last year, and wheat reserve was more than 1,000,000 bushels greater, according to the report of Mr. Bryant's bureau, issued today. The total for oats, however, shows a decrease of approximately 12,000,000 bushels, as compared with last year, and barley shows a decrease of about 100,000 bushels, although the percentage of all grains shipped out of the counties where grown in considerably less than the ten-year average.

## CORN RESERVES SHOW INCREASE

"Corn reserves on Indiana farms March 1 were 38 per cent of last year's crop and amount to 68,785,000 bushels compared with 56,100,000 bushels in 1919 and 52,640,000 bushels in 1918," the report says. "The quantity to be or that has been shipped out of the counties where grown amounts to only 17 per cent of the total production, which is 12 per cent below the ten-year average. Principal among the reasons for this low per cent of shipments is car shortage and local sales to farmers. The crop was one of the best ever produced, and notwithstanding the severe damage done by floods in the early fall, in the bottom lands of the south part of the state, the quality is considerably above the average and 83 per cent of the total is merchantable. Reserves for the United States at this time amount to 1,092,000,000 bushels compared with 855,200,000 bushels in 1919 and 1,235,200,000 bushels in 1918.

"The reserves of wheat March 1 were 18 per cent of last year's crop and amount to 5,935,000 bushels compared with 4,943,000 bushels in 1919 and 4,800,000 bushels in 1918. The condition of the growing crop, which at this time is not very encouraging, is causing many farmers to hold their old wheat."

## \$1 Haircut Coming; Baldies Get Even

NEW YORK, March 10.—The dollar haircut is in sight. Leon Worthall, general organizer of the Barbers' International union, said so today. He said: "The next jump may be to 75 cents, then to a dollar. Heavy rents, increased cost of supplies and higher wages will force the master barbers to the \$1 figure."

**ALIEN WORKERS BARRED.**  
JOLIET, Ill., March 10.—By the terms of an agreement entered into between local No. 75, International Hod Carriers' Building and Common Laborers' union, and the Joliet Contractors' association, only Americans or those who have shown intention of becoming such will be employed.

## NEEDN'T WORRY ON THIS STRIKE

Reds in Ft. Wayne Stockade Reject Food and Heat.

DETROIT, March 10.—Detroit Reds incarcerated at Ft. Wayne have been on a hunger strike for two days, it became known today. More than 200 radicals are involved, it was said.

The action of the Reds came Monday after federal officials had tightened the regulations governing visitors to the prisoners. The escape of five men from the stockade in the past few weeks was believed due to work of visitors.

The strikers also refused to stoke the boilers which heat their quarters. The strikers will be allowed to meditate in cold hunger if that is the way they feel about it, P. L. Prentiss, chief immigration officer, said.

## Socialists to Put Question to Wilson

CHICAGO, March 10.—Socialists on April 18 will demand of President Wilson a yes or no answer to questions regarding "political offenders," it was announced here today. The party's national committee, meeting here, arranged for a mass meeting in Washington on that date—the anniversary of Eugene V. Debs' incarceration. The delegations will march to the White House, where they hope to be received by the president. Debs is the only man considered as the socialist candidate for president, it was stated.

## WORKMEN PAID ABOVE TUTORS

Bricklayers Get \$8, Teachers Only \$2.55 to \$7.

Salaries paid to Indiana school teachers last year ranged from \$2.35 a day to \$7, on an average, while iron workers, bricklayers, lathers and plasterers were paid an average of \$8 a day, according to figures made public today by the teachers' week committee.

The average weekly wage of high school teachers was \$21.75; for elementary grade teachers, \$16.35, and for district school teachers, \$14.65. Average wages paid to 306 stenographers, placed in their positions by one agency last February, were \$20.39. Telephone operators extra from \$15.90 to \$20 a week, and department store workers earn from \$16.50 to \$35 a week.

The committee points out that preparation for school teaching includes four years of high school and professional training covering between twelve and 144 weeks, while requirements in other vocations named do not include particular educational qualifications.

Marion county teachers fare a little better in salaries than those of other counties in the state, according to these reports. High school teachers of this county get an average daily wage of \$7.04; elementary grade teachers, \$4.97, and district teachers, \$2.93. The average daily wage of high school teachers throughout the state is \$4.35. Allen county leads the state in salaries paid to district teachers with an average wage of \$4.57 a day.

## Fraternity to Give Founders' Day Fete

The annual Founders' day banquet of the Phi Delta Theta fraternity will be held Monday night at the Hotel Severin, at which James W. Fessler, candidate for the republican nomination for governor, will speak. Mr. Fessler is a member of the fraternity. Other speakers will be Ralph Ramberger, Edgar Turner, William S. Garbers, John D. Ellis of Cincinnati, O., and William P. Evans, candidate for the republican nomination for prosecutor of this county. Musical and cabaret features are also planned.

## The Endurance Tests At Yale University

### Dr. Irving Fisher reported—

SOME time ago in the Yale Medical Journal that:

"The contestants won every test quite easily after living on fruits, nuts, vegetables and cereals."

Thus, these, the essential foods, built super-men—men of vim, vigor, sinew—which means one hundred per cent health.

Consider, therefore, the food values of the scientific foods—Fruited Wheat or Fruited Oats.

They combine, in easily digestible form, ALL the vital elements of choice fruits, vegetables, and grains.

They are logically the foods for you—you, who must stand the endurance test of every day life.

TRY BOTH—Less than a penny a dish
