According to a letter just received by Mrs. D. M. Parry of Indianapolis, the body of her son, Maxwell Parry, who was killed during the last battle drive while flying over the enemy's lines, rests in grave 31, where he was buried by German soldiers.

The letter was from Mrs. W. C. Tassale, her daughter, now of New York, and gave a Mr. Hale, her husband's business associate, as the source of her information.

The grave is near Vandell, France, according to Mr. Hale, who said he was told by a woman who lived near the scene that she remembered the flight and that the Hoosier flyer was instantly killed.

MOTHERHOOD WOMAN'S RIGHT

How Lydia E. Pinkham's Vegetable Compound Helps to Make Women Normal.

Washington, Ind.—"I was in such a condition that I never expected to have children, and my aunt advised me to take Lydia E. Pinkham's Vegetable Compound. It improved my health and I was able to have a normal condition of my system so that I now have a fine baby. Until she was about a year old I was very nervous, and all the time thinking something terrible was going to happen. If I heard any one coming, my heart would beat fast and I wanted to run. So I took the Vegetable Compound again and it helped me wonderfully. You may publish my letter, as the medicine is surely great."—Mrs. Iva Banta, R. R. No. 4, Box 24, Washington, Ind.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is its ability to correct sterility in many cases. This fact is well established as evidenced by the above letter and hundreds of others we have published.

In many other homes, once children, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.
