Child Mourns Loss of 'Wolf,' Her Chum

"WOLF" is gone and little Elvina Swartz, 10, has a sad heart.

The dog disappeared Saturday and since that time Elvina hasn't slept very much.

He used to haul her around on the sidewalk as she clung to him on roller skates.

About three weeks ago he disappeared, but broke away as a captive and returned.

And "Wolf" is not an ordinary canine. He's got a war record, having served with the Germans.

A young soldier named Jack Clark sold him to Mr. and Mrs. P. G. Swartz, the child's parents.

He brought him to Indianapolis with great difficulty from the war zone for his father.

When Clark got here he found his father had been dead and buried several months.

Clark, heart-broken, re-enlisted—that's why he sold "Wolf."

The Swartz family lives in the Colonade apartments.

AFTER "FLU," GRIP

Fevers and Other Prostrating Diseases that Exhaust the Blood.

There is often that extreme tired feeling, loss of appetite, tendency to anemia, nervous exhaustion, inactive bowels, constipation and great danger of still further prostration and serious illness.

Head's Sarsaparilla first works upon the blood. It is remarkable how promptly its purifying, vitalizing effects are noticed. It "makes food taste good," promotes assimilation so as to help secure the greatest nourishment possible, promotes digestion. Nerve strength and cheery health inevitably follow, further danger is avoided and the glad-to-be-again feeling again prevails. To read this is well to realize it yourself is better.
