FIGHT IN EVERY NAME.
SACRAMENTO, Cal., March 24.—On the lists of blind borrowers from the library here appear the names: Spanking, Thrasher, Whip, Lickon and Beattie.

Here are some educational puzzles in word mathematics in which we add and subtract words to get our results.

If that isn't clear to you, here's an example. Bore—bore. Working along that line with words instead of figures, here's a set of puzzles which gives the names of some of the principal cities in the United States, with the words you must add and subtract to find out the name, represented in pictures.

Here are a few facts about the city, to help you out a little.
This is another very large city. It was of exceptional importance industrially during the recent war, and occupies a unique position in history.CAT+M—MAT+LEVEL+HAND—H=CLEVELAND
(The answer to today's puzzle will be given in our next issue.)

MINE BURNS 15 YEARS.

SHANANDOAH, Pa., March 24.—An announcement was made that officials believed the fire which has raged in the underground workings at the Girard

Mammoth colliery at Raven Run, Pa., for fifteen years, is now under control. In a short time the burning area will be opened up and hundreds of thousands of tons of anthracite will be reclaimed.

PHOENIX

BRAND

Try them
—JUST
ONCEPHOENIX BEANS win
friends on the first trial.You don't have to *learn* to like them.From the first mouthful you *know* they are good,—better than you ever tasted before.

You know, too, they are cleanly prepared and wholesome,—for there's the savor and zest of purity about them.

And they *are* pure and clean, scrupulously so.

Perhaps, we have worked out a way that is all our own to cook beans, and season them, and combine them with the rich flavor of pork and of tomato sauce. At any rate they are deliciously different from most canned beans.

Serve them tonight—at dinner.

Your family will render the verdict.

Remember this—Phoenix Beans are inexpensive as compared with meat and most other foods. And they build health and strength. But buy them particularly because they are just *plain-good-to-eat*.*A word to the wise housewife:—a few cans, in the pantry makes you proof against the unexpected visitors. And it's safe to keep a goodly supply on the shelf, always.*Try
