

VOTING PEACE BY RESOLUTION NOT EXPECTED

Little Chance for Success of
Move Following Rejection
of Treaty.

WASHINGTON, March 25.—Legislation by congress to re-establish peace between the United States and Germany still appeared today to have little chance of getting anywhere in the near future.

Senate leaders said they had no objection to the house originating some measure to meet the situation created by the senate's failure to ratify the peace treaty.

CAN'T OVERBID EXPECTED VETO.

House leaders were bent on whipping into shape a simple resolution declaring the war between the American and German peoples at an end, and repealing wartime legislation which is still in force.

It was admitted that if a resolution were agreed upon and passed by both branches the president would be almost certain to veto it.

To render the task of the republican leaders more difficult, a canvass of the senate and house failed to disclose enough votes to insure the president's veto being overridden by the necessary two-thirds vote.

The departure today of Senator Lodge, the republican leader, for a rest and the absence of many other senators preclude any action by the senate this week, even though house leaders succeeded in putting a resolution through that body.

EIGHT SENATORS ON ABSENT LIST.

Sens. King, Utah; Jones, New Mexico; Walsh, Montana, and Robinson of Arkansas are on their way to Panama for a change of scene.

Sens. Harding, Ohio; Johnson, California, and Poindexter, Washington, all presidential aspirants, are among those now actively campaigning.

Senator Cummins of Iowa, president pro tem of the senate, is another absentee.

Hereafter we can only deliver milk where an empty bottle is returned by the customer for the full one.

Bottle for bottle

The bottle situation has reached a crisis. We can not buy or beg another one. We have had ten carloads ordered for months past, but can not get them delivered.

Do not blame the man who delivers your milk

He can't help himself. He must bring back an empty bottle for every full one he took out.

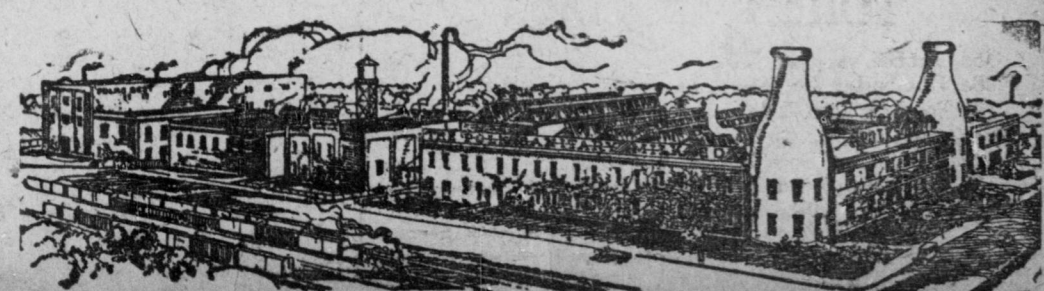

If you buy from your grocer

Prepare to deposit five cents or to give him an empty bottle in exchange. We are obliged to treat him in the same way we do our retail customers. Bottle for bottle.

We regret the necessity for this step, but we have no option in the matter. We have lost large sums of money in the past through the wasteful handling of bottles on the part of our customers, and would not object NOW if we could buy more bottles.

If you want milk return an empty bottle for every full one.
