

## MAILS LADEN WITH SUPPLIES FOR GERMANS

Postal Officials Here and Else-  
where Tell of Increase  
in Shipping.

An average of thirty-five packages of foodstuffs bound for Germany are dropped in the local postoffice each day, C. B. Fawcett, superintendent of mails, declared here today.

Food shipments, with occasional bundles of used clothing, comprise 50 per cent of the foreign mail received at the Indianapolis office.

"People were not aware at first that the embargo on this stuff for Germany was lifted Nov. 14, 1919," said Mr. Fawcett.

"After Christmas, however, these shipments became larger until they reached their present proportion."

"This probably is due to the publicity given to reports of privation in Germany."

## BOOZE BY MAIL IS KNOCKED OUT

CHICAGO, March 30.—Prohibition has cut into parcel post receipts, Chicago postoffice officials declared today.

Martin Faubel, assistant superintendent of mails, said much less bread is shipped to foreign countries now than before June 30.

Formerly, Faubel said, his department went to much trouble to dissect the long rakish loaves of rye bread submitted for shipment.

Generally, he said, they found concealed within the rye another form of the grain, neatly flaked.

"If we didn't get it, the customs officers across the water did. They got it before the rye got to the interior—country or drinker," Faubel said.

Parcels addressed to Germany and Poland are far more numerous than those to other countries, Faubel said.

Since Jan. 1, shipments to Germany have jumped 25 per cent.

## HEAVY SHIPMENT TO GERMANY

MILWAUKEE, Wis., March 30.—Estimates of business done by leading meat markets and groceries of Milwaukee are that from 25 to 50 per cent of it is food for Germany and Poland.

Packages declared in value to be from \$6 to \$100 are mailed at the rate of from \$60 to \$100 daily, according to figures announced by H. C. Pischel, superintendent of mails at the postoffice here.

Meat merchants prepare special packages for shipment abroad.

## ST. LOUIS MAILED LADEN FOR GERMANY

ST. LOUIS, March 30.—Relatives or St. Louisans of German descent in the old country are not going hungry for frankfurters—St. Louis postoffice attaches will bet money on it.

Since mail restrictions to the fatherland were lifted St. Louisans have kept a steady supply of food going toward the other side of the Rhine, officials declared today.

## BULK OF PACKAGE MAIL FOR GERMANY

ST. PAUL, March 30.—Two City foreigners are sending approximately twenty times as much package mail to foreign countries as they did before the war.

The bulk goes to Germany and Austria. The packages contain mostly clothing and foodstuffs—particularly bacon lard and other fats, according to Postmaster O. N. Raths.

## HELD AS SLAYER, PLEADS INSANITY

Boy Accused in Aughinbaugh  
Case Files Special Appeal.

As indicated by counsel several days ago, Francis Marion White, 17, charged with the brutal murder of John P. Aughinbaugh, an aged grocer, on Jan. 28 last, has filed before Judge James Collins of the criminal court a special plea of insanity.

Although the city detectives claim White has confessed to the crime, the boy has entered a plea of not guilty in the criminal court.

White is represented by James E. Deery and it is understood his defense will be entirely based on the insanity plea.

"Uncle Charlie" Aughinbaugh was fatally attacked in his little grocery early on the morning of Jan. 28 and brutally murdered by being struck over the head with an iron bar.

White in his alleged confession to the authorities stated that he became angry when Aughinbaugh first refused him credit for some pressed meat and that when the aged grocer is said to have criticized his father for not paying a grocery bill, he (White) struck him on the head with an iron bar lying on the counter.

## Strike Ties Up Chicago City Hall

CHICAGO, March 30.—City business virtually was at a standstill here today, following the strike of 1,000 city hall clerks, stenographers and bookkeepers.

No garbage would be collected today, it was stated, as 136 garbage handlers walked out when their demands for more money were unheeded.

An all-night session of the city council last night, ended with the rejection of all amendments to the city budget, including the four-billion-dollar "blue sky" provision, which would have permitted an increase in wages to city employees.

"We are giving them 12 per cent, let them strike," several aldermen shouted.

## SEES PERIL FOR MAIL SERVICE

Local Auxiliary Cites Poor  
Pay and Dark Future.

Low wages and uncertain working conditions are driving postoffice clerks into new lines of work, causing demoralization and a threatened collapse of the entire mail service, according to a statement issued by the women's auxiliary to local No. 130 of the National Federation of Postoffice Clerks.

It was said in the statement that among sacks of mail sent from the Chicago postoffice to Indianapolis for distribution in Illinois, catalogs for last year's trade, as well as parcel post packages and special delivery letters were found.

Substitute clerks do not remain long in the service, it is asserted, on account of low pay and an unpromising future.

White acting as substitutes, clerks are paid 60 cents per hour, but when made regular clerks their pay is trimmed to 40 cents per hour, according to the statement.

## LAST NIGHT'S DREAMS —WHAT THEY MEAN—

Did you dream of houses?  
If you dream of seeing a house the owner, according to the mystics, is that there will be a fortunate change in your affairs.

If the house you see is in ruins, having, apparently, been burned, then fortune and honor are in store for the dreamer.

New or strange houses are of a most excellent significance, but it is not considered favorable if you dream you own the house you see nor if you are tearing a house down.

If you dream you are building a house it is a sign that you will soon make a wise decision with regard to your affairs.

To dream of going through an empty house is not favorable, but if the house is occupied good luck is coming to you.

Many houses seen in a dream constitute a sign that you are bewildered with regard to your affairs and should keep a cool head.

Houses seen in dreams, in nearly all cases, are regarded by the scientists as symbolical.

Prof. Freud regards a house seen in a dream, in the great majority of cases, as a symbol of the human body.—Copyright, 1920.

## What causes Indigestion

An excess of acid in the stomach sours the food and starts fermentation. Distressing gases form. Your meals don't digest but lay like lumps of lead. Then you have heartburn, flatulence, fullness, belching, headache, and real misery in the stomach and intestines.

A few tablets of "Pape's Diapiesin" bring relief almost as soon as they reach the stomach. "Pape's Diapiesin" costs little at drug stores.

## New Way to Remove Hairs Creates Sensation

(Actually Takes Out The Roots)

What beauty specialists regard as one of the most important discoveries in recent years is the phenolite method of removing superfluous hair. Its great advantage, of course, lies in the fact that it actually removes the hair root. It does this easily, instantly, harmlessly. Sufferers from the affliction named need no longer despair. The actual hair root comes out before your very eyes, leaving the skin as smooth and hairless as a babe's.

Because it offers such complete relief, a stick of phenolite is the most inexpensive thing women can buy for the removal of hairy brows. For the same reason, phenolite is having a tremendous success in the hair removal of men. It is so harmless it could even be used without any ill effect.

## QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts if your  
Back hurts or Bladder  
troubles you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia-water drink which every one should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Advertisement.

## Muncie Nurse Explains Why She Can Highly Recommend The Perfect Tonic Trutona

STRIKING feature of the scores of testimonials given daily in behalf of Trutona, the Perfect Tonic, is the number that come from doctors and nurses, many of whom have heretofore been disinclined to publicly endorse any preparation.

Here is a Muncie nurse, Mrs. Julia Cryer of 1523 South Franklin street, who, in her twenty years experience, has become familiar with the merits of many medicines. Mrs. Cryer is frank to admit that she thinks Trutona the best of them all.

"I would never recommend Trutona to the hundreds of people who know me unless I was thoroughly convinced of the medicine's merit," Mrs. Cryer recently remarked. "But Trutona's value has been proven to me and I know it is worthy of my recommendation."

"I began using Trutona after I had suffered for ten years from indigestion. I had previously tried numerous medicines, but none of them gave me any relief. I was so constipated I had to take a laxative every day and so, five dollars' worth of different medicines decided to try Foley's Honey and Tar. One bottle gave relief. Best medicine I ever used." Contains no opiates.—Advertisement.

"It has been about a month since I began using Trutona, but I certainly feel like a man made over again now. My bowels are more regular than they've been for the past five years, my former dizziness has vanished and I'm not nervous and don't spill my coffee all over the table as I used to. It seems I can't get enough to eat, either. I want to tell everyone what Trutona has done for me."—Advertisement.

"For the past five years," he continued, "my system generally has been run down. My blood was out of order and I'd be so nervous at times I could hardly get a cup of coffee to my mouth without spilling it. Dizzy spells attacked me at times, too. I was very constipated, sometimes going for several days without a bowel action."

"I had taken hundreds of different kinds of medicines but they gave me no relief and it took Trutona to make me feel like a man made over again." E. G. Johnson, 29 years old, proprietor of a boarding house at 415 Madison avenue, Indianapolis, told the Trutona representative recently.

"The Diamond Chain Oiler is among the best of the other medicines. He sleeps 100 per cent better at night. Mr. Silcock can gladly recommend Trutona and he hopes others will try it."

Many employees of the Diamond Chain Company will, no doubt, become interested in Trutona after reading Mr. Silcock's experience with the tonic.—Advertisement.

It is a story of heartfelt gratitude that Mrs. Cal Silcock, 603 California street, Indianapolis, tells in describing the relief her husband, an oiler at the Diamond Chain Company's plant here, gained through the use of Trutona.

"Mr. Silcock had suffered for seven years from pains in his side and chest," she said. "Indigestion bothered him, too. He would lay down at night and would become so nervous he couldn't go to sleep for hours. My husband had spent from \$4 to \$5 every week for medicines during the last few years, but none of them helped him."

"My doctor recommended Trutona to us, in fact, she gave my husband his first bottle of the medicine and he is certainly grateful to her for it. The pains in his side and chest have improved more under the Trutona treatment than any of the other medicines. He sleeps 100 per cent better at night. Mr. Silcock can gladly recommend Trutona and he hopes others will try it."

## TROUBLE DATES BACK THAT MIDDLETONS

Aged Local Man Declared  
Trutona Relieved Him of  
Ailment Contracted  
in 1862.

FEELS LIKE A BOY NOW

Alfred N. Middleton, 81 years old, lives at 514 West Henry street, has been a resident of Indianapolis for the past thirty-three years. He has scores of friends in the capital city who know him to be a man of unquestioned honesty and integrity, all of whom, without exception, will no doubt be interested in the following statement, recently made by Mr. Middleton regarding the remarkable relief he has gained through use of Trutona.

Mr. Middleton served in the 21st Indiana volunteer regiment and also in the 1st Indiana heavy artillery during the Civil war, and it was during this time that he contracted the trouble from which Trutona has finally given him long needed relief.

"I contracted the rheumatism in 1862," during the war," Mr. Middleton said. "Then about 1870, I began having trouble with my kidneys. I suffered severe pains in the small of my back and in my hips. My kidneys were weak, too. The rheumatism caused my joints to swell and become sore and so I had at times I could not bear anyone to touch me."

"I tried a medicine after medicine but none of them seemed to do me any good. But Trutona was different from the others. The results I've obtained are, I think, better than I've had in the past twenty years and I no longer suffer the pains my back and hips. I'm eating like I used to when I was a 16-year-old boy."
