Balance On the Gibson Plan

The Overland 4 Sedan

The All Year 'Round Car

\$495 and Balance on the Gibson Plan

A plan in keeping with the wisest business practice of today—for 95% of all business is done on credit, and 75% of all the automobiles are sold on time payments.

Not one person in a hundred would think of buying a piano or phonograph in any other way.

Every argument favors the purchase of a motor car on this same sensible basis.

If you rightly consider that your money is worth more to you in your business or in other investments

than it is in a motor car, why should you put up more than a small part of the cost of the car you drive?

Why should you go without a car when it takes such a small initial investment?

Why should you deny yourself and family the joys of the wholesome, open road, coupled to the city conveniences and increased personal efficiency that a good car gives?

There is but one answer to all these questions.

For the convenience of those who can not come in at other times, our Overland display rooms will be open Saturday evening and Sunday afternoon.
