

BELIEVE PAIR HELD PLANNED BANK ROBBERY

Cumberland Men Identify Suspects as Two Who Acted Strangely There.

Detectives said today they believe the two suspected crackmen taken in a spectacular manner in their room at the Hotel Severin were preparing to go to Cumberland, twelve miles east of Indianapolis, to plunder the state bank there when they were arrested.

This information was obtained when officials of the bank told the detectives that the pictures of the two men which appeared in The Indiana Daily Times were those of the men who visited the Cumberland bank a few days before.

The suspects were taken into custody after Detectives Duncan and DeRosette found a bag containing "vegetable" equipment and a .38-caliber revolver in the hotel Sunday night.

This bag was claimed by one of the men.

They gave their names as Edward Stevens of Kansas City and Arthur Welling of Dayton.

Some of the tools and equipment found in the possession of the suspects have been identified as the "big fellow" with those used by the crackmen who blew open the safe in the office of the Western Oil Refining Company's gasoline filling station at North Meridian and Twenty-fifth streets, the detectives say.

More than \$2,000 was taken in this robbery.

Edward Huntington and Harvey Barrett, officials of the Cumberland bank, say they are positive the two men held are the same who acted suspiciously around the bank last Friday.

Cris Redmyre, a barber, identified the picture of Stevens as the "big fellow" who sneaked around the side of the bank building in the alley while the other two entered the bank.

Mr. Barrett, cashier of the bank, was equally positive as to the identification of the suspects.

"They planned to blow the safe in our bank, I am sure," he said.

That the alleged crackmen are kind hearted when they see young women walking is attested to by two school teachers.

The men gave them a ride in their automobile Friday when they were on their way to Indianapolis.

The school teachers are instructors at the township school two miles east of the end of the East Washington street city car line.

They were walking to the car line when the men stopped and gave them a ride.

The teachers are Miss Anna Selling, living on North Pennsylvania street, and Miss Ruby Bever, living on DeQuincy street.

They said today that the men discussed having visited Cumberland in regard to renting an office.

Detectives are waiting for reports from Chicago and other cities where photographs and other identification means of the suspects have been sent.

Their cases have been continued in city court until April 23.

Eyesight Dim?

If your eyesight is dim, your vision blurred; if your eyes ache, itch, burn or feel dry, get a bottle of Bon-Opto tablets from your druggist, dissolve one in a fourth of a glass of water and use to bathe the eyes from two to four times a day. Bon-Opto has given stronger eyes, clearer, sharper vision and relief to thousands.

Note: Doctors say Bon-Opto strengthens eyesight 90% in a week's time in many instances.

At Last! A Perfect Way to Whiten Teeth

A woman's beauty is completely spoiled by stained, unhealthy or broken teeth. A smile, which ought to be such a beautiful thing, should reveal an even row of perfectly white teeth. But, unfortunately, few sets of teeth are really white, for the simple reason that brushing with the usual dentifrices is not an effective means of removing stains, and so many dread the periodical visit to the dentist to have their teeth scraped.

All teeth are covered with thin films or "plaques," which are bound to become discolored in time if only tooth powder or paste is depended upon to keep them spotless. Many of these "plaques" are made of a remarkable product, "Once-a-Week Tooth Polish," which is a veritable wonder-worker in removing the brownish or grayish film from the teeth. Also that once removed, stains and tartar will never return. If this harmless preparation is used once a week, as the name suggests, "Once-a-Week Tooth Polish" can be had in convenient packages at any drug store and just a little need be put on the toothbrush. Parents should begin using it on the little ones' teeth when the teeth first come through the gums.—Advertisement.

Superfluous Hair, Roots And All, Quickly Go!

(Absolutely New Home Method)

For the first time in a hundred years a genuinely effective method of removing unsightly hairy growths has been discovered. The new phaeoline process does not merely take off the hair—ends; it actually removes the roots! It does this quickly and harmlessly. It does not act anything like electrolysis, which is a painful, non-poisonous, non-irritating. Get a stick of it from your druggist, follow the simple instructions, and have the satisfaction of seeing the roots themselves removed at last.—Advertisement.

ECZEMA IS ONLY SKIN DEEP

No internal medicine will cure Eczema. Only by the application of CRANOLENE, the great external remedy, can the Eczema microbe be destroyed. Prove this statement for yourself at our expense. Science has discovered that the acid-lactic juice found under the skin of the common skin parasites quickly destroys the tiny skin parasites that cause Eczema, and most other skin troubles. This mild acid has now been combined with soothing, cooling, and healing oils. The result is CRANOLENE.

ALLIED CHIEFS GET START ON TURKISH TERMS

Approve Financial Clauses at San Remo Conference— Discuss Boundaries.

SAN REMO, Italy, April 20.—The financial clauses of the Turkish settlement have been approved by the inter-allied supreme council, it was officially announced today.

The borders of New Armenia and the future of Batum were discussed. Former Foreign Secretary A. J. Balfour has been summoned to San Remo by Premier Lloyd George.

He will take part in the deliberations of the council.

Marshal Foch, Gen. Sir Henry Wilson of the British general staff; Gen. Badoglio of the Italian general staff, and Admiral Lord Peatty of the British navy, who are attending the meeting of the inter-allied supreme council, met during the morning and exchanged views on the necessary measures to restore order in the orient, particularly in Turkey.

Turkish affairs, especially the draft of the allied reply to President Wilson's recent Turkish note opposing any Turkish sovereignty on European soil, has been the chief subject under discussion since the supreme council began its sessions yesterday morning.

Tells How Thin Folks
Can Put on Flesh
and Get Strong

People who have tried it—and hundreds of folk right here in Indianapolis have done so—say that if you are weak, thin, nervous, run down and can't sleep nights, the quickest, surest, and best way to get strong, put on flesh, have nerves of steel and be able to sleep well is to take a 3-grain tablet of Blood-Iron Phosphate with every meal. The almost invariably remarkable benefit following the use of Blood-Iron Phosphate is added to the fact that it does two things—feeds the nerves and supplies the blood. So if you are weak, thin, nervous, run down, anemic man or woman should begin the use of Blood-Iron Phosphate today and get back on the road to health, strength and happiness without delay.—Advertisement.
