

## BREACH SEEN AT SAN REMO OVER GERMANY

England, Italy and Japan  
Want France to Ease Up  
in Demands.

PARIS, April 22.—Indications of the breach between the allied premiers in the meeting at San Remo were seen in newspaper dispatches here today.

British commissioners made no effort to conceal the situation.

On one side, they said, stands Prime Minister Lloyd George of Great Britain favoring modification of the peace treaty with Germany and asking France to pledge herself not to act alone to enforce the treaty in the future.

The British leader is backed by Premier Nitti of Italy and Baron Matsui of Japan.

Opposing them is Premier Millerand, holding to the French decision that the treaty of Versailles must be enforced to the letter, reserving for France the right to enforce those clauses which most vitally affect her.

Duty of providing these men would fall upon Greece, and it was considered doubtful whether the little nation could sustain so costly an effort.

## NEW CAR FARE WAITS DETAIL

the service commission should order service at cost the order be made a permanent and not an emergency measure.

It had been understood that the service-at-cost plan, if instituted, would have the same status as the present 5-cent rate of fare—merely that of an emergency measure.

### ATTORNEY CONTENDS FOR PERMANENCY.

Mr. Winter contended that the entire idea of the public service commission act was to provide service at cost.

He said that the order of the commission need not be made under the section providing for emergency orders.

Mr. Ashby, managing director of the company told of the difficulty experienced by the company in obtaining loans because there was no assurance that its present revenues would continue.

He stated that the commission should provide that no increase in fares be asked until after the case of the car company and the railroads had been decided.

When fares should be increased or decreased.

Mr. Ashby suggested the creation of a "fare index" fund of \$150,000 to be maintained by the company from the surplus after the deduction of fixed charges, and suggested that if this fund should exceed \$150,000 fares should be lowered, and if it should become less than \$150,000 they should be increased.

Representatives of the car company agreed to the principle of this proposal, but contended that there should not be an arbitrary figure set in such a way that a few dollars would determine the rate of fare, but that there should be some elasticity, such as a provision that if the fund should go over \$150,000 the fares should be lowered, and if it should be under \$100,000 they should be decreased.

The proposal of the city was gone over in detail by attorneys on both sides and was compared with service at cost plans in operation in Cleveland, Cincinnati and Memphis.

The hearing was preliminary in nature and the public service commission announced that a detailed hearing will be held at a later date.

## Anemic People Need Blood-Iron Phosphate

Anemic people are usually thin, pale, weak, discouraged, nervous, wretched, showing that lack of iron in the blood is all too frequently accompanied by run-down nervousness, etc., due to lack of phosphorous. Strength, health, vigor and energy depend almost entirely on making up this deficiency in iron and phosphorous.

Unquestionably one of the best things for this purpose is the great French discovery known among druggists as Blood-Iron Phosphate. Folks who have tried it say one five-grain tablet each meal quickly restores depleted nervous energy, enriches the blood, improves strength, vitality and endurance, and when there are this many pounds of solid stuff there flesh in a short time.

It is as much as Haag, Hook, Huder and all other druggists are authorized to sell Blood-Iron Phosphate under a guarantee of satisfaction or money back, even thin, weak, nervous or anemic man or woman should give it a trial without delay.

Important—Blood-Iron Phosphate is sold only in original packages, containing ten grains for the week's treatment, at \$1.50 per package—only 20 cents a week.—Advertisement.
