

## Scenes at Speediest Murder Trial Here

## NEGRO SLAYER IN DEATH CELL

(Continued From Page One.)

them the warning of Prosecutor Chris Adams that every hour they were out was "added insult."

William Evans, deputy prosecutor, also told the jury that there was only one possible penalty—that of death. Never in the history of criminal prosecution in this county has a jury in a murder case returned a verdict so quickly. In fact, the entire case sets a speed record, and was marked by a demand of the public that Ray be brought to justice quickly.

The crime was committed April 19. Ray was arrested the following night. He was indicted by the Marion county grand jury in special session Saturday morning.

Judge Collins set the case for trial yesterday. The trial began at 9 o'clock and all the evidence was in by 4 o'clock. The jury retired after being instructed by the court at 5:45 p. m., and a few minutes after 6 was ready to report.

Two minutes after the verdict was read, Judge Collins sentenced Ray to death. The police, under Captain Franklin, and the deputy sheriffs under the direction of Sheriff Robert Miller had complete control of the situation every minute of the day.

The remarkable photographs shown above were taken during the trial of William Ray, negro murderer, in criminal court.

Upper picture shows Ray, at point of white arrow, seated beside his attorney, Frank A. Symmes, county attorney for the poor.

Jurors in the box are intently listening to the evidence.

Judge Collins is in the right foreground. Lower picture shows relatives of the murdered girl, Mr. and Mrs. Hugh Smock, father and mother, buried their faces in their hands while listening to the testimony.

The photographs were made by Lester C. Nagley, staff photographer of The Times, from the balcony of the courtroom.

## NATION FEELS NEED OF BOOKS

The remedy for the dangers of democracy is accurate information. Myron Chandler of New York City, a director of the American Library association, today told librarians and library trustees in a conference held at the Severin hotel.

Men and women appointed by the governors of Indiana, Illinois, Ohio, Michigan, Kentucky and West Virginia attended the conference.

Judge O. L. Wildermuth of Gary, president of the board of trustees of the Gary public library, presided at the meeting.

Carl H. Milan, executive secretary of the American Library association, formerly an Indianapolis man, spoke at the conference, outlining the work of the "Books for Everybody" campaign, whereby \$2,000,000 will be raised for national library purposes.

Mr. Chandler held that the librarians should be included in the list of "pillars of the cities and villages" of the country.

"Half-baked ideas that have spread in the nation have come from ignorance, and it is the work of the American Library association to help combat such condition in bettering library facilities for the foreigners and the ignorant," declared Mr. Chandler.

Mr. Milan pointed out the need of furnishing literature to inmates of penal institutions as one means of helping to regenerate them.

Among trustees attending the meeting are J. A. Miller, Wheeling, W. Va.; Mrs. J. L. D. Samuel, Parkersburg, W. Va.; Miss Lewis Harvey, Huntington, W. Va.; Faunle C. Rawson, Frankfort, W. Va.; Thomas McCarty, Lexington, Ky.; J. H. Freeman, Springfield and Aurora, Ill.; Mary S. Oldberg, Evanston, Ill.; Henry N. Loud, Detroit; Harry F. Kepner, Corydon, Ind.; Clifford R. Myers, Charleston, W. Va.; L. D. Arnett, Charleston, W. Va.; and Bernis Bruen, Dayton, O.

## Brightwood Store Has Burglar Visit

Burglars were busy in Brightwood early today.

The glass from the rear door of the

Preston Brothers grocery, 2332 Station street, was broken and an iron bar removed by thieves who helped themselves to cigars, chewing gum and candy. A revolver and about \$1 in pennies also were missing. Motor Policemen Finney and Lansing investigated.

## When it's rub and scrub all day long

Does It Catch You in the Back?

It may be that you are mysteriously attacked by pain in back (lumbago), or limbs, "neuralgic" pains—shooting anywhere, or swollen and painful feet. Pain and backache of any kind are often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys. Perhaps you have become nervous, despondent, sick, feverish, irritable, have headache or spots appearing before the eyes, bags under the lids and lack ambition "to do things." The latest and most effective means of overcoming such trouble is, take a single Anuric (anti-uric-acid) Tablet before each meal.

Obtain Anuric at any drug store, or send ten cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., or trial package. Listen to this:

Owosso, Mich.—"I had been overcome with coal gas and was very weak—hardly able to walk and had no appetite. Had a breaking out on the side of my face that itched and prickled like needles. I also had kidney trouble from which I could never get any help. Finally I wrote to Dr. Pierce at the Invalids' Hotel in Buffalo, N. Y., and under his advice I took the 'Golden Medical Discovery,' 'Favorite Prescription,' 'Pleasant Pellets,' and the 'Anuric Tablets' for kidneys and backache. My back was very sore, I could hardly get downtown, but the third day the soreness was all gone. Now I can walk anywhere and it doesn't hurt the least."—MRS. MARY A. DANA, 409 Comstock St.

# 60 Ton Miles of Motor Truck Freight Per Person

DURING 1917 (latest authentic figures available) motor trucks hauled 60 tons of freight a mile for every person in the United States.

Then the country was at war and the capacity of the railroads was overtaxed.

It is doubtful if even a small percentage of this enormous tonnage could have been moved except by motor trucks.

The management of the Standard Oil Company (Indiana), recognizing the necessity of furnishing facilities for supplying gasoline to automobiles and trucks as they traveled through the country, established Service Stations at convenient points throughout the territory served.

These Service Stations perfected the system of distribution maintained by the Company.

The drivers of this caravan of motor trucks which carried the 6 billion ton miles of freight in 1917 would have found their task more difficult of accomplishment had it not been for the network of Service Stations along the way.

While the Standard Oil Company was supplying a substantial share of the fuel consumed by these motor trucks, it also was supplying its regular patrons, and meeting the demands of the United States Government with great quantities of gasoline for war purposes.

Its preparedness, and its ability to meet an emergency, however unheralded the emergency may be, serves to emphasize one of the salient phases of the bigness of the Standard Oil Company (Indiana).
