Capture Near Puebla With 27 Million Pesos in Loot Hourly Expected.

WASHINGTON, May 12.—President Carranza and Gen. Murguía are hemmed in by rebel forces between Esperanza and Apizaco, near Puebla, and their capture is hourly expected, according to advices to the state department from Nogales.

The dispatch stated that the Carranzistas have a force of nearly 5,000, but there are strong rebel forces on either side and the only avenue of escape is over the mountains.

The dispatch, which came by way of Hermosillo, stated that Gen. Obregon had given orders for the capture of Carranza and Murguía, and that they should be respectfully treated.

Carranza took 27,000,000 pesos of government funds with him when he fled Mexico City, according to Mexican press dispatches.

The dispatches stated that forty-three railcars, ten trains of equipment and one train bearing funds were captured when the rebels swooped down on the fleeing Carranza escort.

Senators and deputies have opened discussion to determine whether the presidency has been vacated.

SUGAR POOL PLAN TAKEN UP BY U. S.

Method of Reducing Speculation Under Consideration.

WASHINGTON, May 12.—A new proposal for sugar refiners to pool their buying of raw sugar in Cuba and other foreign markets, to reduce speculative bidding for the raw product, is under consideration by the department of justice. The suggestion will not be laid formally before the refiners until the requirements of the essential industries during the present year are determined, a matter which is now being threshed out by a special committee of refiners at New York. The needs of approximately 5,000 consumers among the preserving and canning manufacturers are being considered.

When the needs of the essential sugar users are defined the department will decide definitely whether curtailment is necessary among the so-called essential consumers, such as candy and soft drinks manufacturers.

It was announced at 10 p. m. today that vigorous measures are to be invoked to assure sugar in sufficient quantities for householders generally.

'CITY OF BOYS' PLAN ON FOOT

Plans for organizing the "City of Boys League" in Indianapolis will be perfected at a meeting at Tomlinson hall Friday night.

At this meeting Jack Robbins of Chicago, founder of the league, and a number of boys interested in similar projects in eastern cities, will be present to tell of the undertaking.

The idea is to organize local boys into a self-governing body.
The organization will have its major board of works, city attorney and, in fact, will contain all of the functioning powers of a regular municipal administration.

Mrs. Alice M. French, 901 Middle drive, Woodruff place, of the Indianapolis War Mothers, and national president of the American War Mothers, is behind the movement here.

The War Mothers have agreed to sponsor the organization plans until the boys are in a position to complete their league.

Mrs. French believes the plan will spur for better citizenship by acquainting the youngsters with civic affairs.
A general invitation has been extended to every boy in the city to be at the meeting.

Mayor Jewett has been asked by Mrs. French to deliver a welcome address.
The meeting opens at 7:30.
