

SAYS FREIGHT HAS TO MOVE 25 PCT. FASTER

Increased Average Only Will Clear New Crops, Dr. Surface Claims.

REACHED NORMAL MAY 1

By DR. FRANK M. SURFACE.

WASHINGTON, June 25.—The effect of the "outlaw" strike of railway switchmen in the early part of April has been felt in every industry in the country.

Perhaps no better index of the effect of the strike can be obtained than the decrease in bituminous coal production. Between March 27 and April 30 the average output of coal decreased over 600,000 tons per day, or about 30 per cent.

Even at the 1st of June the production was nearly 300,000 tons per day less than at the end of March.

Over 90 per cent of the decreased output was due to car shortages.

Some figures recently reported by the American Railway association indicate that the number of loaded freight cars had again reached its normal number, by the end of May.

The following figures are taken from those reported by the association:

Weekly average—	1920	1919	Corresponding Period
Pre-strike	703,037	602,226	942,877
Week ending			
April 17	515,561	619,792	976,991
April 24	542,511	632,196	998,880
May 1	541,837	612,539	1,000,850
May 8	720,641	670,537	998,588
May 15	988,390	633,240	1,000,740
May 22	700,978	688,424	998,035

SAME STORY TOLD IN GRAIN MOVEMENT.

A similar conclusion may be drawn from another set of figures which have been prepared, showing the total movement of flour and grain at the principal internal markets.

The totals converted into tons are shown below:

Pre-Strike	Total Movement	Compared to Pre-Strike Period
Weekly average—	599,923	100.0
April 17	417,839	69.7
April 24	226,000	37.7
May 1	412,510	68.8
May 8	481,939	80.3
May 15	528,275	88.2
May 22	625,275	104.4
May 29	690,509	115.3

These data show that immediately following the strike the total movement of flour and grain was only 37 per cent of the average in the preceding weeks.

This has gradually increased until the movement at the end of May was equal to that before the strike.

STILL MORE THAN FIGURES SHOW.

The above statements, however, do not tell the whole story.

Take the figures on the total movement of flour and grain in the above table.

Before the strike approximately 570,000 tons were moved each week.

If this same rate had been maintained for the seven weeks up to the end of May the total movement would have been 3,990,000 tons.

In other words, the movement of the class of freight at these points showed a deficit of 705,000 tons below what would have occurred if there had been no strike.

The grain and flour represented by these figures is still in storage awaiting transportation.

The bulk of the new winter wheat crop will begin to move about the middle of July.

If the railroads are to take care of this they must clear up their present jam within the six weeks following the first of June.

This means that the total movement of these commodities at the above markets would have to average about 133,000 tons more per week than before the strike.

This is an increase of about 25 per cent.

Unless the railroads show an increase of 25 or 30 per cent over the average movement for the early part of the year the present jam of freight is going to continue into the crop season.—Copyright, 1920.

Clifford Has Shotgun to Keep Evelyn Away

UPPER CHATEAUGAY, N. Y., June 25.—If Evelyn Nesbit attempts to visit Camp Jack, occupied by her husband, Virgil James Montagn, otherwise Jack Clifford, she will be barred.

Clifford made this announcement and displayed two revolvers with a belt of cartridges.

Clifford expressed his anger at Evelyn's action in naming Ann Luther and Juanita Hansen in her counter suit for divorce.

He particularly resented her statement that he was hiding a woman when she visited the camp last week.

Clifford told reporters he had held a shotgun on his knee when his wife and a Manhattan lawyer called last week.

She said, according to him: "You would not use that on me?"

He said he replied: "No, it is too good for you."

Miss Nesbit "used sob stuff" on him in an attempt to persuade him to let her enter the Camp Jack house, but it had no effect on him, he added.

1,350,000 Germans Lost Life in War

GENEVA, June 25.—Recent statistics published in Germany on that country's war losses state that 1,350,000 men were killed.

There are today 520,000 war widows, 1,120,000 war orphans and 500,000 maimed or consumptives supported mostly by charity.

ARGENTINA STARTS DRY MOVE. BUENOS AIRES, June 25.—Four members of the chamber of deputies have announced their intention to introduce a bill to prohibit the importation, manufacture and sale of alcoholic liquors.

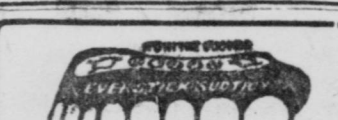

If adopted the law would become effective one year after its enactment. This will be the first legislative effort in favor of prohibition in Argentina.

MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Pull directions on each bottle. You must say "California."—Advertisement.

What Is the Condition of Your Blood Supply?

Highly Important to Keep It Free From Impurities.

Did you know that ninety per cent of all human ailments depend upon the condition of your blood?

Nature gives her warnings in various unmistakable ways, so that when the appetite fails, and you become weak and listless and a general run-down condition seems to take possession of the whole body, it is an unfailing sign that impurities will steadily accumulate until your general health will be seriously affected.

You should recognize the importance, therefore, of very promptly cleansing out the system, and keeping the blood supply pure and robust. For this purpose, no remedy can equal S. S. S., the fine old blood purifier that has been in constant use for more than fifty years. Being made from the roots and herbs of the forests, it is purely vegetable, and contains not a particle of chemical or mineral substance. Get a bottle of S. S. S. at your drug store today, and note how promptly it builds up the appetite and gives new strength and vitality. Write for free literature and medical advice to Chief Medical Adviser, 610 Swift Laboratory, Atlanta, Ga.—Advertisement.

SO DIZZY HAD TO STOP WORK AND SIT DOWN

Tongue was coated, spots danced before his eyes, no appetite, stomach full of gas and bowels constipated.

Claims that Dreco has entirely relieved these troubles and he feels better than in years.

"I'd get so dizzy at times I would have to stop my work and sit down," said Mr. Charles Kimble, living in Cumberland, Ind.

"My tongue had a thick coat on it," spots would dance before my eyes and my breath was foul. I knew all this indicated a bad liver; my bowels were badly constipated; I became extremely nervous and could not sleep well. My stomach was badly deranged, for my food did not digest properly, but seemed to ferment, gas accumulated, I became nauseated and frequently had griping pains.

"After taking a couple of bottles of Dreco I can say that I'm feeling better than in years. All that distress has passed off; tongue cleared up; my breath is sweet, I have a huge appetite, sleep sound as a baby and my stomach troubles are all gone, for I eat big meals and never have the slightest trouble later; the constipation is also completely over."

Now, Dreco has certainly done me good. To those persons who suffer from headaches, gastritis, nervousness, constipation, poor sleep, weak kidneys, lazy liver, a deranged stomach, or impure slow-flowing blood, Dreco will prove a wonder to you. Try it today and see how quick the results will come. All good druggists now sell Dreco and it is highly recommended in Indianapolis by Clark & Cade's Clappool hotel drug store.—Advertisement.
