

OFFICE GIRLS RAP BRIGHTWOOD LINE

Tell Works Board They Are Never on Time.

A delegation of Brightwood property owners today demanded of the board of public works an explanation of the delay in the extension of the Brightwood car line on Dearborn avenue to Twenty-eighth street.

Property owners some time ago submitted a petition for the extension, double tracking and elimination of curves on the Brightwood line.

The delegation declared the extension is needed because of frequent wrecks due, they said to the present single track system and many curves.

Office girls in the delegation complained they were either late at work or in reaching home by what they termed the "punk service."

The Brightwood line extends on Dearborn street to Roosevelt avenue.

AGREES NEED MUST BE THERE.

George Lemaux told the delegation that the need of the people to have the service they asked is obvious, but that the board could do nothing more than order because officials of the Indianapolis Street Railway Company claim the company has no money with which to build extensions and lay double tracks.

Three contracts for improvements on Livingston avenue were awarded to Abel Bros. For the grading and graveling of the roadway from Walnut to Michigan street, at \$153 a lineal foot for property frontage and \$2.36 on half street intersections; curbing roadway on same street of the avenue, at a bid of \$147 a lineal foot for property frontage and \$2.23 half street intersections; and for the laying of cement sidewalks on the same stretch at a bid of \$2.63 a lineal foot for property frontage.

Resolutions were confirmed for sidewalks and curbing on the south side of Tenth street from Keating avenue to the Belt railway; and for cement sidewalks and graded lawns on Keating avenue, from Tenth street to a point 380 feet south of Tenth street.

ASSESSMENT ROLL IS CONFIRMED.

The primary assessment roll on the paving of the first alley north of Maple road from Boulevard place to Cornelius avenue, was confirmed.

First action was taken for the opening of New York street from Walcott to Randolph streets; for the vacation of Springdale place from Oriental street to the first alley east of Oriental street; for the proposed vacation of Station street from the Belt railway to alley south of Tenth street; for the proposed vacation of a ten-foot strip off the east side of the second alley west of Harris street from Washington to Jackson streets; for the widening of an intersection at Thirty-fourth street and Central avenue; for the proposed vacation of Sherman drive from Eleventh to Thirtieth streets; and for the grading of Berwick avenue from Michigan street to Vermont street.

ALLIES EXPECT FINAL GERMAN ANSWER TODAY

(Continued From Page One.)

At the end of the first month such advances will be granted without waiting exact figures.

If, up to Nov. 20, it should be established that the August, September and October deliveries have failed to total 4,000,000 tons, the allies will proceed to occupy new parts of Germany; that is, the Ruhr or any other district.

TO CONTROL.

COAL OPERATIONS.

The reply also provides for a standing commission of the reparations committee to sit at Berlin and supervise all coal operations in Germany.

In event the Germans should refuse to meet the terms of this ultimatum, the allies have completed military preparations for occupation of German territory.

This latest allied note came after consideration of a German proposal, containing six points regarding the coal problem, as follows:
