

## NEW PLANT TO MAKE MITTENS

### Glove Company Now Has 600 Employees Here.

The Senate avenue plant of the Indianapolis Glove Company, Senate avenue and Thirtieth street, has been opened for the manufacture of workmen's mittens, which formerly were manufactured at the plant of the Indianapolis Glove Company, Liberty and Michigan streets.

In addition to the Senate avenue plant and the one on Michigan street, which will continue the manufacture of gloves, the company has plants at Richmond, Ind.; Eaton, O., and Zanesville, O.

There will be employed at the Senate avenue plant about 150 persons, which will make a total of about 600 persons working for the company in this city.

When it is stated that workmen's mittens are made at the Senate avenue plant, it might not mean much to the average layman, but when it is realized that there are about 600 different styles in these mittens, and that—for example—there are forty different styles for corn shuckers alone, one better realizes the magnitude of the business.

Among the different varieties of shuckers' mittens, which are made with the nap outside, are those with double thumbs, and double thickness throughout, and double thickness and with double ends, and with a small strap around the top, and—well, it would take a catalogue to do justice to the variety.

Also in great variety there are mittens especially made for use in canning factories and for candy pullers, oyster gatherers, stove polishers and for bathing purposes, etc.

This list affords some idea at least of the variety.

The new plant is of brick, one story in height, with 14,000 square feet of floor space.

It is strictly modern in design and equipment and is of fire-proof construction.

**"THE WONDER MAN"**

An absorbing drama of American society, in which the hero of battlefield and squared arena is given the opportunity to show himself as actor and as the fighter of world renown.

**A Few Newspaper Criticisms:**

The men like his serious scenes, especially when he is pitting his slenderness in scientific combat against a heavier opponent, but the women like the nice boyish smile that so attractively lights up his face.

The most striking feature of the entertainment was the revelation of Carpentier as an actor. He has many opportunities for distinctive action, opportunities of which he takes full advantage.

It is a splendid picture, aside from Carpentier's part in it, and he is almost as good a screen actor as he is a fighter.

His (Carpentier's) suppleness is a delight, and he can act, too.

Surprised his audience at the Hotel Astor by demonstrating real acting ability. The producers have supplied the "Idol of France" with an excellent story and a competent supporting cast.

He drank, smoked, and horrors!—played pool with the loafers on the corner.

But suddenly—when things looked blackest for Wint—the great accident happened. Like a bolt from a clear sky it leaped on Wint. If you like to be surprised, to be thrilled, to be made to throw back your head and laugh like a kid—then go and see Tom Moore in this picture.

And a Great CAST

One of the most successful melodramas produced on the stage in years, "The Deep Purple" is even more convincing on the screen. The glare and the jazz and the raucous unreality of the "joy" that fills the glittering cabaret; the easy, carefree manners of the fashionably tailored, high-class wolves who prey upon society; the subtle plots and schemes of the money-mad crooks who operate in the ever-throbbing White Light district provide a story that thrills and entertains in delightful manner.

"SHE'S my daughter, and she's coming home to her husband!"

Then the grim old sea-dog dragged from the gay cabaret the beautiful, evil creature who had wrecked a lad's life. Dragged her aboard the home-bound boat, and—

Come and thrill at the rest!

A tale that's full of the surge of the sea, of fog and wreck, of danger and daring and boundless love.

Picturing the most sensational under-water adventures ever shown on the screen.
