

## PARTY VICTORY SEEN AT RALLY OF DEMOCRATS

Goodrich and His Legislature  
Given as One Reason for  
State Success.

### STRONG SPEECHES MADE

Confidence in the ability of the democratic party to carry the state and nation in the forthcoming election was expressed by speakers at the "ratification" meeting at the Indiana Democratic club last night.

The speakers were Charles Remeter, Dr. Carleton B. McCulloch, nominee for governor; Henry N. Spann, nominee for congress; Albert Stump and Michael E. Foley.

Dr. McCulloch said democratic stock in the nation went up 50 per cent following the San Francisco convention and that democratic stock in Indiana has gone up 50 per cent as a result of the second special session of the Goodrich legislature.

"The stock had considerable to start on, so it is now far above par," he said. Dr. McCulloch told of the San Francisco convention and characterized Gov. James M. Cox, the nominee, as a worthy successor of President Wilson.

Mr. Spann read a speech, in which he discussed both state and national issues, dwelling particularly on the issue of "Goodrichism."

Mr. Spann declared that the governor deliberately set to work to make himself the "great central figure of political attraction."

### HOW HAND GUIDED STATE.

He pointed out that the governor dictates to the legislature and that during the 1919 session no law was permitted to pass without his consent with the result that the session probably was the worst the state ever has experienced.

"So many and grave were the mistakes made by the Goodrich legislature that it has been called in session twice to correct its blunders, and the more it is called in session the greater are its blunders," Mr. Spann said.

Mr. Spann then discussed the tax law, which he termed "infamous," and declared it was intended to build up a political machine.

"The whole Goodrich tax law must be repealed," he said.

"The present legislature has been called in session to fix it up. The way to do this is to elect a democratic administration and that will clean up this infamous tax conspiracy and give us a new law that is truly American in spirit and that does not interfere with local self-government nor with the constitution of the state."

### "TO DISREGARD SUPREMACY COURT."

"This great governor of ours in his message advised the legislature, in regard to the ruling of the supreme court and to a law legalizing the illegal conduct of the tax board."

"That is to say, he advised the legislature to make it legal to collect taxes that were levied illegally by his political board."

"I hope for the sake of the fair fame of the state of Indiana that this republican legislature has got sense enough to reject such foolish advice."

Mr. Spann then touched on the governor's connection with the coal business.

"It seems that this great governor of ours is a coal operator also, and when our good Senator Cravens asked him about it he made the time excuse that he had made his son a wedding present of his stock," Mr. Spann said.

"But the fact remains that the whole Goodrich family is in the coal business. Our governor was in the reduction plant business once, but he sold that out to our city."

### GOOD NAME.

In discussing the governor's record Mr. Spann said that "a good name for this man is the 'get by' governor—anything to get by."

In discussing national issues Mr. Spann told of the record of the Wilson administration and of the dissatisfaction of the Wilson administration with the present administration.

He quoted at length from republican newspapers telling of this dissatisfaction.

Mr. Remeter acted as chairman of the meeting and told of the San Francisco convention.

Mr. Stump, who formerly was a captain in the army, contrasted the republican platform with that of the democrats in regard to their planks regarding soldiers.

He pointed out that the most the republicans offer the soldier is "grateful remembrance," while the democrats promise material things.

Mr. Foley said the republicans are without any issue except the league of nations issue and that the democrats gladly accept the challenge on this issue.

### Construction Man

#### Asks Receivership

J. Harry Roberts, general superintendent of the Ross & Potash Construction Company, filed suit in circuit court for an accounting and receivership for the company against Jacob D. Ross, Henry Potash and Carol C. Valdemar.

The plaintiff alleges that the defendants entered into a copartnership agreement to construct the William Bosson gravel road in Washington township after a contract was awarded the company by the county commissioners on a bid of \$97,000.

Roberts says that he was made general superintendent and Potash his assistant. Each of them was to receive one-fourth of the net profit.

It is alleged the company kept no books and did not supply proper material nor provide sufficient labor for the construction. By these acts the company has been made insolvent.

### Held on Charge of

#### Attempt to Murder

SHELBYVILLE, Ind., July 21.—Charles Fisher of this city is being held on a charge of assault and battery with intent to commit murder.

The affidavit charges that he, with two companions, attacked Charles Moore of Greensburg, while Moore was on his way to work in a local factory.

Moore told the police that Fisher and his companions followed him to a place where there were no houses and attacked him with a knife.

Moore has a gash in his neck four inches long.

### Greeks Plan to Meet

#### Turks at Adrianople

CONSTANTINOPLE, July 21.—A division of Greek troops is marching on Adrianople in Thrace, to give battle to the Turkish nationalists defending the city. It was reported from French sources today.

The Greek division which is part of the Greek army of occupation in the territory that once was part of the European Turkey, is moving from Karagh.

Fighting with artillery and machine guns has been in progress around Adrianople since last Thursday.

The civilian population of the neighboring villages has fled into the fields and forests.

## WATER SUPPLY NOT IN DANGER

Indianapolis Has Adequate  
Purifying Chemical Store.

Since adequate supplies of purifying chemicals are available in Indianapolis, the water supply is not menaced by disease infection, which is threatened in other cities, officials of the Indianapolis Water Company said today.

Emergency appeals have been received by officers of the United States public health service from ten states and numerous city boards of health, but Indianapolis has not been forced to seek assistance.

Shortage of purifying chemicals and congestion of railroad shipping facilities are said to have alarmed many health officials and water company managers, bringing urgent requests for priority orders for railroad shipments.

Indianapolis has a four months' supply of chlorine and an adequate supply of alum, two of the most important chemicals used in purification of water, it was said.

Water company officials reported they had become interested in the situation several months ago and made arrangements to assure a satisfactory supply of the chemicals.

### ROADS REFUSED

"Because of the attitude of the railroad companies in refusing to accept empty cylinders, in which chlorine had been shipped, the chemical companies were unable to fill some orders," explained one official of the Indianapolis Water Company, "but that situation is being remedied."

It was necessary to obtain revision of shipping conditions before that difficulty was relieved.

"Construction of railroads, however, now has been obtained and the situation gradually will iron out."

Surgeon General Cumming of the United States public health service, in a statement issued outlining the situation, emphasized the fact that serious epidemics may follow in some cities where the chemical supply for purification purposes has run low and additional supplies not available.

WASHINGTON, July 21.—Public health service officials today said they would make an urgent appeal to the Interstate Commerce Commission for cars to haul material from which water purifying chemicals are made.

"The purity of the water supply of several scores of American cities is threatened because of a shortage of alum and chlorine, the principal purifying chemicals, and officials of the service fear epidemics of typhoid fever and other water borne diseases unless the situation is corrected quickly."

WASHINGTON, July 21.—Official announcement was made today that the rebel movement in northern Mexico had been wholly suppressed, that Jesus Guadalupe had been shot, Carlos Osum had asked to be allowed to surrender, and Ricardo Gonzales and Pablo Gonzales, Jr., had crossed the border to the United States.

The strike at Tampico threatened stoppage of oil exports.

Little hope was held for early settlement.

Industries here were beginning to feel the pinch of oil shortage.

Strikes of railway employees also contributed to business difficulties and shipments of foods and raw materials could not be confirmed.

Report was received here that the railway strike at Vera Cruz had been settled, the shophen having been awarded a 50 per cent increase.

Two Gonzales Said to Be in United States.

MEXICO CITY, July 21.—Official announcement was made today that the rebel movement in northern Mexico had been wholly suppressed, that Jesus Guadalupe had been shot, Carlos Osum had asked to be allowed to surrender, and Ricardo Gonzales and Pablo Gonzales, Jr., had crossed the border to the United States.

The strike at Tampico threatened stoppage of oil exports.

Little hope was held for early settlement.

## Democratic Chairman

GEORGE WHITE

### Copies of Civil War Photographs Wanted

Col. Oren Perry, superintendent of the state soldiers' and sailors' monument, requested today that persons who have photographs of Indiana's Civil War campaign to him until copies can be made and placed in the war museum in the base of the monument.

Col. Perry desires pictures of camps in Indianapolis, Lafayette, Madison, New Albany, Vincennes, Evansville, Ft. Wayne, Anderson, Richmond, Lawrenceburg, Logansport, Goshen, Jeffersonville, Seymour, Princeton, Covington, Wabash, Greensburg, South Bend, Kendallville, Michigan City and Kokomo.

Col. Perry said the photographs will be returned as soon as copies are made.

### REALTORS PLAN ANNUAL PICNIC

#### Outing Will Be Held at Broad Ripple Park Saturday.

All the arrangements for the annual picnic of the Indianapolis real estate board have been completed and a good time for all is promised next Saturday afternoon at 2 o'clock at Broad Ripple park.

The realtors have the exclusive use of the ball diamond and the race track in field for their various contests, and of the dance pavilion for the chicken dinner.

It is expected, including the families of the realtors, that at least 250 will attend this picnic, and games and contests of various kinds have been provided for entertaining this number during the afternoon and evening.

At 8 o'clock, acting chairman of the entertainment committee, with the assistance of Bowman Elder, Kenneth R. Badger, James W. Hurt and George T. Wilson, the men who promoted this annual good time.

The following men were appointed to complete arrangements: Roy W. Templeton, chairman; Harry G. Templeton, publicity; "Al" Evans, contributions from members for prizes, and Howard C. Venn, judge of athletic contests.

A recommendation for each state to report one man and one woman as delegates to the national convention was made by Robert Patton, Illinois, B. E. P. Prugh, Pennsylvania, objected to it and was supported by W. C. Dean, Wisconsin, who was not so sure that a woman from his state could be selected that would qualify for the job.

He stated it was his belief the delegates should be chosen for their fitness regardless of sex.

W. G. Calderwell of Minneapolis, and vice chairman of the committee, championed the woman's cause pointing out that now that woman is about to receive equal voting power with man, she should have equal representation in the party machine.

Mr. Calderwell was the one who called attention that by so doing the prohibitionists would be the first party to give this right to women.

### Police Investigate

#### Mysterious Injury

CHICAGO, July 21.—Authorities today investigated the mysterious injury of Oliver Cook, lawyer and real estate man, whose skull was fractured late yesterday in a fall down a restaurant stairway.

Cook had conferred with John Navi-gas and E. J. Gierhardt of Grand Rapids, Mich., during dinner.

Leaving, he preceded his companions and was found unconscious at the foot of the stairs.

Asks Cox and Harding to Aid Eugene Debs

DENVER, Colo., July 21.—Parley Parker Christensen, former labor party candidate for president, today telegraphed an appeal to Senator Harding and Gov. Cox to join him in demanding that President Wilson immediately release Eugene V. Debs, socialist candidate for the presidency from the federal prison at Atlanta.

### Clothing Catches in

#### Flywheel; Hurts Kill

HAMMOND, Ind., July 21.—Ward Hathaway, a farmer of near Lowell, is dead from injuries suffered in an accident which occurred while he was operating a gasoline engine.

His trousers caught in the flywheel, and before the engine could be stopped he was thrown against it several times.

### PLANS RUSHED BY DEMOCRATS FOR FIRST GUNS

(Continued From Page One.)

Several delegations were before the board asking the improvement of streets, but the board told them that there could be no relief at present because contractors can not get materials.

Resolutions were confirmed for the grading and paving of Thirtieth street from Central avenue to Broadway; grading of the roadway from Bancroft street from Julian avenue to the Pennsylvania avenue to Bancroft street; grading of roadway from Julian avenue from Emerson avenue to Bancroft street; grading of roadway from Bancroft street from Emerson avenue to Bancroft street; grading of roadway from Bancroft street from Emerson avenue to Bancroft street.

He is only 45, and athletic and snappy in action.

His family in Pennsylvania was strictly republican, and his turning to democracy after his sojourn at Princeton was a source of wonderment to its members.

A feeling that deepened when word came back in 1905 that he had been elected to the Ohio general assembly from republican Washington county on the democratic ticket.

After his service in that body he entered the congressional fight in the Fifteenth district, and in five contests carried it three times, being defeated by less than 100 votes.

At Washington he entered the group of progressive young democrats of which John W. Davis, ambassador to England, and Gov. Cox were members, because of the former's roommate.

He became a warm supporter of the Wilson program, and later in his career was made a member of ways and means committee of the house of representatives.

As such he was sent abroad during the peace conference, and it was said of him that he was one of the few men who had access to President Wilson at all times, a real distinction.

HAS BEEN CLOSE TO GOV. COX.

While in a sense a follower of the president, politically his fortunes have been more closely associated with those of Gov. Cox and he fought unsparringly the machinations of the administration men at San Francisco to encompass the governor's defeat.

As first lieutenant to Mr. Moore during the pre-convention contest he traveled about the country in the interest of the governor and made friendships and acquaintances among national leaders which proved of value today.

On the floor of the convention on the night of the nomination he was in charge of the Ohio candidate's forces and held the line while Moore, the generalissimo, retired.

Himself a Pennsylvanian, it was White who made the deal with the Palmer forces that whenever either of the candidates should receive a majority, the other would throw enough strength to give to the victor the required two-thirds majority.

The new chairman is distinctly not of the oratorical type, his forte being organization and direct dealing with individuals and groups rather than with crowds.

WILL GRANT DEMAND OF COX FOR PUBLICITY

COLUMBUS, O., July 21.—The demand of James M. Cox, democratic nominee, for full publicity of campaign funds by investigations of the Kenyon senatorial committee will be granted "with pleasure," Henry Cabot Lodge, republican leader of the senate, said here today.

"The Kenyon committee expects to investigate contributions and Mr. Cox will be given all the publicity that he demands," said Lodge, who is here for a meeting of the republican national executive committee.

BULGARIA WILL REMAIN NEUTRAL

PARIS, July 21.—The Bulgarian minister of foreign affairs has announced that Bulgaria will remain neutral in the conflict between Turkey and Greece, according to advices here.

ASPIRIN

Name "Bayer" on Genuine

"Bayer Tablets of Aspirin" is genuine Aspirin proved safe by millions and prescribed by physicians for over twenty years. Accept only an unbroken "Bayer package" which contains proper directions to relieve Headache, Toothache, Earache, Neuralgia, Rheumatism, Colds and Pain. Handy tin boxes of 12 tablets cost few cents. Druggists also sell larger "Bayer packages." Aspirin is trade mark Bayer Manufacture. Monoaceticacidester of Salicylicacid. Advertisement.

For the woman who is weary dreary and sad

A woman on her feet all day very often has backache, dizzy feelings at times, and pains here or there. If she will listen to what her neighbors say, and to the women who have had the experience, she will go to the nearest drug store and obtain a bottle of Dr. Pierce's Favorite Prescription. This is just the womanly tonic she needs periodically, and many are the women who express themselves as deeply indebted to Dr. Pierce for this wonderful discovery. It is an herbal nerve tonic which strengthens the weak woman and overcomes many of those diseases which cause backache, headache, dizzy feelings, sometimes fainting spells, and those distressing pains and bearing down feelings. Read what this woman says:

Kalkaska, Mich.—"I cannot write enough to express my thanks for being able to recommend Dr. Pierce's Favorite Prescription. Motherhood left me in a very bad condition for which my doctor could not help me, but 'Favorite Prescription' has done wonders for me. I took two bottles of the 'Prescription' and have been helped wonderfully, being able now to do my own housework and work out besides. I have been entirely relieved. I feel like a new woman and will do all in my power to help other sufferers. I wish I could speak to the thousands of suffering women who have tried so many other remedies and advise them to try the 'Prescription' for it is a God-send to run-down women."—MRS. W. C. HINDS.

HOTEL PURITAN

All the comforts of home. Absolutely fireproof.

Rooms \$1, \$1.25 and \$1.50

Corner Market and New Jersey Sts. Weekly Rate on Application.

## BOARD OF WORKS CUTS OFF JOGS

Adopts Declaratory Resolutions for Traffic Relief.

Preliminary action on the elimination of two dangerous jogs in the city streets was taken today by the board of public works, when declaratory resolutions were adopted for cutting off the southeast corner of Illinois and Sixteenth streets and the opening of Michigan street from Dorman to Highland.

Both these changes, George Lemaux, president of the board, said will eliminate dangerous traffic conditions and also will aid in better handling of the traffic.

Action was taken on cutting off the southeast corner of the intersection of Illinois and Sixteenth streets some time ago, but the resolution called for the widening of the street, and as there was a legal objection made to the term "widening," the board rescinded all action on the resolution.

The new resolution reads "change" in Illinois street and the board thinks this can not meet with a legal objection by the property owners at the southeast corner of the street.

The opening of Michigan street from Dorman street to Highland avenue will eliminate a wide jog and also the possibility of traffic tie-ups and collisions of eastbound traffic on Michigan street and northbound traffic on Highland avenue.

WONT TAKE UP OLD SECTION.

The section of Michigan street between Highland avenue and West Michigan street will not be taken up, as it will aid in the relief of traffic.

The opening of the street could have been eliminated by cutting off the northeast corner of Highland avenue and Sixth street, but that would have caused damage to valuable property.

A delegation of property owners from Irvington came before the board asking for the extension of water and gas mains, but many of them were informed that they were outside the hundred feet limit which is a clause in the gas and water companies' franchises.

The board has power to order the extension of mains.

Where there is one consumer to every 100 feet of mains to be laid, the board has the power to order the extension of mains, but in many of the cases presented there would be only one consumer to every 105 feet of main.

SEE NO CHANCE OF STREET IMPROVEMENTS.

Several delegations were before the board asking the improvement of streets, but the board told them that there could be no relief at present because contractors can not get materials.

Resolutions were confirmed for the grading and paving of Thirtieth street from Central avenue to Broadway; grading of the roadway from Bancroft street from Julian avenue to the Pennsylvania avenue to Bancroft street; grading of roadway from Julian avenue from Emerson avenue to Bancroft street; grading of roadway from Bancroft street from Emerson avenue to Bancroft street; grading of roadway from Bancroft street from Emerson avenue to Bancroft street.
