Armenians Fight Bolsheviks on Border

LONDON, July 27.—Heavy fighting is in progress along the northern border of Armenia between Russian bolsheviks invading troops and Armenia, said a Constantinople dispatch to Daily Express today.

The Armenian army in the Karabagh sector is fighting desperately to stem the Russian advance.

The Russian offensive is being carried out by a "mystery army" of 60,000 men, which the soviet government recently announced at Baku on the Caspian Sea.

Leads H. C. L. Fight

MISS ELEANOR P. BARKER.

No show will be given to the H. C. L. bug by the women of Indiana, organized under Miss Eleanor P. Barker, who has received her appointment as state chairman of the Anti-Bug Cost of Living campaign from Attorney General Palmer of the department of justice at Washington.

Miss Barker, who was recommended several weeks ago by Miss Helen Grimes, national representative in the middle western states, for the position, will keep her staff at once and begin active work as soon as possible.

Miss Barker worked with Stanley Wyckoff, fair price commissioner, during the war, and is now practicing law at 916 Fletcher Savings and Trust building.

In outlining the work which will be done in this state, Miss Barker said that the main emphasis will be placed upon curtailing the purchase of luxuries.

Education of all classes of women to this end will be the main object of the campaign.

Miss Grimes, who has been in Indianapolis several times within the last few months preparing the foundation for the organization, has declared that the high cost of living will continue as long as women insist upon purchasing luxuries instead of necessities.

"By ceasing to buy luxuries, we can further the production of necessities, thus reducing the high cost of living," Miss Grimes said that as long as there is a demand for a commodity the dealer will keep it in stock and the producer will continue to produce it.

Intensive work in all parts of the state is planned by Miss Barker.

Special emphasis will be laid upon interesting the women to buy sensibly.

Miss Barker declares that it will not only help the country, but will be an asset to every woman individually.

"Our first task," she declared, "is to educate every woman in this state to see this point of view."

COMPANY AIDS MOTOR TRUCKS

Filling Station to Be Established at Stock Yards.

The several hundred motor trucks that bring live stock to the stockyards daily will soon be able to buy, almost at the gate of the yards, a return load of hog or dairy feed and in a short time will have for their convenience a filling station for gasoline, oil, etc., according to an announcement made today by M. A. Nowlin, president of the M. A. Nowlin Feed Company.

The company, incorporated in Indiana, has an authorized capitalization of \$300,000, and its officers are: M. A. Nowlin, president; John Mendenhall, vice president and treasurer, and Tom Vinnebeck, secretary, all of Indianapolis.

A warehouse which is being built by the company is rapidly nearing completion.

It is two stories in height, forty by eighty feet, of concrete construction, and is fire and rat-proof.

The site, on which the company has a ninety-nine years' lease, with privilege of purchase, is of six and one-half acres, between the Pennsylvania tracks and Kentucky avenue, fronting on Harding street.

It is within 100 feet of the entrance to the stockyards.

In speaking of the company and the work it is to carry out, Mr. Nowlin estimated on an average 500 trucks visit the stock yards daily, coming from a radius of seventy-five miles.

Registration Plan for Women Subject

Mrs. Olive Belden Lewis, chairman of the organization committee, met yesterday with the chairmen of the various committees of the League of Women Voters to discuss plans for the registration of the women voters prior to the election in November.

Another matter discussed was that of the preparation and distribution of literature by the local league, explaining the function and general working plan of the league.

NAVY VETS LOOK TO 'DOG WATCH'

Sea Fighters Will Attend G. A. R. Encampment.

More than 200 naval veterans of the civil war are expected to attend the annual "dog watch" of the National Association of Naval Veterans, when the annual national encampment of the Grand Army of the Republic is held here September 19-23.

The encampment will bring thousands of civil war veterans, their families and others, to Indianapolis for the encampment and thousands of rooms will be needed in private homes to house the visitors.

According to information received here from Henry I. McCollum, of New Haven, Conn., secretary and paymaster of the association of naval veterans, there are about 600 remaining members and the number is constantly dwindling.

At least 200 of these are expected to attend the annual meeting, or as they call it, "dog watch," here in September.

Edward A. Kahn, chairman of the executive committee, said today that a joint meeting of the executive and advisory committees will be held at 10 o'clock on Thursday morning in the Merchants' association headquarters.

The committees will meet with Herman P. Lieber, chairman of the committee on decorations.

Mr. Lieber's committee includes some of the best-known artists and designers in Indianapolis.

Lieut. C. B. Raleigh, officer in charge of the local marine corps recruiting station, has offered the services of his entire staff for use during the encampment.

The encampment, it is believed, will bring 100,000 persons to Indianapolis.

An especially interesting article is on the latest way of canning beans and corn.

A special display of "Travel for the Stay-at-Home" furnishes interesting reading for those who are spending their vacation on the front porch.

The children come in for their share of attention at the branch library in the story hour which is held every Thursday at the Riley playground on River avenue.

Stories of fairies, goblins and daring adventure are told to the kiddies.

Suitable books for children are also circulated as part of the work of the story hour.
