

SAYS RUSS IDEA IS TO DEVELOP POLE, NOT CRUSH

Soviet Official Declares Enemy Would Be Trusted to Build Peace.

LANDLORD REAL TARGET

The following interview with Gen. Tchitcherine, foreign minister in the soviet government at Moscow, is the most important utterance which has come from a Russian official since the Russo-Polish situation grew into a world problem.

It is most timely to hear Gen. Tchitcherine in detail the peace terms which will be handed to Poland when the Russo-Polish conference opens in Minsk.

The interview contains the first official denial out of Moscow that the Russian army generals have obtained control and are refusing to obey the orders of the civilian members of the soviet.

BERLIN, Aug. 14.—"Russia does not intend to crush Poland, but she does plan to create a great army of Polish workmen, as a counterpoise to the Polish imperialists," today said Gen. Tchitcherine, foreign minister in the Russian government at Moscow and noted as the diplomatic brains of the soviet.

The latest of two century newspaper methods was employed to obtain this statement with the detailed peace terms which Russia is offering to Poland—an interview by wireless.

can be obtained for immediate consideration. That is believed impossible.

When it comes up in regular order Tuesday a motion will be made to pass the senate resolution.

Several hours' debate are expected before the members vote.

Ratificationists claim they have at least sixty votes, then now, and that they will climb on board the suffrage band wagon between now and Monday.

Only fifty are necessary for a constitutional amendment.

Mrs. Carrie Chapman Catt has issued an emphatic denial of a charge made against her in the senate debate by Senator Candler, the only republican senator to vote against ratification.

Candler charged Mrs. Catt had advocated intermarriage of the white and colored races.

Her denial was: "It is an absolute lie that I have at any time advocated intermarriage between the white and negro races."

"Furthermore, I believe it to be an absolute crime," she said.

She was severely rebuffed by the galleries.

TOO MUCH BOTTLE, M'GRAW VERDICT

Doesn't Remember Anything About Slavin Injury.

NEW YORK, Aug. 14.—Manager John J. McGraw of the Giants told Assistant District Attorney Unger today he had no idea how John Slavin, actor, came to be found lying on the sidewalk with a fractured skull just after a taxi ride with McGraw and another man early last Sunday.

McGraw said his mind was a blank as far as that episode was concerned.

Unger and Dr. Frank McGuire of the Tombs prison called at McGraw's apartment to question the baseball man about the fight at the Lamb's club in which he was severely beaten and to ask him how Slavin was injured.

No newspaper men were present, but after leaving the apartment Unger said McGraw told him he could remember nothing from the time he was with McGraw and the taxi driver until he woke up in bed the next day at noon.

McGraw said he understood he was hit with a water carafe.

He admitted, Unger stated, that he had been drinking.

Unger said he suggested to McGraw that the combination of a bottle and a bottle and hitting the bottle was too much for him, and McGraw, according to Unger, agreed that it was.

Dr. McGuire examined McGraw and said he found a laceration on the head which was healing and a black eye, now rather faded and getting back to normal. Pulse and temperature were normal, he said.

It was considered unlikely this afternoon that any prosecution would result from McGraw's case as there is nobody to make a complaint.

MIGHT BE LADY, BUT 'TIS NOT SO

Phobia Libatus Is Name of Disease Aiding Prohibition Agents.

SEATTLE, Wash., Aug. 14.—Prohibition has produced a new mental disease, according to Donald A. McDonald, state director of federal prohibition.

And the new disease is proving one of the most potent weapons of enforcement of the prohibition law, he says.

Although he admits science has probably not yet classified the new mental disease, he has already given it a name—phobia libatus.

"Phobia libatus is a compounded term borrowed from the Greek and the Latin," Director McDonald said, "expressing in phobia an unreasonable fear, and in libatus an explanation that the fear is one against pouring out a social drink or taking a satisfying draught from the neck of a bottle."

"I attribute this phenomenon of the mental revolutions as directly traceable to the variety of common moonshine whisky we have with us."

"At first this phobia did not exist. Then a number drank freely, some of them were killed, and others quantities of fuel oil. Some died and others lingered in hospitals. The quality of the liquor being sold was not inquired into at first."

"Now that many persons will not accept a drink without a signed and sworn affidavit of the antecedents of the beverage, and an absolute knowledge of its origin, I find the disease as it grows does vastly more to put the bootlegger out of business than my own force of agents. It is still spreading in Seattle."

VILLA BREAKS WITH FEDERALS, IT IS RUMORED

Wanted Small Army of Own Paid by Mexican Government.

by either of the leading parties for state office.

WOMAN CAN'T MAKE SACRIFICE.

She said she did not feel that she could make the sacrifice of resigning her present position to become a candidate.

Dates for meetings to be held in connection with the democratic campaign next week have been announced by Bert Hendren, chairman of the democratic state speakers' bureau, and by Miss Julia Landers, chairman of the women's speakers' bureau.

The big meeting of the week will be the Cox meeting in South Bend, Thursday, in connection with the meeting of the Indiana Democratic Editorial association.

Gov. Cox will make two addresses, one in the afternoon and another in the evening.

Dr. Carleton P. McCulloch, democratic candidate for governor, will speak as follows next week:

Tuesday afternoon, Dupont; Wednesday afternoon, City; Thursday afternoon, Hymera; Friday afternoon, Attica; Saturday afternoon, Centerville.

Other speaking dates for the week are: Charles Orsborn, federal prohibition director, at Ellettsville, Thursday; Dick Miller, Friday afternoon, Attica; Albert Stump, Tuesday, Greencastle, as a night meeting, and Wednesday afternoon at Attica.

Dates for women speakers next week are as follows:

Monday and Tuesday, Mrs. Grace Julian Clarke will speak on the league of nations, at Fowler, Raub and Oxford.

Monday, Mrs. Clara Horstmann, Moore, who was an alternate delegate to the San Francisco convention, will speak at Vincennes.

At Villa's request the tiny village of Tlahualilo, Durango, was chosen for the final surrender and it will be staged there unless hostilities are resumed during the coming week or unless Pancho changes his mind again.

The place selected is at the end of a railroad line in the extreme northern corner of Durango. Villa evidently desired the remoteness to be held in some isolated place vetoing suggestions that his men lay down their arms at Torreón or Gomez Palacio, where large crowds could see the famous Villistas surrendering.

Villa is believed to fear that if his men are disarmed in the presence of a big crowd they may be attacked.

This whole district has suffered from the ravages of the people would like to see him dead.

WOULD DISARM IN DRY TOWN.

Villa also favored Tlahualilo, Durango, because it is a dry town.

It is controlled by an American cotton growing concern which enforces virtual prohibition.

Mrs. Catt did not want to take any chances on his men being unkindly if they were suddenly unkindly with wealth in a "wet" town.

The Villistas are all at Tlahualilo now. They have been pouring in during the last two days from San Pedro, where their leader personally surrendered.

It is like a big excursion and the handling is having as much fun as schoolboys on a holiday.

They rode on top of the freight cars and put their horses inside.

They were like wild west as the reformed outlaws swarmed down from the roofs of the cars and led their horses, slipping and sliding down the runways.

They mounted their steeds and milled around the town, swaying lards and clicking six-shooters dilling the air with wild cries.

Ad Club Gives Annual Dinner and Dance

The Indianapolis Advertising club gave its annual dinner and dance at Broad Rippel hall last night.

There were numerous games and contests and a large quantity of fried chicken.

Prizes were donated by the Brunswick Shop, Leo Kraus, Indianapolis Light and Heat Company, Merchants Heat and Light Company, American Ever-Ready works, Valentine & Co., Goldstein Bros., American Cigar Company, Fuller-Ryde Musical Company and by the club.

Police Bullet Halts Supposed Store Yegg

A bullet from the revolver of one of the police emergency squad halted a negro who said his name was Albert M. Burdette, 17, 2302 Yandes street, early today.

The man is in the City hospital with a bullet wound in his right leg.

The police received a call from Clyde Warman's grocery, 2502 Martindale avenue, at 12:40 o'clock this morning, when H. W. DeHart, 2518 Martindale avenue, found some man breaking in the rear door.

When the police arrived they saw a man run from the rear door into a paved patch and four policemen opened fire.

Burdette was found lying in the weeds and the police said admitted he was trying to break into the grocery.

Burdette, charged with burglary, is held in the detention ward at the hospital.
