

TAGGART OPENS TOUR WITH DEFI- ANT 'TO PARTY' JABS

(Continued From Page One.)

stration by making a purely personal assault on the record of President Wilson.

POINTS NEED OF MONEY FOR SUCCESSFUL WARFARE.

Mr. Taggart referred to the statements of expenditures of the Administration during the war and admitted they were large.

"It is impossible to have war and engage in it successfully unless we spend money," he said.

"But the money spent in the war was amply repaid by the new army and in good health of our soldiers and sailors."

"Democrats in this community are confident that Nov. 2 will see the return to power of the Democratic party."

He was enthusiastic about Taggart and leaders in the community seem to think "there is nothing to it but Tom."

"Tom Taggart is a safe, sound business man," said William S. Ellis, judge of the Madison County Superior Court, who attended the Taggart meeting at Anderson.

"James D. Watson is a reactionary and is a member of the notorious senatorial oligarchy."

"The people have been waiting for a change in the management of the Senate from Indiana and I don't think they are going to overlook their opportunity."

George T. Beebe of Anderson and Mrs. E. Dehority of Elwood, men and women's chairmen, respectively, of the Madison County Democratic organization, were also in their declarations that Mr. Taggart's four-square statement of the war question and his attitude favoring the adoption of the League of Nations will make him the winner in the Senatorial contest.

The men and women of this section are for prohibition and for the League of Nations, and will vote for Taggart, they said.

Mr. Taggart's Anderson speech follows, in part:

"If I am elected Senator I shall regard myself as a director in a corporation, charged with the responsibility of aiding its management for the interest of the stockholders—the people."

"I will endeavor to aid in administering it in a manner that would make you good dividends by not taking out of your pockets money unwisely for the management of the corporations interest."

"I shall, my friends, if elected, be vigilant in my support of the great objects of the Government, namely, to guard the rights of the people to life, liberty and the pursuit of happiness at as little cost to them as it would be possible to do in justice to the public welfare."

DEFIES CRITICS TO POINT WRONG ACT.

"Some one may say I have always been a party man. I have."

"But I challenge any man to point out anything I ever did officially during the six months I was in the United States Senate that was not for the best interest of the people."

"As I served the people then so shall I again represent them if by your vote I am re-elected."

"I have watched pretty closely for several years the different administrations in this State, and I think I have a pretty fair understanding of the character of legislation of the State during the past twenty-five years as well as the management of State affairs, and I say unhesitatingly that during that period more progressive legislation has been enacted and State affairs have been better handled by the Democrats than by the Republicans."

"I shall not take time to review the State record of each party. You have a pretty good estimate of them; it is, therefore, unnecessary for me to discuss them at any length."

"I do, however, want to remind you that when the Democratic party turned over the State government over to the Republican party in 1917 the State was for the first time in eighty-two years out of debt."

"That is not all, there was at that time a condition existing never before known in Indiana."

"The State was not only out of debt, but there was three and a half million dollars in the State treasury."

"Our Republican friends undertook to do, enact a tax law in 1919, but I think you will agree with me it is one of the most unpopular laws ever placed upon the statute books of Indiana."

"It is almost universally condemned and this is not strange when we recall it makes a most marked departure from the fundamental principles of our Government."

"It is largely constructed upon the idea of centralization and the people established our Government against that principle."

"This law deprives the people of the local self-government, guaranteed to them by the Constitution on the matter of fixing their local tax levies and exercising their borrowing powers."

"I feel that the people of Indiana will no longer submit to that kind of law, and that they will in the near future elect that splendid soldier and high-minded gentleman, Dr. McCulloch to the Governor's Chair, with a Democratic Legislature at his back, firmly opposing the un-American law the Republicans have enacted and follow this by legislation to conserve the highest interest of the people and to give to the taxpayers of Indiana a fair, progressive and business administration."

promised to lift their boycott against the police.

Belfast, scene of much rioting, was quiet last night except for small outbreaks in which stones flew.

The riots of the last week resulted in such a storm that Dublin Castle hastened to start investigations.

The Archbishop of Canterbury has issued a call for a week of prayer on the Irish and industrial situations.

The British press continued to call for action to stop reprisals.

Repression of Irish law-breakers, is necessary, the Express said, but it is a house for killing, pillage and arson by the crown's forces is intolerable.

The Times wondered whether the government realized the necessity of a law to which it is answerable.

It was believed here any attempt to end reprisals would result in severe penalties for Sinn Feiners.

Democratic Women to Renew State Effort

Miss Julia E. Landers, State chairman of the Democratic Women's Speakers Bureau, will formally open the Democratic women's campaign in Ohio at Columbus next Monday night.

Mrs. Nancy M. Schoonmaker, who will speak at the big all-women's meeting Thursday night, will also speak in Indiana Oct. 4, 5 and 6, speaking at Hartford City the night of the sixth and at Connersville the night of the seventh.

Miss Carl Williams has made the following engagements for Indiana: Huntington, Oct. 9; Crawfordsville, Oct. 11; Terre Haute, Oct. 12; Greensburg, Oct. 13.

KIWANIS PLAN FOR BIG CROWD

Expect 2,000 Delegates and Visitors at Convention.

The local committee in charge of the State convention of Kiwanis Clubs, to be held at the Hotel Severin Wednesday and Thursday of this week, count on expecting a large number of delegates and visitors.

Two thousand Kiwanians and their families.

Among the men who will be here to put "pep" in the gathering will be Charles E. (Chic) Hutchins, State secretary, of Marion, Ind., and W. F. Satter, State treasurer, of Lafayette.

"It is going to be the crackling convention of the club," a response by H. S. Alnutt, president of the Evansville Kiwanians; reports from the district governor, district secretary, district treasurer and the individual clubs, and an address by the Rev. M. S. Barnwell, president of the Birmingham (Ala.) Club.

The principal feature of Thursday morning's session will be the election of officers and an address by the Rev. M. S. Barnwell, president of the Birmingham (Ala.) Club.

OFFICIAL PLAN ROUND TABLE DISCUSSION.

Preceding the formal opening of the convention, there will be a presidents' and secretaries' round table discussion Wednesday morning, with J. L. McCulloch, president of the Indianapolis Kiwanians, and Charles E. Hutchins in charge of the secretaries' meeting.

There will be a smoker Wednesday evening for the members, with an especially good program, and a theater party for the members and visitors, who will also be taken on an automobile ride about the city Thursday.

It is expected that there will be a lively struggle between Ft. Wayne and Kokomo for the 1921 convention.

EARL CHAPPELL ALSO INDICTED

The Marion County grand jury today returned an indictment against Earl Chappell, who is now in jail pending investigation of his connection with the prohibition violations of "Goose" Lee, a negro politician, who is now serving sentence at the Indiana State farm.

Chappell was indicted on a charge of leasing a motor vehicle for \$20, which was cashed by Robert H. Parker of 728 East Washburn avenue.

Lee intends to stay on the penal farm only as long as it requires to obtain an appeal bond.

Sheriff Miller stated that he took Lee to the State farm Saturday and contends that Lee is still there, although rumor has it differently.

Geo. W. Woodson and Julius Vorehen were sentenced in the Criminal Court to serve from six months to five years each at the Indiana Reformatory for vehicle stealing.

Harry Perkins and Isaac McIntire, negroes, were sentenced to serve from two to fourteen years at the reformatory on a charge of second degree burglary, and Eugene Lee, a minor, was sentenced to serve a year on the penal farm on the same charge.

Fred Froeh, 18, was sentenced from six months to five years at the reformatory on a charge of vehicle stealing.

mander, and the lining up of the Hilltop delegation behind Col. F. W. Galbraith of Cincinnati, the latter stepped into the leadership in the race for chief honors, closely followed by Col. Harford MacNider of Mason City, Iowa.

Col. J. F. J. Herbert of Worcester, Mass., has strong backing from New England and scattered support from other sections.

It is reported that the Massachusetts man will be presented to the convention by ex-Senator Luke Lea of Tennessee.

It is still a race among colonels. No back parties' names have been mentioned.

Opposition to both MacNider and Herbert developed in the lobbies last night. The Iowa is opposed because of his record, while Herbert is said to have opposed Gov. Calvin Coolidge's stand on the Boston police strike.

National Commander Franklin D'Olier today will present a check of \$500 for back compensation to Jack Kelley of Chicago, said to be the most decorated man of the twenty-seven local honor guests of the convention.

LEAGUE ADHERENTS SEEK LEGION BACKING.

Supporters of the League of Nations will make an effort to have the American Legion convention here endorse the covenant, it was learned today.

The resolution probably will only request complete fulfillment of the peace terms as designated at Versailles.

Col. F. W. Galbraith, Cincinnati, today was the leading contender for the national commandership.

Milton J. Foreman, Illinois, has withdrawn from the race, Harford MacNider, Iowa, was Galbraith's closest competitor.

Elections will be held tomorrow.

DRUG SECRETARY BAKER TO PUBLISH SLACKER LIST.

A resolution calling on Secretary of War Baker to publish a list of slackers was passed without debate.

The committee also approved the system of compulsory universal training, which shall include physical training, educational training and Americanization, as well as efficient military training, to form a foundation for future extended military training in time of war.

The measure also favors a policy of "keep out of control of any purely military organization."

It characterized the standing army as uneconomic and un-American and urged that exclusively military training be kept out of the National Guard to the maximum strength.

The creation of a new cabinet post, deal exclusively with the United States air service was urged on Congress.

COAL MINE HEADS' TESTIMONY ENDS

Hear Jobbers and Wholesalers at Statehouse Tomorrow.

Lower coal prices for Indiana seemed probable today.

The State's new coal commission created by the General Assembly to regulate the industry, will whitewash down the prices, it was learned, unless the retailers and jobbers present price data to counteract that given the commission by the mine operators.

Many other points were advanced in interest of the petition by Attorney Thompson and Judge Hay asked many questions besides hearing the Tutthill-Kiper act in full.

Attorney Thompson argued for more than two hours this morning and resumed speaking at 2 o'clock.

Deputy Attorney General U. S. Lash was to follow Mr. Thompson.

Defendant Ralph Lemcke, county treasurer, took the stand and testified that his office was open for the collection of taxes on the figures on the tax dupliates which now includes the horizontal increases.

He stated that if the taxes were not paid on time the property involved would be sold at a sale in an effort to collect back taxes.

This admission of Lemcke was one of the chief contentions of the farmers that unless Lemcke was restrained they would deprive of their property without due process of law.

The hearing was scheduled to continue throughout the day.

SAYS TAX BOARD HALT IS ILLEGAL

(Continued From Page One.)

zonal increases as made by the State Tax Board on Aug. 23, 1919, put on the tax duplicates, amounted to the setting aside of final finding of the Indiana State Supreme Court.

"Such an action can result in nothing else but the entire usurpation of the judiciary," said Attorney Thompson, "if the taxpayer act can be applied as it has been done, then no security can be granted to a litigant in court," he contended.

Council contended the point that if the Legislature can meet in special session and enact a law which gives the State Tax Board the power to do something which the State Supreme Court and Judge Hay had declared to be illegal, then final decrees of court can be "wiped out and set aside at will."

This contention appeared to be one of the strongest points of the argument of Mr. Thompson and a point on which he devoted much attention and cited many court opinions.

The declaration of the declaration of Judge Hay in declaring the horizontal increases illegal and void is still in effect and force because the State Supreme Court upheld the finding of the lower court.

"They have placed the same old horizontal increases on the taxpayers of Marion County without a single change, the very same horizontal increases which your honor and the State Supreme Court declared to be void," stated Mr. Thompson to Judge Hay.

Another point on which Mr. Thompson argued at length was that neither the tax board or the county board of review issued notices to the taxpayers that hearings were to be held for the purpose of increasing assessments for 1919 under the guise of authority of the Tutthill-Kiper act.

The attorney went into detail concerning the alleged excessive burden placed upon the taxpayers by virtue of the horizontal increases because the property was assessed above the true cash value.

Many other points were advanced in interest of the petition by Attorney Thompson and Judge Hay asked many questions besides hearing the Tutthill-Kiper act in full.
