

IDENTIFY SECOND  
AMNESIA VICTIMCharles Koepfen, Milwaukee,  
Claims Hospital Patient.

Charles Koepfen, 414 1/2 Thirteenth street, Milwaukee, Wis., today identified amnesia victim "No. 1" at the City Hospital as his son Erick Koepfen, 32, who disappeared from his home in Milwaukee about six weeks ago.

Erick, however, failed to recognize his father and declared he did not remember having seen him before.

It was almost six weeks ago that the man appeared at police headquarters and said he had been ill and was unable to tell his name or anything about where he formerly lived or what employment he had followed.

The stranger was sent to the City Hospital, where physicians said he was suffering from amnesia.

A few days later a second amnesia victim appeared, but this man was later identified as C. C. Canast, an ex-soldier from St. Mary's, Canada.

The police have tried vainly to identify Koepfen.

A careful examination of his clothing showed that a necktie he was wearing had been purchased in Milwaukee.

The man's picture was sent to the police of Milwaukee with a statement of the case and John T. Janssen, chief of police of that city, remembered that Koepfen had reported his son missing at about the same date that the amnesia victim appeared in Indianapolis and he sent for him.

Koepfen appeared at local police headquarters and showed a letter of introduction from Chief Janssen.

"My son is a bookkeeper," Koepfen explained, "and he is married and has one child."

"When he was 16 years old he fell from a bicycle and suffered a severe injury to his head."

"Since that time he has suffered such severe headaches that it was necessary for him to remain in bed for two or three days at a time."

"It was during one of those times when he had been ill with a headache that he got up from his bed, dressed and walked from the house."

"My son never served in the army or navy."

## HOROSCOPE

"The stars incline, but do not compel."

WEDNESDAY, SEPT. 29.

While Jupiter rules strongly for good today, according to astrology, Venus changes from benefic to malefic aspect. Uranus is strongly adverse.

Business enterprises of all sorts should benefit during this position of the stars. Commerce should benefit through some rather daring venture initiated by Western financiers.

For capitalists and all who possess large resources extraordinary opportunities for adding to wealth will come again through foreign countries.

Lawyers will have great prosper from this time on for there will be an unusual amount of litigation.

There is an auspicious time for professors and teachers of every class. A college professor is to receive high honors through a political party.

Love affairs are subject to the most variable and uncertain influences that make for fickleness and unfaithfulness.

It is not a lucky wedding day, since they who pledge their troth when Uranus frowns may soon find that they cannot agree.

Women will start a national movement that will mark a great step forward in the progress of the arts, the seeds of which have been sown in the past.

This year will in some manner knit together the forces that cherish beauty and develop the higher talents.

Persons whose birthdate it is may have a most eventful year, in which their resources will be tested.

Children born on this day may be too carefree to be quickly successful in obtaining an education or in progressing in business. They will probably have great possibilities if they are wisely trained.—Copyright, 1920.

Club Plan Creates  
Interest in Battery A

The plan of forming an athletic club out of members in training to increase enlistments in the famous old Battery A of the 1st Regiment, Field artillery, Indiana National Guard materially, officers announced today.

The outfit is being reorganized at the armory at Sixteenth street and Senate avenue, enlistments being received from 7 to 9 o'clock each evening.

The battery will be motorized by the War Department as soon as at least fifty members are enrolled and a supply of athletic equipment is on hand ready for use.

National guardsmen receive pay which equals one-fourth of that of the regular army, which, in the case of a private is \$7.50 per month and this is serving as an added incentive for enlistment, officers state.

Keeper and 11 Others  
Fined for Gambling

George Praeger, proprietor of a poolroom at 1323 Lexington avenue, was found guilty yesterday afternoon in City Court of the charge of keeping a gambling house and fined \$10 and costs and sentenced to serve thirty days in jail.

Eleven men caught in the raid were each fined \$5 and costs for gaming.

Charges against a 16-year-old boy were dismissed, but charges against a 14-year-old boy caught in the raid will be tried in Juvenile Court.

## ASK YOUR NEIGHBOR

So many thousands of women have been restored to health by Lydia E. Pinkham's Vegetable Compound that there is hardly a neighborhood in any city, town or hamlet in this country where some woman has not found health in this good old-fashioned root and herb remedy. If you are suffering from some womanly ill, why don't you try it?

IF SKIN BREAKS  
OUT AND ITCHES  
APPLY SULPHUR

Just the moment you apply Menthosulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Menthosulphur at any drug store.—Advertisement.
