

DENTON'S BODY SHOWS POISON, ANALYST SAYS

LOS ANGELES, Cal., Sept. 29.—Primary indication of poison, probably arsenic, was found yesterday by Prof. Arthur Mass, making a chemical analysis to ascertain if a death drug was used in the murder of Jacob C. Denton. Mass discovered that parts of the body given for his analysis were in a far better state of preservation than the entire body, which was badly decomposed.

These parts were the stomach, one kidney and part of the liver.

The fact that these digestive organs were preserved indicated that they had received a powerful poison which acted as an embalming agency, Professor Mass stated.

Arsenic would have the effect of preventing decomposition, he said.

Professor Mass' disclosure was not his final report, which is expected to be ready in the coroner's inquiry at Wednesday's session.

It was apart from the actual chemical analysis by which the ultimate test is made.

The state of the digestive organs submitted to him, Professor Mass said, was nevertheless a primary indication of poison.

EARL CHAPPELL ALSO INDICTED

The Marion County grand jury yesterday returned an indictment against Earl Chappell, who is now in jail pending investigation of his connections with the prohibition violations of "Goose" Lee, a notorious political and underworld leader, in the Indiana State farm.

Chappell was indicted on a charge of issuing a fraudulent check for \$50, which was cashed by Robert H. Parker of 728 East Wabash avenue.

Lee intends to stay on the penal farm only as long as it requires to obtain an appeal bond.

Sheriff Miller stated that he took Lee to the jail yesterday Saturday and contends that Lee is still there, although rumor has it differently.

George Woodson and Julius Vorren were sentenced in the Criminal Court to serve from six months to five years each at the Indiana Reformatory for vehicle stealing.

Harry Perkins and Isaac McElroy, negroes, were sentenced to serve from two to four years at the reformatory on charges of second degree burglary, and Elsie Lawrence, a minor, was sentenced to serve a year on the penal farm on the same charge.

Fred Frosh, 18, was sentenced from six months to five years at the reformatory on a charge of vehicle stealing.

SAYS ODOR WAS ONLY MEDICINE

The board of public safety yesterday took the case of Patrolman Henry F. Hare, 314 East New York street, charged with having an unbecoming odor, under advisement, following testimony of several superior officers that he was found in a drunken condition at Oriental and Washington streets on the night of Sept. 12.

Several witnesses testified that Hare has always been an excellent officer and declared that they had seen him on the night in question and believed him to be sober.

Hare said he had been taking medicine for a scratch for several months and indicated that his superiors may have mistaken the smell of it on his breath for liquor.

The board announced that since adequate water mains have been laid in the vicinity that it will no longer oppose the man's assignment to the Capitol Lumber Company for the rebuilding of its yards at Forty-ninth street and the Monon Railroad.

The yards were burned several weeks ago and residents of the vicinity remonstrated against the rebuilding until fire protection was available.

The resignation of Harold R. Galloway as chief of the board of public safety was accepted and Homer L. Barton appointed in his place.

John Pitts and Clarence Taylor were appointed substitute firemen and James O'Brien and Howard R. Ten Broek appointed patrolmen.

Resignations of Fireman John Donahue and of Bicyclist Joseph Gibbons were accepted.

A person of being absent without leave was preferred against Private Frank Alexander of Engine Company No. 6 by Fire Chief John C. Loucks.

Offers to Purchase Sunnyside Bonds

Announcement was made by County Commissioner Joseph Hayes yesterday C. C. Schip, a local broker, had submitted bids for taking \$10,000 worth of the Sunnyside bonds which the county has been unable to sell because of the low interest.

"It is Mr. Schip's intention to take the remainder of the \$150,000 bond issue," said Mr. Hayes.

When this money is obtained, Sunnyside, the county tubercular hospital, will be able to complete its equipment of the power and heat plant, which must be in operation by fall.

Justice Department Rejects Packers' Plan

WASHINGTON, Sept. 29.—The Department of Justice yesterday rejected in its entirety the plan of the packers to divest themselves of their interests in fifteen large stockyards to a holding company to be organized by F. H. Prince & Co. of Boston.

Oregon Demands Jap Guns Sold Huerta

SAN ANTONIO, Texas, Sept. 29.—Gen. Alvarado Obregon has demanded that the Nicaraguan government deliver to Mexico a million mauser rifles purchased from Japan during the regime of Victoriano Huerta in 1912, according to information received here by military authorities.

The rifles were shipped to Nicaragua to be resold into Mexico and used against the United States in the occupation of Vera Cruz and Tampico, after the Tampico incident.
