FILE REPORT ON WRECKED AREAS

BRUSSELS, Oct. 2.—Reconstruction of the devastated areas of France was declared as absolutely essential to the financial adjustment, not only of France, but of Europe at large, by French financial experts, in a report submitted to the economic conference in session here.

The report of the American experts pointed out that the United States also had suffered financially from the war, though the report added that American finances were on a relatively solid basis.

The various countries were urged to draft their reports for the final debate.

STATE FIXES \$4 COAL PRICE FOR UTILITY SUPPLY

(Continued From Page One.)

cut of the normal supply of Eastern coal, he said.

He expressed belief that if the Indiana mines receive enough cars to operate their plants for four or five days, work there will be no shortage of coal in the State in thirty days.

John A. George, president of the Indianapolis Industrial Company, spoke along somewhat similar lines and also introduced coal sheets of the company to show gross margins, not including depreciation, distribution, bad accounts or profit.

Mr. Yeagley offered the assistance of the association's accountant towards furnishing the commission with further data regarding gross margins, and it was decided that an accountant of the commission would go over these figures with the association's accountant.

WON'T RECOGNIZE HIGH SALARIES AS COAL "COST."

Mr. Eschbach said, however, that the commission would not be bound by all of these items—that it had been shown at the morning hearing that the administrative cost of handling 151,000 tons of coal by the company had been \$60,000, and that the commission did not propose to allow exorbitant salaries to officials as an item of cost in handling coal.

Mr. Eschbach said that he had had a jobber \$7.25 a ton at the mine for one and one-quarter ton-inch lump coal in order to get two cars and that this coal had been sent to him around through Illinois, at a freight charge of \$1.63 a ton.

A number of the dealers spoke of acute shortages of coal in their cities and towns, and Mr. Eschbach invited those where these shortages existed to write to him, yesterday afternoon preferably, setting forth the details, and said that if possible the commission would take steps to relieve the condition at once, but that in such cases the coal should be given out only in small quantities to consumers.

HARDING SPEAKS AT RURAL PICNIC

Wires Heckler a Refusal to State League Stand.

WEST JEFFERSON, Ohio, Oct. 2.—An old-fashioned farmers basket picnic and barbecue at Wilson's Grove, near here, offered the setting for Warren G. Harding's speech today.

After a luncheon after breakfast, Harding motored to Wilson's Grove, where ten thousand farmers gathered from the great central Ohio corn belt.

Harding spoke briefly on agriculture, declaring the alleged neglect of the American farmer is the welfare of the American people.

Harding advocated: Government aid to farmers purchasing land; cheaper distribution of farm products through cooperative marketing; more efficient rail and motor transportation and protection of American agricultural products from cheaper foreign competition.

The Republican nominee is finding the League of Nations issue the most troublesome of his campaign.

Headquarters staff professed ignorance regarding the alleged intention of Senator Borah, Idaho, a treaty irreconcilable, to quit the stump.

Harding sent a telegram to Edward A. Ryan, Washington, D. C., the heckler who interrupted his speech, declaring his meeting faithful declining to state more fully his attitude on the league issue.

Ryan had asked Harding if he favored scrapping the league and was arrested by the police.

He followed this with a telegram to Harding, repeating the question.

Replying, Harding expressed regret for the incident, but declared he could not agree to answer the question just as Ryan chose to frame it and added that his task was to harmonize views of different groups so that a policy could be adopted which would have the united support of the country behind it.

BALTIMORE, Oct. 2.—Edward A. Ryan, Washington attorney, who was elected from the mass meeting Monday during an address by Senator Harding, and placed under arrest, announced today that he would file suit for \$10,000 against Galen T. Holt, Republican chairman, and police officials. Ryan was elected after he had attempted to question Senator Harding on the latter's stand on the League of Nations.

Hundreds Attend New Branch Bank Opening

New patrons of the West Indianapolis branch of the Fletcher Savings and Trust Company appeared by the hundred when the first of the new community banks was opened at 1233 Oliver avenue.

Before noon today more than 400 West Indianapolis business men and others had called the new banking rooms, according to Charles E. Holt, branch manager.

The total deposits at the new institution had far exceeded the expectations of the management of the Fletcher Savings and Trust Company before the first day's business was on-half completed, and indications were that fully 1,000 persons would have made use of the new community bank by tonight.

The Oliver branch is the first of a chain of branches which will take the service of the company to many of the smaller business and residential centers of the city, as it rapidly expands.

The same plan has met with phenomenal success in many of the larger cities.
