

POLITICAL ACTS OF McCRAY ARE THORN IN SIDE

(Continued From Page One.)

case on file in the office of the clerk of the Supreme Court.

It discloses:
1. That McCray arranged to have a preliminary survey run to show a prospective railroad through Kentland when he had no plans for building it.

2. That he instructed the surveyor deliberately to deceive the people of the county as to the purpose of the survey.

3. That at that time McCray, who is now touted throughout Indiana as a "real dirt farmer," was, according to the findings of the court, "a real estate owner, banker and elevator man," while his confederate in this suit was the only farmer involved.

RECORDS BEAR OUT ALL STATEMENTS.

There can be no doubt of the exact truth of the finding of facts made by Judge Hauley.

The case was returned by this time and Court affirmed and there is nothing in the record showing that McCray disputed the statement that he procured Bayard Taylor to perpetrate this fraud on his neighbors in Newton County.

This record contains two letters from Mr. McCray to Taylor, which letters no more toward giving the people of Indiana an insight into the character of Warren T. McCray than anything that has heretofore been produced in this campaign.

One letter reads as follows:
McCray, Morrison & Co.
Wholesale Grain Dealers,
Kentland, Ind.

May 19, 1902.
Mr. Bayard Taylor, Secretary,
Chicago, Ill.
Dear Sir:

We arrived home Friday and presume Mr. Olson has returned by this time and made you a complete report of the interview in New York. Let us know what you are doing and what hope you have of success.

I want you to enter the north end of the county the first of next week and solicit for the right of way; you can put up a good talk and go at it just as though you expected to complete the road. I would go along the line about as we expect to build the road in case it is built. In fact you are not to know anything about the county seat rumour we are in.

I would start over in Lake County a piece and come down. Would not just start at Lake County or the matter might be too obvious. I would spend two or three days in Lake Township, going from there to McClellan on down to Beaver. Our county seat election is due the 7th, and we want to make the north end of the county well before that time.

Please advise us what you expect. You will understand, of course, that this matter is to be strictly confidential, and you must act in good faith and be an earnest advocate of the right of way. I am still hopeful will be built on some plan or another.

Please let me know if you are willing to do this. We thought it hardly worth while to go to the expense of running a line, as your presence there talking the road and soliciting the right of way, taking contracts, etc., would in effect amount to the same thing and be considerably cheaper.

Let us hear from you on this promptly. Please destroy this letter after you read it. I would also say if there is anything you think any of us can do to assist you in complying with Mr. Lawrence's demand, we will be pleased to know it. If you fail in securing contracts that will be satisfactory, please let us know, as we may have something to suggest that may be of value to you.

Yours confidentially,
(Signed) WARREN T. McCRAY.
Another letter from the man who now aspires to be Governor of Indiana reads: TAYLOR'S PRICE WAS STEEP FOR WARREN.

McCray, Morrison & Co.,
Wholesale Grain Dealers,
Kentland, Ind.

May 23, 1902.
Mr. Bayard Taylor, Secretary, 351 Marquette building, Chicago, Ill.
Dear Sir—Your favor of the 21st at hand, and replying, will say to same, \$35 seems a little steep for the work. I suppose a full engineering corps would not cost to exceed \$20 per day, and it certainly would not take fifteen days to do our work. We want you to figure this as

clearly as you can, allowing yourself good fair wages. We want the work done, however, and want you to start to do it Monday morning. I would start in Lake County and come down through this county.

You know, of course, you are not to know anything about the situation here, neither are you to know anybody in Kentland, more than just to know them through the railroad proposition.

You must be entirely innocent regarding county seat affairs, and be sure you do not make any statements that could cause anybody to know you were in collusion with us. Do not mention our names in any way if you can avoid it.

We enclose herewith a draft for \$300. You will please see if you can do this work for less than \$350 and let us know. We will do our correspondence through your Chicago office. We can write there and Mr. Olson can forward it to you wherever you are. We want you to put up a good stiff talk and convince them that the road is a sure thing. We also want you to run this line where it will be suitable for railroad purposes.

We are in receipt of a letter from Mr. Lawrence and he still has faith we will be able to build the road. I rather think he is anxious to do this work, and if you make a good showing there will be no trouble about it being built.

We do not like to talk over the phone, as it has to go through Goodland and they, of course, hear everything we say. For this reason do not call up over the phone, neither will we call you up. Remember, all correspondence is to be conducted through the Chicago office.

Please advise us by return mail what you think this will cost, and try not to make the whole expense over \$300 if you possibly can. We are very much impressed with the idea that it would make a much better showing to have the surveyor along and set stakes than just to go right through. The argument you advance in this matter is good and we cost any more than can be helped. We are already at enormous expense in this matter and have to watch carefully our expenses. Yours respectfully,
WARREN T. McCRAY.

HE DARKENED HIS
GRAY HAIR

Tells How He Did It.

Mr. J. A. McCrea, a well-known resident of California, who was called Daddy and Grandma on account of his white hair, and who darkened it with a home-made mixture, recently made the following statement:

"Anyone can prepare a simple mixture at home that will darken gray hair, and make it soft and glossy. To a half pint of water add 1 ounce of bay rum, a small box of Barbo Compound and 1/4 ounce of glycerine.

These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. It does not color the scalp, is not sticky or greasy and does not rub off."—Advertisement.

Charge U. S. Officials With Booze Traffic

WASHINGTON, Oct. 19.—Wayne B. Wheeler, general counsel of the Anti-Saloon League, charged that "a lot of Congressmen and other higher-ups around the country are involved in illegal liquor traffic."

He further declared:
"There are Congressmen who take liquor to their offices in the Capitol—maybe only a dash at a time, and maybe they invite only two or three friends to have a drink, but they're violating the law nevertheless."

Huerta Is Mediator

MEXICO CITY, Oct. 19.—Provisional President De la Huerta moved for peace in the Mexican coal strike today.

The strikers had consented to accept the provisional president as mediator. Railways and industries are near a fuel famine.

Alexander Is Worse

ATHENS, Oct. 19.—King Alexander, who is suffering from blood poisoning contracted from the bite of a pet monkey, was worse today.

His lungs are congested and his condition was described by the attending physician as "very grave."
