"The battle of the Meuse," he said, "Muzz," corrected Judge Pann.

## Trustees' Head Asks for Proof of Charge

Low Lewis, chairman of the legislative board of the Indiana Association of School Trustees, defies Prof. W. H. Black of Indiana University to present figures to prove that the present trustee system costs \$950,000 annually, of which it is charged \$600,000 is waste.

Professor Black is credited with such a statement in a dispatch from Terre Haute, where he appeared before the Federal and Interstate conference on rural education at the State Normal School.

"We also challenge the idea of being under the direction of political powers," said Mr. Lewis, "and ask Mr. Black to prove it."

"As for the waste of money, that is impossible," declared Mr. Lewis.

"In each session of the advisory board certain specifications for materials, machinery, tools, gravel, bridges, etc., are set out by that body and the township trustees are governed by the advisory board's action."

## DON'T THROW A BRICK There's a Reason

**A New Principle in Complexion Treatment**

Most creams are injurious when used habitually. They clog the pores and eventually form a permanent, soggy, stuffy film which interferes with eliminative action and makes the skin sickly and pasty. There is an application—mercerized wax—which acts upon an entirely different principle. While perfectly harmless, it has the peculiar property of removing by absorption the dead and half-dead particles of scarf-skin, as well as unhealthy matter in the pores. Thus it takes away from instead of adding to the complexion, differing in this respect from cosmetics. The result is a perfectly natural and healthy young complexion. Mercerized wax, procurable at any drug store (one ounce is sufficient), is applied at night like cold cream and washed off in the morning.

The correct principle is the treatment of wrinkles is to tighten the skin, which naturally frays out the lines. A face bath, remarkably effective in this direction, may be made by dissolving an ounce of powdered saxolite in a half-pint which basil.—Advertisement.
