

TELLS OF WHITE PLAGUE FIGHT

Dr. Pettit Recites Benefits of
Concerted Efforts.

Little progress will be made in the fight against tuberculosis until a sufficient number of sanitariums are established in every community to treat every case, declared Dr. J. W. Pettit, founder of the famous Ottawa Tuberculosis County Sanitarium in a paper read at the annual meeting of the Marion County Tuberculosis Association at Sunnyside Sanitarium today.

Tuberculosis cannot be successfully treated in the home in a great percentage of cases for the reason that special equipment and specially trained attendants and physicians are needed just as surgeons must have their patients in modern hospitals for their most successful operations, the speaker declared.

Dr. Pettit was unable to attend the meeting in person, but sent his paper on "What a Sanitarium Means to a Community" to be read.

E. E. Grant, superintendent of schools, spoke on "Health Education" and Mary A. Moyers, executive secretary of the association, gave the annual report.

CHILDREN HAVE PART IN PROGRAM.
Children patients at Sunnyside had an important part in the program.

"The advantages of sanitarium treatment are that it affords the tuberculosis invalid the most practical, indeed, the only systematic method of fighting this disease and acquiring hygienic living in its prevention," said Dr. Pettit.

"It is a most valuable educational factor, not only in the immediate locality in which it is located, but to a very great extent in the community at large.

"It has a definite and important place which can scarcely otherwise be filled in the study and investigation of the disease and its complications.

Sanitarium procedure is not such medical treatment, as ordinarily understood, as the medical supervision of which the patient stands in need, Dr. Pettit said.

"Living with the patients, adopting their mode of life, having his meals in

HOROSCOPE

"The stars incline, but do not compel."

THURSDAY, OCT. 28.

Jupiter and Saturn rule strongly for good today, according to astrology, thus dominating the evil power of Neptune.

The planetary government is most favorable to men in high positions and the aged should benefit by the aspect.

It is a rule under which "all who wear the robes of authority" may hope to prosper. Priests and judges should push their best interest during this way of the stars.

Persons whose birthdate it is have the augury of a year in which business and professional success may be expected. Litigation of any sort will be unfortunate, however.

Children born on this day will probably be extremely level-headed and persevering. Rapid success seems to be indicated for them.—Copyright, 1920.

common with them, the physician is unable to individualize the treatment.

"He studies the patient from every aspect and his life is laid out in detail. There is a fixed hour for retiring.

"He is told what time is to be spent in walking and resting.

"He is told what to eat and what to avoid.

"Regulation of body functions, proper attention to clothing, hours for temperance observations, special care in the disposal of sputum, are phases of the instructions.

"He is in no danger to himself or others when this is properly done."

He said that fads and fancies have gathered about the "so-called open-air treatment," and impossible claims have been made by inexperienced enthusiasts as to the almost miraculous efficacy accruing from sanitarium residence.

"In spite of all these exaggerations and failures, there can be no doubt but that the maintenance of a strictly hygienic course of living offers the best means known by modern medical science for dealing effectively with tuberculosis," said Dr. Pettit.

"Increased knowledge of the nature of

tuberculosis has made the establishment of institutions for the cure and treatment of those afflicted with it one of the most important questions before the people.

"It is conceded it is the duty of the State to take a hand in this crusade against man's most insidious enemy by education of the masses, the enforcement of judicious sanitary laws, and the provision of sanitariums for the treatment of the poorer people who form so large a percentage of our citizens and for the protecting and fostering care of whom it is responsible."

Barnett Heard First in Haiti Inquiry

WASHINGTON, Oct. 27.—Brig. Gen. George Barnett, former commandant of the Marine Corps, was the first witness when the naval board of inquiry appointed by Secretary Daniels to investigate the occupation of Haiti opened here today.

Barnett's charge of "indiscriminate killing" of Haitians by American marines caused Daniels to order the investigation.

Barnett, at the request of Daniels, somewhat modified his original statement.

NEW L. F. & W. SOLICITOR.
Harold Wilding has been appointed city freight solicitor for the Lake Erie & Western Railroad Company in Indianapolis.

M. L. Fetta succeeds Wilding as chief clerk to Mr. Fellows.

Barber Gives Recipe for Gray Hair

Mr. T. E. Brien, who has been a barber in New York City for many years, made the following statement: "Gray, streaked or faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following remedy that you can make at home:

"Merely get a box of Orlex powder at any drug store. It costs very little and no extras to buy. Dissolve it in 2 oz. of distilled or rain water and comb it through the hair. Full directions for use and a gold bond guarantee come in each box. One box will last you for months.

"It is safe, does not rub off, is not sticky or gummy and leaves the hair fluffy. It will make a gray-haired person look twenty years younger."—Advertisement.

Neither money nor care
is spared to keep it
clean, pure, and good.

Nearly everybody knows
how much better Polk's Milk looks—
how much better it keeps—and how
much better it tastes.

But some don't know just
why it is better—just what makes it
the favorite of a great host of Indian-
apolis people.

Here's the reason. Polk's
Milk is bottled in the Sunlight Plant
by methods that are absolutely sani-
tary and by means of the most modern
equipment obtainable.

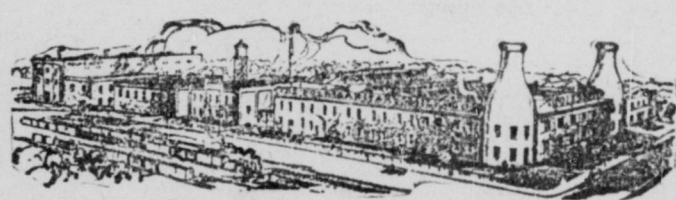

Neither money nor care is
spared to keep Polk's Best Milk all
ways clean, pure and good.
