

HOME FOR NURSES  
NEXT CITY EFFORTBond Issue for Improvement  
to Be Prepared.

Construction of the proposed \$600,000 nurses' home at the City Hospital is the next problem which the city administration will take up, now that the city council has approved the contracts for the purchase of equipment with which to complete the modernization of the fire department. Mayor Charles W. Jewett announced today.

It was said an ordinance approving a bond issue for the amount needed probably will be introduced in the regular meeting of the council next Monday evening. With the money in sight the bond of health will go forward with plans for the structure and let contracts at the earliest possible date, it was predicted. It is hoped to have the building completed and ready for occupancy before next winter.

Following this the rehabilitation of the city's parks, the proposed municipal yards at Kentucky Avenue and Drexel streets and other projects will be taken up, the mayor said.

The program of public utility extensions which the city will seek next year remains to be formulated, the chief executive said. However, he insisted, the Indianapolis Street Railway Company, despite its piles of accumulated property, will not be asked to charge two cents for each transfer, will be expected to make necessary improvements of present service and such extensions as are possible. The city will continue to insist that the company keep the paving in its tracks all over the city in good condition and put in paving between all new tracks laid as soon as they are down.

Corporation Counsel Samuel Ashby, who announced yesterday the city will vigorously oppose the two-cent transfer petition, expressed the views of the mayor. Mr. Jewett said, as Mr. Ashby stated, it is felt by the city administration the company has been and will continue to be more successful in a financial way with the straight five-cent fare than with any increase. He said, in addition to Mr. Ashby's insistence that the city should not seek to tax the interurban companies for the use of its tracks, power and terminal facilities, and he believes the company's financial strength might be increased if its valuations for taxation and for rate-making purposes were identical, instead of far apart, as at present.

LOS ANGELES, Cal., Nov. 10.—In addition to a kick on the nose by the boot of Mrs. Amelia Enrico of Burbank, it will cost John R. Grey \$2,000 for a kiss he forcibly planted on one of her cheeks. That was the amount of damages a jury here awarded Mrs. Enrico, who sued the wealthy rancher for \$25,000.

Mrs. Enrico said her kick had kick enough to make Grey discontinue his osculatory efforts.

JAPAN TO RECALL  
TROOPS IN CHINAMove Foreshadows Effort to  
Establish 'Clean Record'.

TOKIO, Nov. 10.—Voluntary cancellation of the Chino-Japanese military agreement and withdrawal of troops now occupying the line of the Tsing Tao railroad in China is reported to have been decided upon by the Japanese government, as a result of a diplomatic advisory consultation.

This action was taken, it is understood, with the intention of convincing the world that Japan's activities toward China are above criticism and forewarnings, it is further understood, strong representations by Japan to the League of Nations for a declaration of racial equality.

The action indicated above was decided upon, it is believed here, in order to strengthen the position of the representatives of Japan before the League by enabling them to point to the "clear record" of Japan in international affairs.

LONDON, Nov. 10.—England's most paralyzing blow at the Sinn Fein was directed at its pocket book, according to the Irish office today. The office declared there was a general cessation of Sinn Fein activities following bank raids in which records and funds were located.

Steps have been taken to choke off the supply of money from America, also, the office said.

## GRAIN MARKETS

CHICAGO, Nov. 10.—Wheat, corn and oats all sold today at the lowest figures in four years. Support was lacking and there was talk current that Kansas bankers were discussing credit curtailment which would force much grain on the market.

Wheat closed heavy, 6 1/4 to 7 1/2 cents net lower, with December \$1.77 to \$1.78 and March \$1.75 to \$1.75 1/2. Corn lost 2 1/2 cents and oats 2 1/2 to 3 cents. Provisions finished unchanged to 40 cents lower.

Bottom Dropped Out.

When demand from shorts had been satisfied, however, the bottom seemed to drop out of the market and prices rapidly descended, notwithstanding assertions that large receipts of late at southwestern terminals had been due to clearing out of elevator stocks and not to selling by farmers.

SUGAR costs today 1-3 of what it did 6 months ago. FLOUR costs today \$5 a barrel less than 6 months ago. Practically all foods have declined from 10 to 200%.
