

## URGES PAY FOR THOSE IN JAIL

Demarchus C. Brown Advocates Abolishment of Fee System.

Special to The Times.  
TERRE HAUTE, Ind., Nov. 15.—Demarchus C. Brown of Indianapolis, in an address at the Indiana State Conference of Charities and Corrections, in session here at the Central Christian Church, declared the State should abolish the fee system for county jail management.

He asserted the jail should be abolished, except as a detention place for prisoners awaiting trial and suggested that the State should provide some means of paying a man while he is in a penal institution.

**SPEAKS IN ABSENCE OF GOVERNOR GOODRICH.**  
Mr. Brown, who is a member of the Board of State Charities, spoke in the absence of Governor Goodrich, who was prevented from attending because of the death of his mother-in-law.

A number of improvements of prison conditions were advocated by Mr. Brown in his address, and he reviewed briefly work that has been accomplished in the last twenty-five years.

**SOCIAL CURE FOR POVERTY IN EDUCATION.**

The social cure for poverty lies in education, he said. "You cannot cure poverty by falls and courts. The cure for crime lies in the education of our boys and girls to respect the personality of other people."

The State Association of County Poor Asylum Superintendents will meet here today in connection with the conference. Addresses will be made by W. T. Tamm, chairman of the Vigo County Board of Charities; Clarence Belshaw, Crown Point; J. B. Cross, Brownstown; J. A. Brown, supervisor of field service for the Board of State Charities; Charles E. Tatum, superintendent State farm, Putnamville; and Mr. M. B. Morgan, superintendent Marion County Asylum for the Insane, Joliet. John Greff, Evansville, vice president of the association, will preside.

## ONE TAKEN IN MAIL ROBBERY

Pouches Thrown to Accomplish From Train at Omaha.

OMAHA, Neb., Nov. 15.—Federal officials today arrested Merle Phillips, 20, railway baggage employee, as one of three men who late Saturday robbed a car on a train from Indianapolis to Omaha. Phillips was taken to the Federal penitentiary at Omaha, where he was held in lieu of \$20,000.

Phillips, according to the Federal officials, confessed he served as a driver in the car and threw out the pouches which were picked up by two accomplices. Names of the other two men were said to have been given by Phillips.

Phillips was arrested as he was going to work. Reports of the amount of the loot obtained vary. It is declared by detectives working on the case that it will total \$100,000. Railway officials declare the amount will not exceed \$20,000.

Ten pouches of registered mail were taken, some of them connected to Chicago. It is believed these pouches contained shipments of gold, currency, bonds and stocks, being sent by banks in California to their correspondents in western cities. The value of the loot will be definitely known until these shipments are traced and evaluated.

The robbery was discovered late Saturday night when a postal clerk was found claiming to be the driver of the car. The stolen treasure left San Francisco Wednesday on a Union Pacific train and was transferred to the Burlington route at Omaha.

## PITTSBURGH REPORTS \$93,000 ROBBERY

PITTSBURGH, Pa., Nov. 15.—Federal and private detectives are today hunting for \$93,000 stolen in train between a Pittsburgh bank and the Weirton Steel Company's office at Weirton, W. Va. They also are looking for the thieves who took the money. A package of newspaper clippings was substituted for the money which was intended to meet the steel company's payroll.

The robbery happened last Thursday, but was not made known publicly until last night, when Edmund W. Mudge, president of the steel company, confirmed the report to a newspaper reporter.

## Washington Army Captain and Wife Held in \$4,000 Theft

WASHINGTON, Nov. 15.—Army and society circles buzzed with excitement here today over the case of Captain Beverly Chew and Mrs. Chew, who were arrested on a charge of having stolen \$4,000 worth of clothing, linen and other articles from a furnished apartment house here. Mrs. Chew also is charged with stealing a \$500 sealskin coat from the army and navy club.

Friends of Captain Chew, who claims to have been raised and shell-shocked in the war, declared the officer and his wife will prove their innocence. Both were released on \$2,500 bond.

The arrest followed a raid police made on the checkroom at Union Station, where they claimed to have discovered a trunk locked by Captain Chew containing expensive fur coats, silverware and linen. The claimant of the property rented her apartment to the Chews for the summer.

Police said the Chews came under suspicion at the Army and Navy Club Friday night.

Some one noticed that Mrs. Chew was seen in the ladies' room shortly before the valuable sealskin coat was missed. Its owner, Miss Marie Calhoun, furnished the police with a sample of the coat lining.

The army captain and his wife were brought to the police station for questioning and while there detectives found a sealskin coat with a lining corresponding to the sample in the bathroom of the Chew rooms. They said. Other officers said they found the Chews had sent a trunk from their apartment a short time before and that it held the furnishings which the Chews are charged with stealing.

## Millers to Show Why They Do Not Resume

TOPEKA, Kan., Nov. 15.—Topeka flour mill operators were to appear before the Kansas industrial court today to show cause why they should not resume their mill and give employment to the men they have laid off, or why the State should not take over their mills and operate them as essential industries.

## Third State Park Beauty Spot

On the Brink of Clifty Falls.

Perhaps the most beautiful spot in Indiana has come into the possession of the State of Indiana through the gift of 300 acres of land near Madison for a State park. With its acquisition Indiana now owns three State parks and the movement for extension of this service to the people receives considerable stimulus.

The gift was made possible through the generosity of the public-spirited citizens of Madison and of Jefferson County, and is in a great measure due to the untiring efforts of William A. Guthrie, chairman of the State Conservation Commission, who more than a year ago became interested in the project. Associated with him in the pioneer work of obtaining Clifty Falls and vicinity for a State park, were Elmer Scott, Joseph Schofield, William H. Miller and members of the Madison Rotary Club.

Mr. Guthrie, representing the State department, and Mr. Miller and John W. Tevis, acting for the citizens of Madison and of Jefferson County, reported to Governor Goodrich that a fund approximating \$15,000 had been raised to purchase the proposed park. They tendered a check for this sum to the department of conservation, binding the agreement that the Clifty Falls tract would be bequeathed to the State. In consideration of the gift the State agrees to spend approximately \$20,000 toward its improvement. The new park will be under jurisdiction of the department of conservation and improvements will be outlined by members of the conservation commission.

**CLIFTY FALLS PARK**  
NEAR MADISON.  
Clifty Falls park is situated about a mile and a half from Madison. It is accessible to auto, steam and river travel, being only about 100 yards north of the Ohio river. Governor Goodrich has approved three Jefferson County roads designated by the State Highway Commission for inclusion in the State highway system.

**Police Asked to Help Find Missing Girls**  
Leona Martin of Bloomington appealed to the Indianapolis police today to search for her daughter, Helen L. Martin, 15, who ran away from home a few days ago and is believed to have come to Indianapolis.

## HUNGER SQUAD GAINS SLIGHTLY

With No Precedents, Physicians Plan Diet for Strikers.

CORK, Nov. 15.—The nine Sinn Féin hunger strikers, who voluntarily ended their fast last Friday after going ninety-three days without food in Cork jail, were much stronger today and have already begun to take on flesh. They have been given their first cooked food—pounded plain and milk. Tomorrow they will be given some boiled chicken.

Physicians who have assisted in the treatment of hunger strikers said it is a phenomenon of medical science that the prisoners were able to take nourishment and digest it so easily after long abstinence from food. It was feared the men might suffer a nervous collapse, but they have been sleeping peacefully and gaining strength steadily.

The first nourishment administered was baby food, such as is given to a month-old infant. Then a little glucose was given. This was followed by a teaspoon of meat juice diluted with water. After this the men received some baby food, with a small predigested biscuit and glucose. This was followed after some hours by a double teaspoonful of jelly aboumen and water. Three hours later a small predigested biscuit was administered. The Sunday menu was a little stronger.

Dr. Pearson, the jail physician and his assistant, Dr. Battiscombe, said they were "groping an uncharted sea" in trying to rescue the men.

"All nine were virtually on the point of death when they finally yielded," said Dr. Pearson.

He said he had to formulate our own dietary rules. We worked upon the principle that the men's stomachs were as frail from disuse as the stomach of a year or 9-month-old infant. Our process was a success."

## HARDING PARTY STORM BOUND

(Continued From Page One.)

seats, rattly doors which refused to stay shut most of the time and a "locomotive" built out of an automobile engine and placed on four wheels.

The baggage was loaded in and as many of the party as could, bundled in sweaters or blankets, squeezed away on top of trunks in the baggage car.

The Mexican engineer got out and cranked up and after a few false starts the "presidential special" crawled away. It finally reached a speed of ten miles an hour and the spirit of the party went accordingly—with reservations—for queer sounds began to emanate from the engine ahead. Then it came to a dead stop and all climbed out.

Already the Mexican major tomo was lying face up under the engine clanking away a network of chains and gears, talking Mexican meanwhile. Somebody translated it as "broken transmission shaft."

**WELL—THERE WAS ANOTHER TRAIN.**

Then the other train coming from Brownsville appeared to speed about 154. It had been derailed and the bend several hours late. Its crew pitched in to help the disabled train. Parts were scattered about and after three hours they were all back in place again.

Meanwhile Senator Fred Hale had walked back to Point Isabel for sandwiches and coffee. Mrs. Harding, sitting on an upturned suitcase, served the food as Senators, President-elect, their wives, maids, secret service men and newspapermen lined up for handouts.

The Harding special, again in running order, had to back into Point Isabel to permit the second train to get in to switch and turn the engine around. At last, the trip to Brownsville takes place, the trip to the railroad and because of the high probability of further engine trouble it was decided to remain over night at the Point.

## Screams of 3-Year-Old Save Family of Four

Special to The Times.

MUNCIE, Ind., Nov. 15.—Screams of a 3-year-old Robert, Taubach, 3, early today saved the lives of four—the child, his parents, Mr. and Mrs. Roy Taubach, and an uncle, Robert Harris. Roy Taubach telephoned for an ambulance. When it arrived all four were unconscious from gas fumes. All will recover.

Albert Clark, 3017 North Capitol avenue, advised the police to search for his daughter, Clark, 21, who failed to return home after attending a picture show Saturday night.

Miss Clark left a friend, Vivian Daugherty, 625 North Sherman drive, at Morton and Washington streets, at 9:30 o'clock Saturday night, but has not returned home, her father said.

## FIRST ASSEMBLY OF LEAGUE OPENS

(Continued From Page One.)

ell, the League of Nations Council heard the reading of the order of the day for the assembly meeting. Paul Hymans, Belgian foreign minister, was chosen president of the session. The vote: Hymans, 35; President Motta of Switzerland, 5; Leon Bourgeois of France, 1.

The delegates were seated in alphabetical order and a place was reserved for the Americans despite the fact that the United States is not a member of the league.

Reservations were made according to the French spelling of the various nations. Thus "Afrique Sud," represented by Lord Robert Cecil, has the honor of the first row of seats to the right of M. Hymans. Argentina was allotted space next to "Afrique Sud." If the United States were represented the American delegates would occupy the seats reserved for "Etats Unis" between Spain and France.

The first murmur of disapproval arose on Sunday, when it was announced that Lord Robert Cecil would represent South Africa instead of Gen. J. C. Smuts. Some of the Scandinavian delegates informally suggested that an amendment be adopted preventing delegates from sitting in the future unless they are bona fide residents of the countries they represent.

**BRINGS OPPOSITION FROM SOUTH AMERICA.**

The small Central American States opposed this suggestion. Most of them plan to be represented at future sessions by proxies on account of the heavy expense of sending and maintaining delegates in Geneva. It was not regarded as likely, however, that any serious trouble would result from this issue.

The controversy which was threatened

over efforts to secure Germany's admission seems to have been averted. France threatened to withdraw her delegation if an effort were made to take Germany into the league, but advices from Berlin quote the German foreign office as saying that Germany does not seek admission at this time.

On the other hand, both Austria and Bulgaria, two former allies of Germany, may be admitted.

The Japanese delegates have been active here for a week and unless persuaded otherwise by powerful friends, probably will press their resolution for racial equality.

The meeting of the council of the League of Nations on Sunday lasted barely an hour when a committee examined the credentials of delegates.

## U. S. TAKES NO HEED OF MEETING

WASHINGTON, Nov. 15.—The United States will not be represented at the Geneva meeting of the League of Nations either officially or unofficially, it was authoritatively learned here today. It had been reported that the United States would have observers present.

It was admitted, however, that the American minister to Switzerland probably would render a report, but it was stated he would not attend the meetings.

**FIRE FACILITIES ARE DOUBLED.**  
Fire fighting facilities at the stock yard have been doubled practically by the installation of additions to the water system, according to announcement of the Indianapolis Water Company, made in a letter to the board of public works today.

## AMUSEMENTS.
