

DECIDE NOT TO PUSH MARTIAL LAW ON IRELAND

British Government Said to Deem It Inadvisable at Present.

NEW DISORDERS BREAK

LONDON, Nov. 26.—Although violence in all its forms still stalks through Ireland, the British government has decided not to impose martial law at this time. That the advisability of imposing martial law on Ireland has been under consideration by the Cabinet since Sunday was revealed today.

News of fresh disorders was received during the day. Michael Moran, a Sinn Fein volunteer, was shot while attempting to escape from black and tan policemen in Galway. Martin Lyons, an ex-soldier, was shot and killed.

The body of Dennis O'Donnell was found at Mitchelstown riddled with bullets.

A serious clash between civilians and police occurred at Millstreet, in County Cork. Houses were burned and shops looted. While civilians were attempting to put out a fire bombs exploded in the burning buildings, killing a woman and children from the village in panic.

The Roman Catholic bishop of Galway has received an anonymous death threat if any effort is made to interfere with the soldiers and police in that district, according to a dispatch from Dublin.

The telegram added that the bishop had notified Sir Hamar Greenwood, chief secretary for Ireland, that he would be held responsible if any attempt were made on his (the prelate's) life.

SEE BRITISH FLAG; SMASH CLUB WINDOWS

NEW YORK, Nov. 26.—The British Union Jack, along with the French Tri-Color and the Stars and Stripes, was defiantly in the windows of the Union Club on Fifth avenue today, following the smashing of the club's windows yesterday by 5,000 rioting Irishmen. The exclusive club was besieged by the Irish, enraged at the sight of the British flag, following a memorial service at St. Patrick's Cathedral in honor of Terence MacSwiney, the lord mayor of Cork, who died hunger striking.

Order was not restored until 300 police

men had been hurried to the scene. Three of the rioters were arrested. Club officials explained they were ignorant of the MacSwiney memorial service and that the British flag was flown in honor of the centenary of the landing of the Pilgrims. The club is opposite the cathedral.

MILITARY HONORS TO SLAIN BRITISH OFFICERS

LONDON, Nov. 26.—Impressive military honors were paid today to nine British army officers slain in Dublin last Sunday, whose bodies were brought to England for burial.

Cremation for six of the slain officers

was held in Westminster Abbey and services for three others who were Roman Catholics, were conducted in Westminster Cathedral.

FOUNDER OF SINNS PINCHED BY POLICE

DUBLIN, Nov. 26.—Arthur Griffith, M.P. founder of Sinn Fein, and acting president of the Irish Republic in the absence of Eamon De Valera in the United States, was arrested today by black and tan police.

Professor McNeill, another prominent Sinn Fein leader, and others were arrested at the same time.

Mr. Griffith charged that police agents

had recently sought his life, but have failed to frighten him out of his ordinary residence.

"I did not attempt to disappear to save myself from assassination," said the Sinn Fein chieftain. "I continued to go about my affairs as always, eating at the same place and sleeping in my home every night where I could have been found by raiders if they sought me. This is no surprise to me. I have been expecting arrest for some time."

Mr. Griffith was arrested in his home and his seizure caused a great sensation. In many quarters he has been regarded as a moderating influence.

The arrest of the acting president of the Irish republic was but one incident in the increasing activity of the soldiers and police. Reports of arrest of prominent Sinn Fein leaders were received by friends of the party of the country. More Irish people have been "rounded up" by the police since last Sunday than in the raids which followed the Dublin uprising in 1916.

JAPAN PLANS LEGAL BATTLE

WASHINGTON, Nov. 26.—Japan is preparing to carry its fight against the California alien laws (barring Japan from land ownership) into the United States Supreme Court, according to information reaching Washington today. It was reported that the Japanese government would shortly institute litigation and that Japanese officials believe they can

make a strong case in their efforts to have the California legislation set aside.

Treaties with Japan and with China and Tibet are in their final stages, but it is growing that the agreement will not settle the status of the Japanese immigrants in America. No mention may be made of the Japanese immigration situation in California.

I was pretty bad, and I was just as nervous as I could be. . . . I could not sleep at night until 10 or 12 o'clock. When I would doze off and wake up I would be all of a tremble with nervousness."

"The doctor called my trouble a tarr of the . . . It gave me such pains that at each one it would seem that I could not bear another one. Then I would chill . . . the pains would just seem to shake me all over, and the next day I would be so weak I could hardly move. "After one of my bad spells . . . and I had almost died, I picked up the Home Treatment Book and decided to try Cardui. Before I had taken a whole bottle, I could sleep at night . . . I don't remember just how long, but in a short time I was up and helping with the work."
