

## NO RELIEF FOR FARMER FROM U.S.—HOUSTON

Secretary of Treasury Testifies Before Joint Session of Committees.

### SCOUTS LACK OF CREDIT

WASHINGTON, Dec. 3.—Government relief for present conditions confronting farmers is impossible, Secretary of the Treasury Houston today told the House and Senate Agricultural Committees.

Houston was the first witness today before the joint session of the committees which are seeking relief for the farmers who have been hit by the rapidly falling prices of their products.

At the same time the secretary predicted a drop in retail prices soon. He said retail dealers had been holding out against lowering prices but would not be able to do so much longer.

"I don't know of any feasible plans of affecting any marked change in price conditions," said Houston.

Houston declared government agencies have done everything that can be done to help the farmers. He said he advised farmers while in the department of agriculture, that a drop in prices was coming and urged them to prepare for it. He denied emphatically that farmers are suffering from a lack of credit.

"The much talked of deflation of credit does not exist," said Houston. The only limitation put on credit has been due to speculation.

Houston said in his opinion there was no way to finance agricultural exports because of the financial situation existing between Europe and the United States.

"Europe now owes the United States about fourteen billion dollars," said Houston. "Our exports are increasing annually so that this year they will total about eight and one-tenth billion dollars. How Europe can pay for the exports it is now receiving or can take more from the United States, I don't know."

Houston said he had grave doubts that revivals of the war finance corporation would be effective in relieving the farmers' troubles by increasing foreign trade.

## BEDFORD MAN HEADS DEALERS

Implement Association Favors Good Roads.

Officers were elected at the closing session of the fourth annual convention of the Indiana Implement Dealers' Association at the Claypool Hotel today for 1921. President, Clay W. Duncan, of Bedford; vice president, E. L. Polson, of Terre Haute; directors, G. L. Maxwell, of Valparaiso, and George F. Wagner, of Jasper.

Among the resolutions that were adopted was one as follows:

"Whereas, The members of the Indiana Implement Dealers' Association are keenly alive to the value of good roads and are eager to take more from the State highway system, and to secure prompt maintenance of our more heavily traveled county highways:

"Be It Resolved, That we hereby authorize our president to appoint a committee of three to represent our association in these matters and to co-operate with other organizations working for the improvement of the Hoosier State Automobile Association."

In accordance with the resolution the following committee was appointed by the president: K. L. Adams of Letts, J. W. Flanagan of Crawfordsville, and D. W. Dottor of Columbus.

Another resolution that was adopted endorsed and recommended the passage of the Stephens standard price bill "and such other bills as provide for honest advertising."

Included in the morning program were the following addresses: "The Tractor, Its User, Its Dealer," by Prof. Hand, of Illinois University; "Salesmanship," by F. M. White of Rockford, Ill., and "Good Roads, Their Benefit to Mankind in General, the Implement Merchant in Particular," by M. E. Noble.

## RUMORS OF STUTZ SALE BASELESS

Vigorous Denial Given Story of Schwab Purchase.

Additional denials that Charles M. Schwab has acquired controlling interest in the Stutz Motor Car Company of America were announced today by Thomas E. Marshall, sales manager of the company. William X. Thompson of New York, president of the board of directors, sent the following telegram to Mr. Marshall:

"Charles M. Schwab has just given out the following statement to the press: 'Rumors that I have bought or obtained control of the Stutz Motor Car Company of America are absolutely without foundation and probably originated as a result of my visit to the Stutz works with Mr. Ryan, but such visit was with no object of purchase in view. I found the works in my opinion one of the best equipped of its kind I ever saw and I am sure it will be successfully operated by its present efficient staff.'"

Mr. Thompson also sent the following message to Mr. Marshall:

"Viciously inspired rumors that are being circulated of an impending change of control of the Stutz Motor Car Company of America are baseless. The present management and control of the company will not be changed. The company is in a particularly prosperous condition and its management is most satisfactory to the owner. It owes practically no money, has no fixed or other charges and has millions in free current assets."

## Logansport Pupils Use Rifle on Teacher

SPECIAL TO THE TIMES. LOGANSPORT, Ind., Dec. 3.—An attempt to make a local teacher the victim of a practical joke proved anything but successful for two local high school pupils. While Homer Stonebraker, high school instructor, was attempting to board a street car, Herman Hunt and Harry Gresham, shot at him with an air rifle, both of the shots striking the teacher. A third shot from the airgun proved too much, however, and Stonebraker gave chase to the lads. The matter has been reported to the school authorities.

## Milk and Pie Lower

JANESVILLE, Wis., Dec. 3.—Milk has dropped 1 cent a quart, a decrease of 2 cents since September. Producers now get \$2.40 a 100 pounds, and retailers 25 cents a quart. Restaurant announcements of 15 to 25 per cent. pie now sells for 10 cents a slice. Retail clothiers have cut prices 10 to 15 per cent.

## Boy Bandits Get Terms

SPECIAL TO THE TIMES. SOUTH BEND, Ind., Dec. 3.—Francis Thome, 18, and Frank Dolde, 20, two of the four boys who raided North Liberty, near here, in a stolen motor car Saturday night, were sentenced to from 1 to 14 years at Jeffersonville on pleading guilty to the St. Joseph Circuit Court to the charge of grand larceny.

## Ten Miners, Caught in Fall, Are Dug Out After Nine Hours

WILKESBARRE, Pa., Dec. 3.—Ten mine workers, caught behind a fall in the gateway of the George F. Lee mine, were rescued today after nine hours' imprisonment.

Rescue forces worked all night to reach the men. The entombed men worked all night to reach the surface. The entombed men dug behind the fall with the same energy as the rescuers. A passage way was finally opened.

## REGISTRATION OF ENGINEERS URGED

Effort Made to Have McCray Recommend Legislation.

Discussion of the proposed legislative bill providing for the registration of professional engineers, which landed in the hands of the committee on the subject of the Indiana Chapter, American Association of Engineers, held last night at the Chamber of Commerce following a banquet of the society.

The committee on legislation was instructed to call on Governor-elect McCray to present a copy of the bill for the purpose of securing his cooperation. Efforts are being made by the engineers to include the bill in the Governor's message to the coming legislative assembly.

The bill provides for the licensing of professional engineers and land surveyors following a thorough examination by a commission of five members, County surveyors, who hold constitutional offices, and employees under the supervision of licensed engineers or firms, are exempt from the requirement.

The chapter unanimously endorsed the Jones-Reavis bill, a movement which has been occupying public attention for more than a year, providing for the abolition of the department of the interior and substituting in its place a department of public works.

It is pointed out that engineering work would be centralized and facilitated if such engineering bureaus as those regarding public highways, now in the Department of Agriculture, the supervising architect and light-house, now in the Treasury Department, bridges over navigable streams, now in the War Department, and similar divisions, each of which is purely engineering in scope, would be included in one general engineering department.

The subject of traffic regulation on the Monument Circle was not discussed, but action on the question will be taken at the weekly meeting next Wednesday.

## ARMENIA'S NEEDS GROW WITH WAR

Relief Funds Scarcely Enough for Week's Demands.

A dire picture of conditions in Armenia, a new crisis brought on by the storms of war now in progress, is drawn by the Indiana Committee of Near East Relief, in an address to the public issued over the airwaves of John H. Holliday, State chairman.

The committee incorporates a report by C. E. Vickrey, general secretary of the Near East Relief, declaring that there is a national fund of less than \$500,000 available for relief. "Scarcely enough to meet the full Near East Relief needs for one week," says the secretary.

The startling statement is made that it will require \$30,000,000 to take care of relief in the Near East this winter. Armenia is compared to Belgium "with the Belgians still in exile two years after the armistice."

It is stated that the winter budget was made during comparative peace in Armenia and did not include plans for large emergency relief problems. Since then the cables announce "A hundred thousand refugees in one area, jamming the roads, shoeless, unsheltered, unfed" for whom there is no provision in the treasury.

Churches, Sunday schools and individuals are asked to remember that "this is the oldest Christian nation in the world and has probably given more martyrs to the Christian faith than all other nations combined."

## Woman Jury May Sit in Trial for Murder

SPECIAL TO THE TIMES. SOUTH BEND, Ind., Dec. 3.—Women jurors may help to try Jack Wright, charged with the murder of Henry Muesel and Frank Christy, Dec. 30, 1913, in robbing the office of the Muesel Brewing Company here. After ten days of jury selection in the La Porte Circuit Court, with little prospect of an early verdict, calling of a fourth venire is regarded as certain and the question of including women has been receiving serious consideration.

The case was transferred to La Porte County by change of venue.

## Drug 'Cure' Joins Up for Federal Sifting

WASHINGTON, Dec. 3.—War upon "drug clinics" has been stepped up and hundreds of these reputed "cure" establishments will be closed, Revenue Commissioner Williams today reported to Secretary of the Treasury, Mr. Houston. Secretary Houston approved Williams' plan to check what officials hold to be flagrant violations of the narcotic law.

The Government's plan contemplates the future treatment of bonafide addicts in dispensaries under Government supervision, wherever possible, and with the approval of the public health authorities.

## Switchman Killed

Leon B. Downs, 22, of 2354 North Alabama street, a brakeman, was killed when he slipped and fell while getting on a switch engine, in the Big Four railroad yards, southeast of the city, last night. The accident occurred at 8:30 o'clock when Downs walked out of a shed and attempted to swing on to a switch engine. He fell directly in front of the locomotive and the wheels rested on his body when the engine was stopped by Edward Hoffman, 821 South Randolph street, engineer.

Downs had been employed by the railroad only a short time. His mother, Mrs. E. J. Downs, lives in Washington. Deputy Coroner Christian investigated.

## 500 Cases on Docket

SPECIAL TO THE TIMES. SOUTH BEND, Ind., Dec. 3.—More than 500 cases make up a record-breaking docket for the December term of the St. Joseph Superior Court. The term opens next Monday, with no vacation separating it from the present term, which, with more than 400 cases, had the fastest docket in the court's history.

WOMAN, 88, SHOTS SELF. SPECIAL TO THE TIMES. LA PORTE, Ind., Dec. 3.—Suicide due to mental derangement was the verdict returned today by the coroner in the case of Mrs. Rachel Kreighbaum, 88, of Tyler, who was found dead in bed with a bullet hole in her head. A revolver lay by her side.

## TRACTION LINES ASK HIGHER FARE

Two Companies Petition for 3-Cent Charge in City.

Hearing was resumed at 1:30 o'clock today before the Public Service Commission, on the petition of the Indianapolis Street Railway Company for authority to charge 2 cents for transfers and for readjustment of rentals paid by interurban companies entering the city for use of the city company's tracks.

Hearing on the petitions of the Indianapolis and Cincinnati Traction Company and the Terre Haute, Indianapolis and Eastern Traction Company, for authority to charge a 10-cent fare and 3 cents a mile between any two points in the city of Indianapolis, respectively, will begin immediately on conclusion of the Indianapolis company's hearing.

Question of ownership and operation of the Kentucky avenue freight terminal occupied the closing hours of the fourth day of the hearing. Thomas B. McMath, civil engineer for the Indianapolis company, was on the stand the greater part of the day, and testified as to the use of tracks by interurbans, as related to the wear and expense caused to the city tracks by the operation of the heavy cars.

Efforts were made to show that the Kentucky avenue terminal was built and operated as a loss of \$7,422.29 by the Indianapolis Street Railway Company for the use of the reported owner, the Terre Haute, Indianapolis and Eastern Traction Company, during 1919. This was brought out in testimony of Joseph A. McGowan, auditor for the city company, in his testimony before the commission late Thursday.

Ownership of the terminal has been twisted and entwined about the city company and the T. H. I. & E. Company until their operations have become cumbersome, it was indicated in the testimony.

## Plans Completed for 10th Ward Card Party

Final arrangements for the card party and entertainment to be given Dec. 8 by the Tenth Ward Democratic Club in McClain's Hall, Hoyt and State avenues, were completed last night at a meeting of the committee in charge. The club is preparing to take an energetic part in the coming municipal campaign. Proceeds of the party will be used in promoting the organization.

Dallas Galbreath and Mary Ellen Galbreath are in charge of entertainment features of the party, while the whole is under the direction of Otto Ray, Edward J. Sexton, Mrs. M. F. Reiffel, Mrs. B. S. Chadd, W. L. McClain and Walter Galbreath. Monthly meetings at which civic and political questions are to be discussed, will be held.

## Farmers in Favor of Conservative Program

NOBLESVILLE, Ind., Dec. 3.—At a meeting of one thousand farmers held in this city Thursday afternoon, resolutions were passed against the high tax rate and a committee was appointed to consult with the board of county commissioners and the township trustees with a view of securing them not to spend more money for public improvements at the present time than is actually necessary.

In the same resolutions the farmers expressed themselves as being opposed to the building of so many cement roads and also voted opposition to excessive appropriations for the educational institutions of the State.

One hundred road petitions are pending with the local board of commissioners and the officials will be asked to hold them up until the prices of material and labor are lower.

The meeting was addressed by Philip Zoercher, a member of the State board of tax commissioners, and H. B. Randolph, county agent.
