

## FEWER FOREIGN BORN QUIT STATE

Revenue Collector's Report Shows Change in Travel.

Indications that foreigners now resident in Indiana have come to believe this is a pretty good country to live in are contained in a report of Collector of Internal Revenue William L. Elder upon the number of clearance certificates and collector's certificates of compliance with the income tax law issued during the month of November.

For several months this year the number of foreigners who sought such certificates, which are necessary before passports can be obtained, ran into more than a hundred and sometimes two hun-

dred. In November only thirty-seven clearance certificates were issued. The American citizens seeking the collector's certificates of compliance with the income tax law was eighty-five. The countries to which the applicants for certificates and clearance papers were going, are Cuba, Belgium, Greece, Roumania, England, Germany, Italy, Serbia, Jamaica, Poland, Sweden, Denmark, Czechoslovakia, Jugoslavia, Philippine Islands, Holland, Austria, Hungary, China, India and Mexico.

**CAN ELEPHANTS JUMP?** Although they are generally believed to be able to do so, it is impossible, according to weight and structure, for an elephant to jump either up or forward. A big elephant takes six feet nine inches at a stride, but a seven-foot trench would be as hopeless a barrier to it as one of seventy feet.

## HOROSCOPE

The stars incline, but do not compel.

SATURDAY, DEC. 11.

Afternoon of this day brings with it many kindly influences, according to astrology. Uranus and Mercury are in benefic aspect, while only faintly adverse stars are recognizable.

All the finer impulses of the mind respond readily while this configuration prevails. Thinkers should greatly benefit today.

Protect the Children.

Healthy Blood and a Healthy System is a child's best protection against Colds, Grip and Influenza. Give them GROVE'S IRON TONIC SYRUP. 7c. Advertisement.

when the analytical and psychic powers are supposed to be specially keen. Cabinet changes of a surprising nature are forecast for Washington.

Persons whose birthdate it is should safeguard the health and should be unusually careful to avoid accidents in the coming year.

Children born on this day may be rash and hard to manage. Many explorers and adventurers are born under this day's signs.

## Woman Forest Guard Leads Lonely Life

LOS ANGELES, Dec. 10.—Mrs. Mary Smith, said to be the only woman look-out in the Government's Forest Service, leads a lonely but contented life these days, perched high above the surrounding country in a station on the summit

of Mt. Frazier, in the Ventura section of the Santa Barbara forest reserve. With the snow falling on Frazier mountain it will be a matter of only a few weeks until her lonely lookout station will be cut off from the rest of the world, except on the few occasions that provisions are brought to her on hardy pack horses.

However, Mrs. Smith enjoys the life of the mountain wilds. She likes to hunt and trap. Mountain lions, wildcats, bear

and coyotes do not terrify her. She is an expert with a rifle and only recently killed a mountain lion that approached her station.

It is ten miles from the building in which Mrs. Smith makes her home and from which she watches Uncle Sam's forest to the nearest habitation. Through the summer season her principal work, of course, is to watch closely, with the aid of powerful field glasses, for signs of

in incipient forest fire.
