Terribly Wounded Hunter Walks Half a Mile; Will Live

GRAND RAPIDS, Mich., Dec. 14.—While hunting north of here today, A. B. Newton, superintendent of the Winmarth Show Case Company, was seriously wounded when he leaned on his rifle. The weapon was discharged while his left hand was resting on the muzzle.

The bullet partly cut off his left hand, shattered his jaw, nearly severed his tongue, and drove part of his jaw into the back of his head. He walked half a mile to a waiting automobile, rode ten miles to a physician, who amputated the hand, reshaped his jaw and stitched his tongue together.

Mrs. Housewife, Do You Know?

(Note—Each of these household problems has been worked out by the author, who has not only taken a course in scientific housewifery and dietetics at Columbia University, and written and edited a women's newspaper and magazine for years, but is a practical housekeeper as well.)

1. What is the difference in the make-up of white and dark meat in poultry?
2. The best way to keep cheese.
3. How should meats be cleaned when they come from the market?

(These questions will be answered tomorrow by the Housewife.)

ANSWERS TO YESTERDAY'S QUESTIONS.

1. The fact that you dislike a certain fruit or vegetable probably seldom shows that it disagrees with you, but it is true that the fruits and vegetables you dislike are actually digested less easily than those you do like, since they do not stimulate so abundant a production of digestive juices.
2. If you suspect that your dealer is selling you process butter or oleomargarine for fresh butter, test by heating some in a large spoon over a small flame. Genuine butter will boil quietly with froth and foam while process butter or oleomargarine will boil noisily but without foam.
3. The best way to keep garbage pails perfectly clean is to rinse with a solution of carbolic acid and water—one teaspoon of the acid to one pint of water.—Copyright, 1920.

Dock Workers Get New Wage Scale

GALVESTON, Texas, Dec. 14.—After being on strike since last March, which for a time attracted almost nationwide attention and brought a four months' period of martial law to the city, dock workers of the Mallory Line are to be back at work here Wednesday with a new wage scale of 67 cents an hour straight, \$1 overtime and an eight-hour day. The wage scale prevailing at the time the men struck was 60 and 90 cents with a nine-hour day. The original demands were for 80 cents and \$1.20.

This is the Last Week of

The December Sale of Silk

We wonder if every one who planned to partake of the bargains has done so to the extent of her expectations. Maybe some have to "put it off." Undoubtedly there are those who are in the midst of their silk buying, as it were, and intend to buy more—for gifts, for holiday party frocks, for any number of purposes.

The same fine price concessions that made high values of the first offerings of the sale are in effect now. The choicest silk fabrics are going at the lowest prices we can profitably sell them for—and on many the profit is practically negative.
