## Bridgeport Woman Claims \$75,000 Estate

Special to The Times. GOSHEN, Ind., Dec. 15.—Helen B. Whitcomb of Bridgeport, a suburb of Indianapolis, is here in conference with her lawyer with reference to the claim she has made to the \$75,000 estate left by Alfred Lowry, former mayor of Goshen. Her claim is based on the ground that she is a niece of Lowry and the only legal heir.

The State is contesting the claim. It contends that the claimant is not a genuine heir and holds that the Lowry property should go to the common school fund of Indiana. A long fight over the estate seems probable.

## Ends Stubborn Coughs in a Hurry

For real effectiveness, this old remedy is second to none. Easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous home-made remedy. The prompt relief is almost magical. It is easily prepared, and there is nothing better for coughs.

Into a pint bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and disappear. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of Norway pine extract, the most reliable remedy for throat and chest ailments. To avoid disappointment ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

## Mrs. Housewife, Do You Know?

(Note—Each of these household problems has been worked out by the author, who has not only taken a course in scientific housewifery and dietetics at Columbia University, and written and edited a women's newspaper and magazine for years, but is a practical housekeeper as well.)

1. Where and when were chickens first domesticated?

2. What is the object of soaking cabbage and cauliflower in cold water before cooking?

3. Why should milk bottles and glasses be rinsed in cold water before being washed in hot water?

(These questions will be answered tomorrow by the Housewife.)

### ANSWERS TO YESTERDAY'S QUESTIONS.

1. It is generally agreed that the light flesh in poultry has much less muscular power than the dark flesh, hence the breast and wings of chickens, turkeys and birds that fly but little have light breasts and wings.

2. To keep cheese in good condition, wash it in cold water before it is very slightly damp and then wrap in paper and keep in a cool place.

3. Meat should be cleaned by wiping with a clean damp cloth or by scraping with a sharp knife. Do not wash as water carries off the albumen.—Copyright, 1920.
