

HIGHWAY BRIDGE PLANS ON FILE

Cost of 42 National Road Structures, \$1,200,000.

Construction of bridges along the improved National road, between Richmond and the Illinois line, near Terre Haute, should go hand in hand with the improvement of the road, according to the report of C. Gray, chief engineer of the State Highway Commission. The cost of the bridges, according to Mr. Gray, would approximate \$1,200,000.

There would be forty-two bridges along the route, fifteen of them between Indianapolis and Richmond, and the remaining twenty-seven between Indianapolis and the Indiana-Illinois line.

The report, submitted to the commission, shows that most of the contract work of the department is completed.

OPPOSE LIMIT SET BY BOARD

Denominational Schools Object to Endowment Figures.

Presidents of denominational colleges of Indiana have gone on record as opposing the provision of the State board of education that to be a recognized institution a college of this type must have an endowment of at least \$200,000. The presidents declared that while they recognize this provision as desirable for a future goal it would work considerable hardship on many institutions if it is enforced immediately.

It was decided to form an organization for publicity and finance in order to bring the schools closer together. A legislative committee consisting of W. A. Mills, Hanover College; D. M. Edwards, Earlham College; L. J. Good, Indiana Central University; and T. C. Howe, Butler College, was appointed.

The following committee on a joint campaign for denominational colleges has been appointed: A. F. Hughes, Evansville College; W. P. Dearing, Oakland City College; President Goodell, Franklin College; Otto Winger, North Manchester College; and L. R. Detweiler, Goshen College.

Crime and Scandal Barred by Chicago Christian Newspaper

Churches Are Given Unprecedented Space in New Publication.

CHICAGO, Dec. 22.—The American Daily Standard, an evening newspaper to be conducted in accordance with the "principles of Christianity" began publication here today with a special Christmas edition. The Standard made an editorial appeal for the support of those who have been clamoring for a clean newspaper—unfettered, uncontrolled and edited for all members of the household. The publishers stated that the "truth" and constructive news will be emphasized and anything "tinged with salaciousness or intemperate to the American home" will be barred. In addition to the United Press leased wire service the paper has a staff of writers in leading United States and European cities. The Standard gave unprecedented space to activities of churches of all denominations.

The Rev. J. Clover Monsma, author, lecturer, traveler and ex-newspaper man, is editor in chief of the new publication.

The Rev. Mr. Monsma is also president of the American Christian Daily Company, publishers of the newspaper, Garrett B. Van Heyningen is secretary and treasurer and Clarence E. Wood, who has served thirty years in the business office of metropolitan papers, is general manager. Robert Hage, Chicago newspaper man of many years experience, is managing editor.

The company's declaration in trust setting forth its purposes says that the paper shall be "Christian in character, moral in tone, independent in politics, nonpartisan and nonsectarian. Stories or narrations of scandal or crime shall not be given prominence and shall be excluded as far as practical."

MILK TESTS HIGH.
SHELBYVILLE, Ind., Dec. 22.—The quality of milk furnished for the milk clinic in the schools of Shelbyville tests 60 per cent better in butter fat than the State requirements of 3.5 per cent. A report has been made on the test of milk taken here last week which shows the amount of butter fat in milk being used here is 5.3 per cent.

SERIOUSLY HURT IN RUNAWAY.
NOBLESVILLE, Ind., Dec. 22.—Samuel Hague, 40, farmer, was seriously and perhaps fatally injured Tuesday in a runaway. He was going to a field after some fodder when his team ran away. He fell in front of the wheels of the wagon and they passed over his body. Several ribs were broken and internal injuries were suffered, it is believed.

Resinol does wonders for poor complexions

Underneath most unattractive skins is a clear, pleasing complexion—all that is needed is the proper treatment! It is surprising how often a brief use of Resinol Ointment and Resinol Soap will clear away blotches, redness and roughness and give the skin its natural freshness and charm.

If your skin isn't just what you want it to be, ask your dealer for Resinol Soap and Ointment.

As Bonfire Starter, Ed's Plan Succeeds

KIRKSVILLE, Mo., Dec. 22.—Ed Epperson hit on the plan of wearing a miner's lamp on his cap when he went out to milk his cows before daylight. The first cow he approached kicked him. He landed in a hay stack. His lamp set fire to the hay and the stack was destroyed. Epperson and the cow were saved.

Skilled Men Must Be Kept at Work, Labor Court Says

Part of Obligation Capital Owes Public, Declares Kansas Tribunal.

TOPEKA, Kas., Dec. 22.—Decision of the Kansas Court of Industrial Relations in the relation in the Topeka flour mills case in which it was set down that essential industries must continue to provide employment for their "faithful and skilled employees" even in dull periods when partial shutdowns are necessary, is generally considered the most far-reaching step yet taken by the new Kansas tribunal.

W. L. Higgins, presiding judge, who wrote the opinion, explained that no hard and fast rule could be established that would apply to every industry and that would define just what men an industry would have to keep on its pay rolls in a shutdown, but said circumstances of every case would have to govern.

He explained that under the opinion the court takes the stand that when capital invests in an essential industry it assumes an obligation to the public and must submit to such reasonable regulations as will protect the rights of the public.

It also assumes the responsibility, he said, to maintain its force of workmen in steady employment and in times when conditions have to be faced, which force partial curtailment of production, it must keep its organization together to such an extent that it will be able to serve the public to its fullest capacity when times and conditions again become normal.

Judge Higgins used a hypothetical case to explain. "Let us suppose that a flour mill regularly employs fifty men," he said. "Let us say that under conditions like those which the Kansas millers are now facing they are unable to run their mills full time. We will say that thirty-five of the fifty men they have employed are men who are skilled, who have been faithful in the performance of their duties, and who are essential to the operation of the mill under normal conditions. Then it is up to the mill management to provide these thirty-five men with work and keep them and their families going until such time as they again become essential in the operation of the mill and in the production of necessities."

BELL CO. ASKS TO ISSUE STOCK

Telephone Corporation Sets Forth Need of Funds.

Permission to issue common stock to the amount of \$3,288,000 is asked of the Public Service Commission by the Indiana Bell Telephone Company in a petition filed late Tuesday. It is proposed to use the funds in making additions to the plant and in the unification of the two systems in Indianapolis.

Three major proposals are made by the company for disposition of the funds. The first need, according to the petition, is to obtain funds with which to discharge lawful obligations in the form of notes and bonds. These securities amount to \$1,333,000. The second need is to pay debts due on open accounts, amounting to \$850,000. The final proposal is to pay for additions already made to the plant and to cover the cost of unification of the new and old system in this city.

A statement giving the financial condition of the company on Oct. 31, 1920, was attached to the petition, as follows:

Total assets are listed at \$29,100,853.35, distributed as follows: Intangible capital, \$4,505,556; physical property, \$27,547,840.49; investments, \$317,753.79; cash and deposits, \$132,780.76; and receivables, \$1,017,958.75.

Liabilities are as follows: Capital stock, \$11,411,200; funded debt, \$14,306,300; advances from system corporations, 300; and other liabilities, \$3,083,353.35.

Holds Woman Never Too Old to Be Mother

SPRINGFIELD, Ill., Dec. 22.—Women are never too old to bear children in the eyes of the law, as interpreted by the Illinois Supreme Court.

This decision was made Tuesday in refusing Dec. Hill of Lincoln absolute title to his grandfather's property while his two aunts, Nina Gillett, 63, and Amarilla Gillett, 67, are living. The property remains in the possession of the two aunts as a contingent remainder from the estate of their father, John Dean Gillett, who, thirty years ago, was one of central Illinois' richest men.

Both the women, on whose possibility of issue their right in the property depends, are sisters of Mrs. Richard Oglesby, wife of former Governor Oglesby.

\$1,000,000 Legacy Not to Change Life Habit
DETROIT, Dec. 22.—Mrs. Frances A. Gray, 61, has been told that she is sole heir to the \$1,000,000 estate of her husband's brother, Arthur A. Gray of St. Paul, whom she had never seen.

"There will be no maids, I manage my own household, no matter how many millions I have. We will have a comfortable home and grounds, but no diamonds and pearls."
