

STATE SPENDS \$24,000 YEARLY FOR JANITORS

Cleaning Crew Made Up of
Eleven Men and Six
Women.

TOTAL COST HITS \$43,000

Approximately \$24,000 is expended yearly by the State in salaries for the janitorial force at the State Capitol. This includes the salaries of the superintendent of public buildings and property, his assistant, and a force of eleven men and six women janitors.

To run the department of public buildings and grounds, outside the salaries of the above-named officers, the State is forced to pay out of its coffers yearly the sum of \$19,923, which pays for repairs in the building, water and ice, illumination and power, roof work, flags and decorations. This makes a total of approximately \$43,000 which is paid out annually for the care of the Indiana State Capitol.

Eleven men and six women are on duty each day in an apparent effort to keep the building clean. At least once each week each of the four floors are mopped, and the force of women each day sweeps and dusts on each floor.

CHIEF APPOINTED BY COMMITTEE.
The entire force works under the supervision of the superintendent of public buildings and property, who is appointed by the State committee on public buildings and property, consisting of the Governor, Auditor and Secretary of State. The superintendent's salary is \$2,250 per year, and he is under bond of \$10,000.

It is the superintendent's duty to "take charge of, protect and reserve from injury the capitol building and grounds and all furniture and property therein; to keep such building clean and in proper order; to attend visitors who may wish to view the capitol; to purchase supplies and make all necessary repairs on the capitol building; to employ all assistants and other necessary help who come under his supervision; to institute civil or criminal proceedings against any person for injury or threatened injury to the property under his care; to dispose of worn-out and unvaluable property, such as furniture, waste paper, books, etc., and make proper auditing therefor to the State Treasurer quarterly; to keep a complete list of all the property of the State at the seat of the government, with accurate plans and surveys of the public grounds whereon the capitol is situated, and report such property to the board on the last days of March, June, September and December of each year, and to the General Assembly each two years, for the purpose of the expenditures from the appropriations made to his office."

All official acts of the superintendent are with the approval of the board of public buildings and property. Since 1919 the Statehouse engineer has been abolished and his duties have been transferred to the superintendent.

SUPERINTENDENT GETS \$2,250 A YEAR.
Salaries expended in 1919 for labor amounted to \$20,820.50 exclusive of the salary of the assistant superintendent, who receives a compensation of \$1,250 yearly.

The last report made by the superintendent, gave the following expenditures in his department:
Salary, superintendent.....\$2,250.00
Salary, assistant superintendent.....600.00
Salary, labor.....16,084.50
General appropriation.....3,540.00
Governor's contingent fund.....650.00
Maintenance, repairs, alteration.....12,058.50
Water and ice.....1,927.79
Illumination and power.....5,541.22
Roof.....243.50
Flag and decoration.....149.50
Total.....\$44,591.48

Of this total, \$3,155.25 reverted to the State treasury, and receipts to the department, which were turned over to the Treasurer, amounted to \$747.11. The total appropriation for the year for salaries and other expenses amounted to \$40,746.73.

Difficulty is experienced at present in keeping a sufficient number of janitors on the force at the Statehouse. According to officials at the capitol building, the men and women come and go, and sometimes there are none who have worked in the building longer than two or three months, with the exception of the custodian.

UNEARTHED SIX BIG SNAKES.

NOBLESVILLE, Ind., Dec. 27.—While doing some ditching on the farm of P. O. Duncan near Noblesville, Friday afternoon, W. J. O. Davis unearthed six good-sized snakes. All of them were alive and three measured more than two feet in length. The bunch was killed. It is thought they were near the surface of the ground on account of the recent warm weather.

Woman in Triangle Tells of Shooting

Special to The Times.
SOUTH BEND, Ind., Dec. 27.—That Mark Uyco killed Dallas Anderson because he believed that the latter intended to shoot first will probably be the defense offered by Uyco. This defense will be a striking contradiction of the story of Mrs. Emma Emerich, the woman in the fatal triangle, in whose parlor the shooting was fired Thursday morning.

Mrs. Anderson claims she was holding a quiet conversation with the murdered man, who roomed in her home and had been her lover for more than a year when Uyco, his rival, pushed open the door, entered the room and instantly fired.

Mrs. Emerich since last May had received attentions from Uyco, who came here from Boughtonville, Ohio, but she did not dislike Anderson, and an intense rivalry was engendered between the two men. Uyco is 26 years of age; Anderson was 34, and Mrs. Emerich is 30.

PLAN NURSERY AT PLAINFIELD
One Reason for Asking Increased Appropriation.

The \$25,000 increase in appropriations asked for by the conservation commission would be used in the establishing of a tree nursery at Plainfield, under the direction of one of the members of the department of conservation, and for the hiring of a plant pathologist, according to Richard Lieber, director of the department. The commission, in a special meeting held Thursday requested the Legislature to appropriate \$25,000 annually for the department, an increase of \$3,000 over the \$20,000 now received.

Some time ago, the State planned to reforest the State by establishing a tract of land, and raising the trees. This plan was abandoned, however, on advice of a tree expert from Michigan who told what an enormous expense the operation of the tract would entail. It would have been necessary, under this plan, he said, to have many workmen, a tractor, and constant care of the trees, in order to insure any degree of success. The cost of the tract would run into excess of \$100,000, it was said.

Under the plan now adopted by the commission, on advice of the expert, the department would buy shrubs, set them out at the Boys' School at Plainfield, where the inmates there would be entrusted with their care. A representative of the department would be in charge of the nursery.

Besides providing a large number of trees, the boys at the school would be learning a profitable trade, and the entire cost of the plan would not be greater than \$5,000 to \$7,000, Mr. Lieber says.

A plant pathologist, who would be under the direction of the entomology division of the department, would travel over the State, and would work in conjunction with tree experts from the various schools of Indiana. He would inspect plants and trees which are diseased, and would advise remedies. The salary of the pathologist would approximate \$2,000 or \$2,400 yearly.

The remainder of the increase appropriation would be divided between the various divisions of the conservation department, wherever needed, Mr. Lieber said.

POLISH HUSBAND DENIES TITLE
Does Not Disclaim Wife's Accusation of 'Spendthrift.'

CHICAGO, Dec. 27.—Those who have been referring to Joseph De Korwin as "baron" and accrediting him with membership in the Polish nobility have been guilty of a grave mistake, take it from "Mr." De Korwin himself. He is just plain "Mr." De Korwin and not a baron, a count or duke or even a plain "sir."

De Korwin is in Chicago fighting the custody of his 8-year-old son whom he had never seen until a week ago. The boy is in the custody of his mother, Mrs. Cecile Young Heyworth De Korwin, heiress to the \$25,000,000 estate of the late Otto Young.

Mrs. De Korwin charges that her husband is an international spendthrift and that it cost her \$100,000 to "buy off" various mercenary wives and sweethearts who had claims against the bridegroom.

De Korwin has declined to discuss the charges of his wife but hastened to disclaim any pretension to nobility.

BUSINESS DEAL REPORTED.
Crawford Fairbanks has purchased of Lilly Schmidt a one-half interest in the property at 25-27 North Pennsylvania street, the other one-half interest in the property is owned by Edward Schmidt and others. The Aetna Trust Company holds a ninety-nine year lease on the property, which occupies the ground floor, subsisting the other stories of the building, which is four stories in height.
