

# FRENCH LICK SPRINGS HOTEL

## Indiana's Southland Resort

There are thousands of Hoosiers and others who once thought that there was no escape from the rigors and discomforts of our Northern winters without fleeing from the State to some Southern clime.

But they have discovered that right here in Indiana, at French Lick Springs, is a climate that is a happy medium between the frigid winters of Central and Northern Indiana and the tropical weather in the southernmost resorts. Here it is that thousands sojourn every winter, at one of the most pretentious and pleasure-giving resorts of the country, the French Lick Springs Hotel.

### Where Nature Favors Outdoor Sports and the Water Favors Health

French Lick Springs is both a pleasure lover's and a health seeker's resort. In this climate it is possible to enjoy outdoor sports and pastimes practically every day.

Those who prefer rest and relaxation find this great hostelry well fitted to take care of their comforts and amusements to a most gratifying degree.

#### Golf

Golf is played here in almost all seasons and the game is made unusually attractive because of the rolling hills of this part of the country.

#### Horseback Riding

Southern Indiana's picturesque topography provides innumerable winding drives and trails, up hill and down dale, that are a constant invitation to the equestrian.

#### Dancing

Dancing is indulged in every night in the hotel's spacious hall. Spectators who do not care to dance, enjoy the high-class music that is always provided.

#### Cuisine

The dining room of the French Lick Springs Hotel is unexcelled in service, and the cuisine is always highly commended by guests.

### Mineral Springs and Baths

The curative properties of the famous French Lick Springs is well known throughout the country. Thousands come here from distant points to obtain the benefits of the baths and to drink the water.

Our hotel has accommodations for 800 guests. Reservations for the winter season should be made now. Write for rates and descriptive literature.

### Pluto Is the Mineral Water That Made French Lick Famous

Pluto is more than a physic. It is a renovator and invigorator of the entire human system, a mineral water that keeps one in good health as well as cures those whose health has failed. The efficacy of Pluto has long been recognized by the medical profession and prescribed in many ailments.

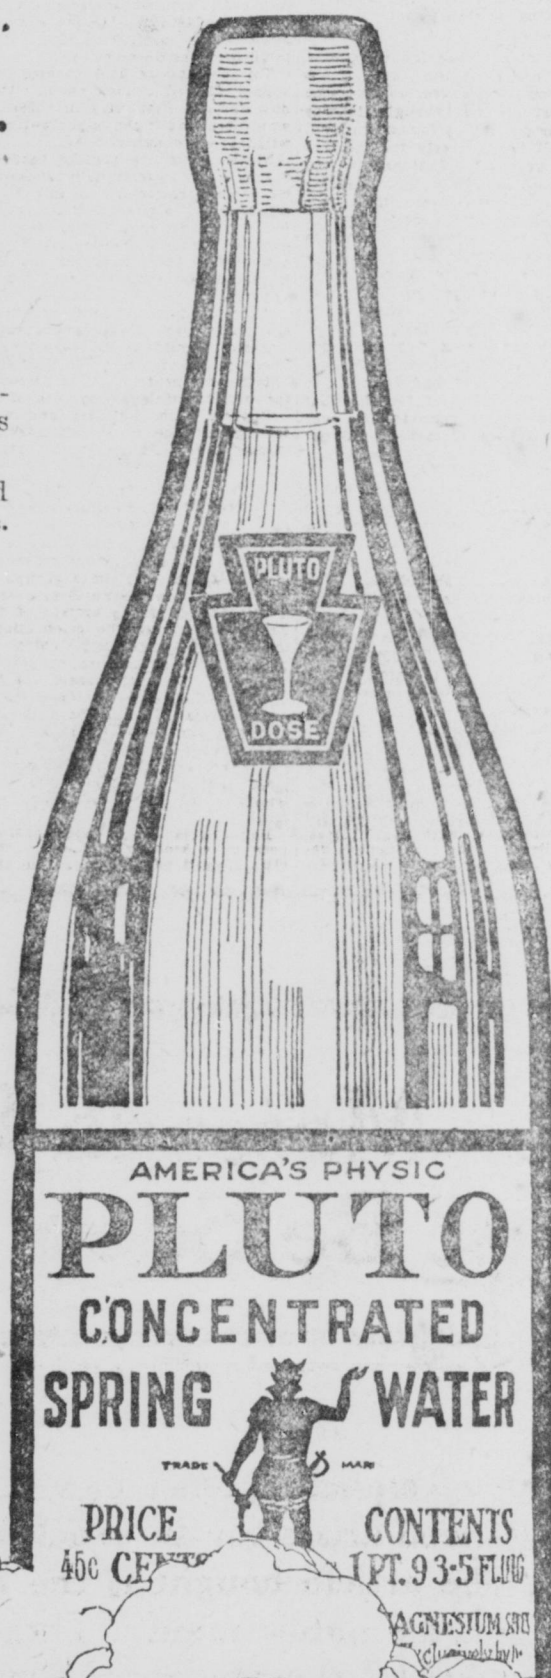

#### A Saline Physic

So eminent an authority as Dr. Arthur F. Hurtz, of Guy's Hospital, London, elaborates on the necessity of the periodic physic, even where the bowels act regularly every day. And when the same physician points particularly to merits of the saline physic, it is well to bear in mind that Pluto Water, "America's Physic," is a saline physic possessing, in addition, sufficient other necessary natural elements to give it its acknowledged healthful, stimulating, tonic properties.

#### Tones Up Entire System

Thousands upon thousands of the people who use Pluto Water, "America's Physic," know that it pleasantly but certainly removes the poisons created by undigested food—that it relieves and rests the intestines—that it tones up and invigorates the kidneys and clears the blood as well as the brain.

You can do no more beneficial thing for yourself than to decide now to use Pluto Water, "America's Physic," even if only occasionally. In case of gout, dyspepsia, chronic indigestion, biliousness, rheumatism, kidney, bladder and liver complaints, it is of especial service.
