

## 8-HOUR LIMIT FOR WOMEN IN FACTORIES SET

Bill Introduced in House Also  
Would Bar Work Between  
10 p. m. and 6 a. m.

### OLD AGE PENSION ASKED

Working hours for women in manufacturing industries in Indiana would be limited to eight hours and no woman would be permitted to work in any factory between 10 p. m. and 6 a. m. by the terms of a bill introduced in the House of Representatives late Monday by Representative David N. Curry, Democrat, Sullivan County. Violation of any of the provisions of the act would subject the violator to a fine of not less than \$25 nor more than \$100.

Enforcement would be placed in the hands of the Indiana industrial board. Complete regulation of women in industry would be effected.

Persons of the age of 65 and more would receive pensions amounting to \$400 a year from the State, providing they lived up to certain requirements, under a bill introduced by Representative George H. James, Clay County. At the death of the aged person, \$100 would be paid for burial expenses.

To come under the provisions of the pension it would be necessary for a person to have lived in the State for twenty years, but the fact that his business or travels took him out of the State for any definite period during the twenty years would not render him ineligible.

### INDUSTRIAL BOARD PENSION COMMISSION.

The industrial board of Indiana would constitute the "old age pension commission" and would be responsible for enforcement of the act. The bill was referred to the House Ways and Means Committee.

The administration bill providing for transfer of the buildings of the State Fair Association and making the State board of agriculture a State institution was introduced in the House Monday by Representative Murray Barker of Boone County. The bill was referred to the Ways and Means Committee.

The board of agriculture would consist of sixteen members, thirteen selected from each of the congressional districts and the other three, not more than two of whom would be of the same political faith, appointed by the Governor. The first members would be the members of the State board of agriculture as constituted Jan. 10, 1921.

The terms of eight of the members appointed would expire on the last day of the annual conference of 1922 and the other eight members' terms would expire on the last day of the annual conference of 1923. The terms of successors would be two years.

Compensation would be fixed at \$10 for each day actually employed and not to exceed \$5 a day for expenses while actually employed and cents a mile for traveling expenses. The bill provides for a general conference of agricultural societies in the State in Indianapolis on the first Wednesday after the first Monday in March.

## Recovers From Nerve Shock

Every Town Has Just Such a Sufferer Who Should Be Given  
Wheeler's Nerve Vitalizer.

There is no condition more distressing than a nerve system racked to the point of torture. And those haunting fears of nervously exhausted people can be overcome. This is evidenced by the experience of Mrs. Watts:

"My nervous system had been severely shocked. Doctors pronounced it nervous prostration. I suffered extremely from nervous chills, the most excruciating would cause an uncontrollable terror, as though a strong hand had seized my heart and I would be in a minute. Noise was torture; add to this sleeplessness and my condition may be imagined. The use of Wheeler's Nerve Vitalizer completely cured me of this trouble and today I am absolutely well."—Mrs. G. K. Watts, Brandywine, Va.

Be sure to ask for Wheeler's Nerve Vitalizer. It is free from dope—does not contain alcohol or narcotics. Safely and successfully used for 30 years.

## HAVE DARK HAIR AND LOOK YOUNG

Nobody can Tell when you  
Darken Gray, Faded Hair  
with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one stroke at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.—Advertisement.
