

SCORN OF FARM JOBS TO CAUSE FOOD SHORTAGE

Official Warns Thousands of Idle in Ohio Not to Demand War Pay.

CROPS ARE ABANDONED

COLUMBUS, Ohio, Feb. 2.—Idle thousands in Ohio cities seem determined to strike against going to work on farms, N. E. Shaw of the Department of Agriculture said here today.

A food shortage and high prices may result if the same strike of the unemployed is undertaken in other States, Shaw warned. Farmers offering to hire men at wages below those paid last year are receiving little or no response, according to Shaw, despite the fact that 450,000 men are unemployed in Ohio, as shown in a recent survey by the United States Employment Service.

SURVEY SHOWS 100,000 NEEDLESS

Shaw's survey of Ohio showed: Farmers need 100,000 workers in the next two weeks for spring planting. The striking unemployed, with a war taste cultivated by war conditions, refused to return to the farms for less pay than \$50 a month and board.

Farmers, forced to pay high prices for material and faced with a declining market, see financial losses unless labor is obtainable at pre-war figures.

Last year farm workers received \$45 a month and board.

MAXY TURN FROM FARMING.

The unanimous opinion has been reached by farmers, individually, according to reports to Shaw, that there will be no profits from the soil this year unless the unemployed cease to be epicures of high wages.

Many farmers have removed corn and wheat from their crop rotation plan. A considerable number have abandoned the land and others will turn to stock raising.

To pay wages demanded, farmers claim, would bring the cost of production to more than the market prices.

PLENTY OF WORKERS IN OTHER STATES

WASHINGTON, Feb. 2.—Farm labor will be plentiful throughout the entire United States during 1921, G. W. Foster of the bureau of farm management of the Department of Agriculture predicted here today.

Foster and other officials were perplexed by reports from Ohio that unemployed were remaining idle rather than work on the farms at wages below those of 1920.

Assistant Director Skinner of the Employment Service said there is a distinct drift of workers back to the farms.

Split Anticipated on Utilities Bill

The bill calling for the abolishment of the public service commission and the revival of the railroad commission probably will reach the floor of the House of Representatives today with a dividend report, the majority calling for its indefinite postponement and the minority for adoption.

At a meeting of Judiciary A committee last night it was decided to report the measure unfavorably. Only two members of the committee, Representatives Omer U. Newman of Marion County and R. U. Barker of Posey County, favored the bill.

CHIROPRACTIC IS CENTER OF ROW

Biennial Fight on Recognition Stirs Legislature.

The biennial fight over the question whether chiropractors should receive recognition separate from other practitioners and healers was raging in the lobbies of the Legislature today, following a hearing before the Senate Committee on Public Health last night. The crowd at the hearing filled the Senate chamber to capacity.

The bill under discussion provides for a separate board for examination and licensing of chiropractors and provides that a chiropractor need not have the pre-medical training required of physicians and practitioners of other schools.

A number of persons gave "testimonies" regarding chiropractic treatments. Among those who spoke for the chiropractors were Frank J. Wright, chiropractor; John Riddle, attorney for the miners' union; and former Senator Harry E. Negley, attorney for friends of the bill, who incidentally told how he believed his life was saved by chiropractic treatments.

Among those who spoke against the bill were Dr. W. T. Gott, secretary of the State board of medical registration, Dr. W. H. Wishard of Indianapolis, Dr. Edward E. Evans of Lake County. The doctors argued that a law setting low educational standards for chiropractors would be a menace to the public.

Members of the committee, which is composed of Senators Boardley, Buchanan, Steele, Van Orman, Major, Holmes and Arnold, did not indicate how the bill would be reported.

FULL PAY FOR WOMEN EMPLOYEES U. S. CRADLES—BISHOP FALLOWS

CHICAGO, Feb. 2.—Full pay envelopes of women in industry has emptied the cradles of the nation, Bishop Samuel Fallows, Reformed Episcopal Church, said today.

"Women used to do housework, paving the way to become wives," the bishop said.

"Now, they have become co-partners of man in politics and business and take little thought of marriage."

He said neglect of home life by women is the leading fault of the age and has become a serious problem.

"Even when many women marry, they insist they be permitted to retain their place in industry," he said. "The full pay envelope is a greater temptation than the sacred duty of motherhood."

M. J. MOORE, AUTO FIGURE, IS DEAD

Old Football Injury Fatal to LaFayette Motor Man.

The funeral of Maurice J. Moore, secretary-treasurer of the LaFayette Motors Company, who died at St. Vincent's Hospital late Tuesday, probably will be held at Hamilton, Ohio, with the Masonic lodge in charge. Arrangements are not complete.

Death followed an operation on a dislocated knee, with which Mr. Moore had been troubled since he was injured in a college football game.

Mr. Moore was born in Geneva, N. Y., and lived there eighteen years. He entered the automobile business with the Chevrolet Automobile Company at Detroit, later going to Flint, Mich. He was married to Miss Sue L. Schwartz of Hamilton in 1913, while employed as production manager for the Miami Cycle Company at Middletown, Ohio.

He served as a captain in the Motor Transport Corps during the war and in August, 1919, was elected secretary of the LaFayette Motors Company. He moved to Indianapolis in November of that year. As president of the LaFayette Building Company, he directed the planning and construction of Mears Hill addition.

The widow, a son, Maurice J., Jr., 4; Mr. Moore's mother, Mrs. Frances E. Moore of Washington, and two sisters, Miss Susanna Moore of Washington and Mrs. Richard Reed of Tutuila, Samoa, survive.
