

AGRICULTURAL BOARD CONTROL BILL IS PASSED

House Votes 75 to 2 for Measure Providing for Reorganization.

HOPPER IS OVERFLOWING

House Bill No. 212, providing for reorganization of the State board of agriculture, under State control and backed by Governor Warren T. McGray and members of the present agricultural board, passed the House late Friday afternoon, under suspension of the rules, by a vote of 75 to 2.

Those voting against the bill were Representatives Sam Benz, from Crawford and Washington counties, and John M. Grayson, Republican, Knox County. Before the bill passed an amendment offered by Representative Claude A. Smith, Gibson County, which provided that no member of the present or future boards of agriculture be permitted to vote for his successor, was adopted.

Members of the board will be nominated by the presidents and secretaries of the various farmers' organizations and the fair associations of the State. They will be appointed by the Governor.

The minority report favored passage.

Bolshevism Defined by Mrs. Pankhurst

Special to The Times. The fundamental idea of Bolshevism is that of taking away from the owner property which he possesses in order that all may be brought down to a common lot," declared Emmeline Pankhurst, English suffrage leader, in a speech at the Coliseum here last evening. Mrs. Pankhurst spoke on the subject, "Bolshevism and the Woman Voter."

One of the most successful methods of the Bolsheviks in spreading their propaganda in Petrograd, she said, was to deprive the people of food, thus causing unrest. "Food came up to the very gates of the city and was turned away," she asserted.

She described in detail the conditions in the Russian cities during the revolution in which the Bolsheviks came into power.

"Despite the large amount of talk that is heard about the Bolsheviks," she said, "they are still a very small minority in Russia and elsewhere."

JAP VISCONTI SEES NO CAUSE FOR WAR TALK

Visitor, Buying Machines in U. S., Says People Desire Peace.

SAN FRANCISCO, Feb. 12.—Confidence that matters now at issue between the United States and Japan will be settled on a "common sense basis" was expressed here today by Visconti Inoue of Japan, who is just arrived from the Orient.

He declared there is no reason for war talk, either in Japan or the United States, as the better classes of both countries desire only the most friendly relations.

Visconti Inoue is here to study the steel industry and incidentally to purchase approximately a million dollars' worth of machinery for use in the development of the steel industry in Japan.

He said Japan has reached a point where development of steel and coal resources of Manchuria is necessary and will be carried on immediately on an amicable basis.

Inoue is a member of the Diet, professor of mining in the Imperial University and adviser of the South Manchuria Railway, in addition to his leadership in the steel industry.
