EXAMINERS FIND FUNDS DUE STATE

Recover Sums From Grant County and Marion Officials.

Four officials of Grant County and the city of Marion stand charged with \$84.05 due the State as a result of disclosures made in an examination of their books, conducted by L. D. Hutchins and Ed Major, field examiners of the State board of accounts. Public funds amounting to \$1,529.50 have been recovered by the accountants.

The reports cover examination of the offices of Austin D. Hunt, auditor, and Mort McKee, ex-auditor, of Grant County; Claude Hamilton, Marion city clerk, and Elkanah Hulley, mayor of Marion.

The largest amount pending is that of \$79.05 against Auditor Hunt. Hunt already has paid in \$741.99, which was recovered by the examiners. The charge against Hunt is for overpayment for copying names in registration books. The pending charges against the auditor, which have been settled, were for duplicate payments to various firms, according to the examiners.

Payment of premium of bonds for members of the board of police commissioners and the board of health, amounting to \$45, comprise the charges against Hamilton. The charges against McKee, amounting to \$767.29, have been paid according to the report. They were a result of reported overpayments to the ex-auditor.

The charges against Mayor Hulley are for errors in footing the cash book of the Marion city court. The report states that the amount, \$21, will be repaid in the next quarterly settlement.

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it is just as good for quick results.

Thousands of housewives have found how to save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup. It is simple and cheap but it has no equal for results. It gives immediate relief, usually stopping an ordinary cough in 24 hours or less. Get 2½ ounces of Pinex from any drugstore, pour it into a pint bottle, and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic cough, hoarseness or bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract known the world over for its healing effect on membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

57 Reasons for Aiding Library's Book Fund Drive

For many, many years the book fund of the Indianapolis Public Library has been distressingly insufficient. During the last four years the already inadequate fund has been cut to a sum far too low to meet even ordinary demands made upon it, taking no account of the increasing use of the library and of abnormal needs arising during a period of war and reconstruction. These cuts have been due to the tax situation and the increased costs of all items in the administration of a library.

During times of stress a library's book fund is the only budget fund to draw upon for other necessary items which cannot be further reduced and still keep the library open. Light, heat, service, etc., must be maintained in the face of rising costs and great book needs. Last year the Indianapolis Public Library was able to spend only 7 per cent of its total income on books. Other cities of the same size normally spend on books from 10 to 38 per cent of their total annual incomes. Kansas City spends 22 per cent, Detroit 21 per cent, Louisville 26 per cent, Denver 27 per cent, Seattle 19 per cent, and Berkeley, and the best part of the year 1918-1919, when the number of books worn out was 11,068 as against 10,206 new additions. Books worn out are naturally those most wanted and most in demand and use. The book collection is consequently becoming rapidly less adequate, useful and interesting. How long could a shoe store, a drug store or even a book store keep up under like conditions?

During certain periods of the year, particularly during the winter months, the library has been wearing out more books than it can buy. This was true of the entire year 1918-1919, when the number of books worn out was 11,068 as against 10,206 new additions. Books worn out are naturally those most wanted and most in demand and use. The book collection is consequently becoming rapidly less adequate, useful and interesting. How long could a shoe store, a drug store or even a book store keep up under like conditions?
