

CLUBMAN SHOT TO DEATH IN PLOT, THEORY

Influential Buffalo Man Victim in Baffling Crime—Black Mask a Clue.

OFFER \$6,000 IN REWARDS

BUFFALO, N. Y., March 21.—The original theory that Luther P. Graves, wealthy clubman, society favorite and former Yale athlete, who was shot to death Thursday morning, had been killed by a feeling burglar was discounted today when the fact was made public that the man who shot Graves was a member of the Buffalo Athletic Club. It was revealed that Graves had been wounded three times with a .45 caliber revolver and that the most serious wound upon the body had been made with the weapon held so close that the skin and clothing were burned by the powder.

The mystery of Graves' death has not been solved but the police have important new clues which they hope will lead to an arrest within a day or two. One theory is that instead of being shot by a burglar, Graves was the victim of a deliberate plot. There is evidence in hand indicating that the murderer was accompanied by another man and that they fled in an automobile driven by a woman.

The police have in their possession a black mask which was picked up near the spot where Graves was killed. They had been informed by George Barnett, chauffeur, that the mask belonged to him and that he had dropped it while returning home from a masquerade party Thursday morning, but they are not satisfied with this explanation. Graves' body and the district attorney said they were not yet certain that the mask could be eliminated from the crime.

Following the burial of Graves on Sunday, when a great crowd of relatives, friends and curiously onlookers were at the cemetery, District Attorney Guy B. Moore and several investigators visited the spot where Graves had been shot. They had hoped to get clues from footprints in the mud, but the ground had been so badly trampled since the murder that they were unsuccessful.

The Yale Alumni Association, of which Graves was a member, has offered \$1,000 reward for information leading to the identification of the murderer, while a citizen's committee headed by Mayor George F. Buck has offered another reward of \$5,000.

GOT 'EM OFF? WELL, BETTER PUT 'EM ON AGAIN

(Continued From Page One.)

o'clock. But last night those who took advantage of the warmth and were sprayed out on park grass, rambling home for the thermometer started to drop, accompanied by a cool lake wind. At 7 o'clock this morning it stood at 33.

NEW YORK, March 21.—Blossoms, butterflies, bathing beauties and beehives ushered in the first days of spring for New York.

The weather man promised a duplication of yesterday's temperature of 76, the hottest March day on record, when more than 100,000 persons appeared at Coney Island. Hundreds of them took a dip. The shouts of kids playing baseball in vacant lots mingled with the rattle of lawn mowers.

KANSAS CITY, Mo., March 21.—Official arrival of spring here was marked by the "chilliest" weather in a month. The birds sang long and loud in protest.

DALLAS, Texas, March 21.—Miss Spring's return today was the first indication Texas had that she had been away. About ten more days will see many backyard gardens well watered and leaves in north Texas fully out. It was declared. The winter has been unusually mild.

WASHINGTON, March 21.—Spring came to bat in midseason form here today. The weather man promised temperature around 60. The kiosk registered 58 yesterday.

ST. PAUL, Minn., March 21.—Buds and grass coaxed out by warm days shriveled today when a cold north wind sent the thermometer below freezing. A bright sun and clear skies, however, followed rain and hail of the last two days.

ST. LOUIS, March 21.—Another proof that woman is usurping man's role. Miss Spring made her debut today with a blustering wind and driving rain. Mr. Winter existed yesterday under a clear sky with a summer warmth in the air.

HOUSTON, Texas, March 21.—A dozen or more 1920 straw hats officially greeted spring today. But south Texas folks didn't wait until the spring. Exactly 14,999 automobiles carried picknickers into the country from Houston yesterday. The other owners failed to buy gas Saturday.

CHICAGO, March 21.—Lady Spring had evidently got her dates mixed today when she howled in Chicago bringing the chilliest weather in several weeks. Yesterday, the last day of winter, was sultry. Wilted collars, vestless men and delirious diaphanous garb of women marked winter's exit.

ATLANTA, Ga., March 21.—As the delinquent calendar announced today that spring is here, Georgians seem to be a thermometer, hovering around 75 degrees, the peach bloom and the robin announced the very same thing more than a month ago.

AMARILLO, Texas, March 21.—A howling wind from the north, accompanied by a blinding snow and sleet and with the thermometer hovering around 22, ushered in the first day of spring over the Texas Panhandle.

DENVER, Colo., March 21.—Mild temperature and sunny skies today marked the first day of spring for Denver. Spring-like weather has prevailed here for three weeks and the weather is now in the hands of the same. Large crowds of picknickers go to the mountains every Sunday.

DES MOINES, Iowa, March 21.—Citizens of Des Moines admit that today is the first day of spring, according to the calendar, but otherwise—yesterday last gasp of winter. Iowa was wintered in 75 degree summer heat. Today, just as the flower season was making its first bow, the mercury slid thirty degrees in eight hours and a bitter wind whopped out of the north.

SAN FRANCISCO, March 21.—Having uncharacteristically celebrated the arrival of spring with perfect weather a month ago, San Francisco was overcast today and said "Doggone it, that's a cold wind."

Density Gains Nearly Five to Square Mile

WASHINGTON, March 21.—The density of population in the United States increased nearly five persons to the square mile, the last ten years, according to figures announced today by the Census Bureau.

White Ribbon Wearers Plan Nicotine War

Attack on Golf and Other Pastimes to Accompany Drive for Sabbath Observance.

EVANSTON, Ill., March 21.—A nationwide campaign for strict observance of the Sabbath and a determined drive against "My Lady Nicotine," are to be launched on April 3 by the W. C. T. U., according to announcement at the national headquarters of the organization here. Preliminary work of the campaign already is under way.

Appeals will be sent broadcast through the radio to urge the nation to go to church on Sunday, April 3. This will be followed by a week of prayer, and Sunday, April 10, will be nationally observed as anti-nicotine Sunday. A nationwide anti-nicotine crusade will follow.

Among the things that will be attacked in the campaign are golf, automobile racing, baseball, moving pictures, dancing and theaters.

Literature announcing the campaign and urging cooperation of churches, Sunday schools and schools also is being prepared and sent to the nation. The Union Signal, official organ of the W. C. T. U., declares 150,000 caddies are employed on golf links of the nation on Sunday when they should be in Sunday school. Four hundred thousand people work on Sundays who should not be required to do so.

OFFICIAL QUIZ TO FIX BLAME IN CHICAGO BLAST

Elevator's Condition or Work of Agitators Held as Explosion Causes.

CHICAGO, March 21.—An official inquiry into the explosion which wrecked the great Armour Grain Company's elevator here Saturday night, got under way today as rescuers sought in the debris for the bodies of four men believed to be buried there. Formal inquest over the two victims whose bodies have been recovered was to be held.

An inquiry which, it is promised, will be thorough, was begun by State Fire Marshal John G. Gambler. Deputies assigned by Gambler will endeavor to learn if the blast was caused by improper condition of the elevator or was the work of criminal agitators.

The four men whose bodies are believed to be in the ruins are Louis Reich, Arthur Boumann, M. J. Wiltz and Annil Marshall. A check up of the employees of the company indicates that these four are the only ones unaccounted for.

The two men whose bodies have been recovered have been identified as Paul Bala and Henry Osterman.

That it may be several days before the bodies are found is the belief of rescuers, who point out that the bodies might be in one of the elevator's shafts and would be reached only after the tangled and twisted girders had been cut away.

Estimates of the damage place the total at approximately \$4,000,000. Damage to the elevator is placed at about \$3,000,000, while it is estimated approximately \$1,000,000 worth of grain was destroyed.

Estimates of the damage place the total at approximately \$4,000,000. Damage to the elevator is placed at about \$3,000,000, while it is estimated approximately \$1,000,000 worth of grain was destroyed.

Night Visitor Madley Beats Girl in Bed

CAMBRIDGE, Mass., March 21.—Miss E. L. Morse, 20, a technology student, was beaten almost into unconsciousness in her bed today by an unidentified man, who stood on box outside her window.

The man beat the girl, with a brick, pulled her hair and slapped her face, but made no attempt to enter the room or to rob her.

IRELAND GIVES UP TOIL OF 29 Sinn Feiners' and Crown Forces' Casualties in Gory Week-end.

DUBLIN, March 21.—Twenty-nine persons are known to have been killed in the bloodiest week-end in Ireland since the present "campaign" began. It is probable the death list will reach much higher since both sides—the Sinn Feiners and crown forces—are concealing their casualties. It was declared in some quarters today that the deaths may have totaled nearly fifty. In addition to the dead scores were injured.

Two military lorries were bombed in this city when two British soldiers were killed and six others wounded. Three bystanders were wounded.

Fighting started between nationalists and Sinn Feiners at Londonderry, but was quelled by troops.

A civilian in the heart of Cork was mysteriously shot.

Numerous ambulances were reported from throughout southern Ireland.

Sinn Feiners and sympathizers covered many parts of Dublin with placards appealing for "Support for the Irish republicanism against the foreign invader." Police and soldiers were busy for hours tearing down the posters.

Mr. Patrick Doyle, widow of the young Sinn Feiner, executed by the British in Mt. Joy prison last Monday, died early today. She never recovered from the shock of her husband's execution.
