

CITY TO PAY UP, ENABLING BELT TO RAISE TRACK

Agrees to Settle Now, Rather Than Wait for Completion of Elevation.

KEY TO WHOLE PROJECT

Officials of the Indianapolis Union Railway Company, Mayor Charles W. Jewett and members of the board of public works last night signed a new contract covering the track elevation work to be done by the railroad, differing from the old one in the manner of making financial settlements, it was announced by Corporation Counsel Samuel Asby today.

Under the old contract the city and the railroad kept track of the amounts owed each other with the intention of making a final settlement to the one which the balance favored after all of the elevation project was completed. The new contract provides that the city shall make a settlement with the railroad as of April 1 not later than thirty days thereafter and shall make cash payments every month thereafter.

The railroad served notice a week ago that unless it received money due from the city it could not go on with its elevation work because its borrowing power was exhausted. The books show that the city owes the railroad approximately \$200,000 and the railroad owes the city about \$233,000, leaving a balance in favor of the company of about \$34,000.

City officials agreed to settle the accumulated debt of the last five years in accordance with the terms of the new contract and the city council last night authorized a bond issue of \$375,000 to meet the first and subsequent payments. Further funds will be derived from taxes later.

STATE BOARD MUST APPROVE

The state board of tax commissioners must approve the bond issue before it can be floated, but it was thought the railroad could obtain credit on the prospect of the city's payment and go ahead with its work. The L. U. work is of such a nature that the whole elevation project hinges on it.

The city obtained an important concession from the company in the new contract, Mr. Asby said. This consisted of an agreement by the company to pay its share of the damages awarded property owners whose buildings were torn down when the Virginia avenue viaduct was done away with. The city and to pay the railroad's share at the time settlement was made with the property owners and now the city will receive from the railroad \$25,218.06 on this account.

Unfaithfulness and \$67,000 in Bonds Also Involved in Row.

CHICAGO, March 22.—Alleged intimacy with Miss Frances Helen Carroll Day in Reno, Nev., and the wrongful withholding of \$7,000 in bonds are the cause of a bill asking for divorce. The Marjorie C. Cory presented by Mrs. Margaret Molitor Cory, daughter of wealthy Fond Du Lac (Wis.) parents.

The bill states \$67,000 from the sale has been deposited in Mr. Cory's name. Injunction restraining the Continental and Commercial National Bank of this city from turning over any money or securities to Cory pending action in her suit is asked by Mrs. Cory.

The Corys were married Jan. 29, 1919. Mrs. Cory states she is living with her mother, Mrs. Julius Keller, in Chicago and alleges that Cory, since August, 1920, has refused to communicate with her or answer any of her letters to him.

DR. HARRIGAN'S ADVICE TO THIN, NERVOUS PEOPLE

It's worth your while to read what a New York specialist has to say about the nerve and brain cell builder that Hook drug stores and other leading druggists sell in such of these days. He writes: "Let those who are weak, thin, nervous, susceptible of fits, take natural unmedicated substances such as Bitter-Phosphate and you will soon see some astonishing results in the increase of nerve energy and strength of body and mind. Bitter-Phosphate is a pure organic phosphate such as good physicians prescribe to increase weight and create abundant nerve force. CAUTION: Although Bitter-Phosphate is an excellent aid in relieving nervous conditions, its use is not advised unless increased weight is desired.—Advertisement.
