**TWENTY CENTS  
IN POKER GAME**  
Police Also Find Cards in Raid  
—Eight Greeks Arrested.

Harry Hicks, 328 1/2 East Washington street, was arrested by Sergeant Dean and a squad last night and is charged with keeping a gambling house. Eight Greeks found there are charged with gaming and visiting a gambling house. The police allege the men were playing poker. The officers obtained cards and 20 cents is evidence.

Things were pleasant on Pleasant street Sunday morning and the police seized the home of Joe Wagner, 1619 Pleasant street, at whose residence there was a "billionaire" time. Three men found there were arrested on charges of drunkenness. Lieutenant Wollen went back there last night and arrested Wagner on charges of drunkenness and maintaining a nuisance, and Emma Irwin, who lives on Washington street, on the charge of drunkenness.

Thomas Bass, 316 East St. Joseph street, also had a call from Lieutenant Wollen and his squad last night and as a result he is charged with operating a bingo tiger, a half gallon of "white mule" whisky was found hidden behind the davenport in Bass' home and numerous empty jugs, the police say, smelled of liquor and were brought in as evidence.

**DUESENBERGS TO  
GIVE UP RACING**  
Factory Under Construction  
to Make Pleasure Cars Only.

The Duesenbergs are getting out of the racing game.

This announcement was made by L. C. Rankin, vice president and general manager of the Duesenberg Automobile Company at Indianapolis today.

After the Grand Prix race at Paris the world's famous Duesenberg racing engines will go in the discard. The Grand Prix race will be the culmination of twenty-two years of life of Fred Duesenberg spent in developing the highest type of motor. Officers of a number of the national automobile associations were instrumental in getting a loan of these four Duesenbergs for the Grand Prix race. Funds to send these cars as America's entry in this event were raised with the sanction of Richard Kennerdell, chairman of the contest board of American Automobile Association.

The cars go to Europe with not only the moral and financial support of the automobile associations of the country, but with the backing of the city of Indianapolis, evidenced in a letter recently sent to B. A. Worthington, president of the company, by John B. Reynolds, general secretary of the Indianapolis Chamber of Commerce, immediately after the wonderful showing at the Indianapolis Speedway races where four out of the six Duesenbergs finished in the money in second, fourth and sixth places.

With the Duesenberg factory rapidly getting into production, with their output for the next three years over-sold, even though the third year calls for a production of 2,400 cars, Mr. Duesenberg's time and energy along with that of his brother, E. S. Duesenberg, will be absorbed in the production of passenger stock cars instead of the building of racing machines.

**Shelbyville Fights  
Raise in Water Rate**

SPECIAL TO THE TIMES.  
SHELBYVILLE, Ind., June 20.—Notice has been given here by the Interstate Public Service Company that it will make application at once for authority to adopt a new schedule of water rates in the city of Shelbyville, which would include an increase in the present rates and a revision of the present schedule. The petition has been filed with the public service commission of Indiana. A general increase of all rates is asked.

City officials stated today that opposition will be started at once to the granting of the petition. Since June 29, 1917, when the company surrendered its franchise with the city and began operating under the regulation of the public service commission of Indiana the city has been compelled to pay out large sums for water rentals which previous to that time were provided without charge by the company. The business men's organization here will also oppose the petition, it has been announced.

**Man Dies in Chair  
of City Restaurant**

Maynard Chase, 53, employment manager at the Stutz Motor Car Company, died Saturday night in a luncheon room at 120 East New York street. Mr. Chase, according to A. L. Carter, owner of the restaurant, walked in about 6:30 o'clock and asked for a bottle of soda, saying he was not feeling well. About half an hour later, according to Carter, Mrs. Chase was discovered in an unconscious condition in his chair.

Dr. R. W. Willford, 308 1/2 Massachusetts avenue, was called by him, but died a few minutes afterward. Death is believed to have been due to a heart attack resulting from a slight case of ptomaine poisoning.

The police investigated and ordered the body sent to the city morgue. Mrs. Chase, 712 East Eleventh street, Mr. Chase's sister, was later notified. The victim lived at the Roosevelt Hotel.

Four Others Escape, Although  
Dragged 50 Feet—Sunday  
Accident Toll Light.

Mrs. L. Mick of Florence, Kan., suffered a broken arm and severe bruises, and four other persons narrowly escaped injury Sunday when an inbound T. H. I. & E. car struck an automobile in which they were riding on the National road, just east of Cumberland.

In the automobile were Mr. and Mrs. L. Mick and their daughter, Violet Mick, and Mr. and Mrs. O. J. Varner of Ottawa, Kan. They were on their way to Parkersburg, W. Va.

The party was turning from the National road into a detour when their engine died with the front of the car resting on the interurban tracks, which run parallel to the National road. The occupants of the automobile saw the approaching car, but were unable to escape. Despite efforts of the motorman to stop, the automobile was thrown about fifty feet.

In an automobile accident at Meridian street and Fall Creek boulevard Sunday night, 223 South Grace street, was injured. She was riding in an automobile driven by Verna Parker, 514 South Noble street, which collided with a car driven by Chris Engelking, 2370 English avenue. Both automobiles were damaged.

**CITY MAY STOP  
VISITS IN HOTEL**  
Council to Hear Objections to  
Anti-Vice Ordinance Tonight.

The anti-vice ordinance sponsored by Indianapolis hotel keepers may be reported out of committee and put up for passage at the regular meeting of the city council tonight, Councilman Jacob P. Brown, chairman of the committee to which it was referred, said today.

The hotel men intend to have a conference with the entire council before the meeting begins, Mr. Brown said. Considerable opposition has developed against the measure because it is regarded as being so strict as to be impracticable. It prohibits any man or woman, not a relative of the occupant or an employee of the hotel, from entering the room of any one of the opposite sex, excepting in the case of a customer entering a sample room to confer with a salesman, in which case the door must be open. This would prevent persons who make their homes at hotels from receiving visitors as other citizens do at their residences, it has been pointed out.

It is understood that some members of the council will insist that the ordinance be amended to permit visiting if the purpose of the visit is explained to the hotel clerk before the room is entered.

WASHINGTON, June 20.—Nearly \$500,000 will be forced from the tax dodgers during the next fifteen months, the Treasury office hoped through a renewal of the nation-wide drive to force correct payment of income, profits and special taxes.

David H. Blair, commissioner of internal revenue, said the Government would undertake a renewed campaign against tax dodgers beginning in July.

Flying squadrons of tax detectives will be sent to all big cities, Blair stated.

"Special attention will be directed to the collection of the excise tax on sales by manufacturers," he said, "the tax on transportation, the so-called luxury tax, the jewelry tax, the tax on toilet articles and proprietary medicines and the soft drinks and admission taxes."
