

LEHNEY COMES AGAINST SAM GOMPERS

Mine Workers' Head Announces Candidacy for A. F. L. Presidency.

REPORT CAMPAIGN FUND

DENVER, Colo., June 20.—John Lewis, president of the United Mine Workers, today announced his candidacy for the presidency of the American Federation of Labor.

Lewis' announcement was made shortly after reports that a \$100,000 campaign fund was being used to further his candidacy was brought to the attention of the convention.

Lewis said: "I have decided to permit my name to be presented to the convention as a candidate for president of the American Federation of Labor."

Lewis previously had told his closest backers that he would not announce his candidacy unless he had enough votes pledged to insure his election.

The challenge of Lewis was immediately accepted by Samuel Gompers, for thirty-nine years head of the labor union movement in America.

"My name will go before the convention and it will not be withdrawn," Gompers said.

LEHNEY'S MOTION SIDETRACKED.

John S. Leheny of Idaho brought to the attention of the convention the charges regarding the \$100,000 campaign fund.

Leheny moved that the convention appoint a committee to investigate the charges.

The convention was unable to consider his motion, however, because a previous motion of adjournment which had the right-of-way in the convention's proceedings had been made. The adjournment motion was adopted, President Samuel Gompers ruled that there was a large chorus of "noes" from those who desired that immediate action be taken on Leheny's motion.

"I am of the opinion that no corporation can place a dollar among these delegates and influence the action of the Federation of Labor," Leheny said. "I am opposed to Gompers, but this convention cannot rest under such a cloud."

The convention adjourned until 2:30 p. m., when there was every indication that the squabble over the alleged \$100,000 campaign fund probably will be brought up again.

PROTEST ATTITUDE OF SHIPPING BOARD.

The federation protested against the attitude of the United States Shipping Board toward union labor.

Andrew Furuseth, head of the Marine Workers' Union, declared that he was declaring A. D. Lasker, head of the open shipping board, had declared for an open shop and that agents of the union would be prevented from visiting docks and ships.

The resolution commended the seamen for their stand in refusing to accept the attitude of the shipping board.

"The Shipping Board, while hiding behind a smoke screen of union hate, is torpeding the merchant marine and setting back the United States," the resolution declared.

The federation ordered appointment of a committee to confer with the Federal government in regard to the promise to pay the award to the men of the Minneapolis Steel and Machinery Company. The action was taken on request of Delegher Hall of the Minneapolis Labor Federation.

The convention adopted resolutions favoring: Providing for appeal from decisions of the Federal civil jury system.

Urging adequate housing laws. Resolutions advocating equalization of rights of white and colored workers in union membership were considered, but the state was withdrawn and the measure sent back to committee.

RUN EXERCISES TO LEGION'S 4TH

Special Fares Effective Within Fifty Miles Radius.

Special excursions to Indianapolis will be run over the railroads and interurban lines to accommodate visitors within the fifty miles radius of the city to the annual Fourth of July celebration which will be held at the State Fair Grounds under auspices of the Marion County Council of the American Legion, it was announced today by Dan I. Glosbrenner, chairman of the finance committee.

Passenger agents of the various transportation companies running into Indianapolis have been consulted regarding provisions for special rates and have consented to declare excursion fares effective July 4. It has been the desire of the numerous committees of the legion that Indianapolis, in giving the celebration, extend a special invitation to residents of the State to attend.

A meeting of the finance and concessions committee, which is headed by Mr. Glosbrenner, was held at headquarters by the council and several decisions of the afternoon and evening program were announced. All of the contracts for concessions and amusements have been awarded, it was said.

The afternoon program will consist principally of speaking in the coliseum, band concerts and the athletic carnival, which will be staged under the joint direction of the Indiana Association of Amateur Athletic Union. There will be a marathon race immediately after the exhibition of daylight fireworks, intended especially for the children.

Parking space for an unlimited number of automobiles has been arranged and a detail of police will be on duty throughout the day to provide information for visitors. It also has been arranged for medical and hospital attention and a first-aid station will be established on the grounds.

TWO MUNCIE SAFES CRACKED.

MUNCIE, Ind., June 20.—Thieves entered the law office of McClellan, Henderson & Galt on Saturday night, cracked the outer door of the safe and took \$100 in cash with first mortgage papers valued at \$3,000. A safe in the office of Lefter Ball & Lefter was opened, the thieves obtaining a \$500 Liberty bond, \$45 in cash, some legal documents and some jewelry.

BARNS STRUCK BY LIGHTNING.

NARBESVILLE, Ind., June 20.—The large frame barn on the Naylor Webster farm northwest of this city was struck by lightning Saturday night and destroyed. Several head of live stock, 500 bushels of corn, a large number of farming tools and considerable hay and other feed were also burned. The loss is estimated at \$7,000 less than half of which is covered by insurance.

CERTIFIED FOUR SHELBY FIELDS.

SHELBYVILLE, Ind., June 20.—Four Shelby County wheat fields have been selected by Prof. F. E. Robbins of Purdue University, for State certification as being free from all wheat diseases. The wheat from these fields will be placed on the market as certified seed. The fields were raised by William Weinman, A. F. MacLean, Wiley W. Means and Ernest Thornburg.

MEMORIAL TO CENTRALIA VICTIMS

"The Spirit of the American Doughboy," by E. M. Vignessy, architect and sculptor of Americus, Ga., was chosen out of 147 competing figures as the American Legion memorial to commemorate the riot of Armistice day, 1919, at Centralia, Wash.

Police Close Bungalow; Wild Time as Lid Goes on

The police put the "lid" on the Bungalow at 2 a. m. Sunday. John Pash, negro, proprietor of the place, was arrested on charges of drunkenness, profanity, disorderly conduct and resisting an officer.

Pash's arrest caused a near riot in the notorious roadhouse, which is located at 1610 Brighton boulevard. James Kinney, negro, 1201 Lewis street, was arrested on the charge of inciting a riot.

Pash's place has been attracting considerable attention recently. It is a relative of Ran Butler, negro, political lieutenant for the Jewett "gold government" ring in the northwestern part of the city. Butler and Pash were active in trying to nominate the machine's candidate for mayor and as a result they are supposed to have a pull at the city hall.

Last week Pash informed Lieut. William Cox that the police had to lay off of the Bungalow and quit searching customers for "white mule." Pash said he was "going to see some one at the city hall." The "pull" evidently failed to frighten the police for Saturday night. Cox went back the next night and Bungalow customers made hurried exits and flights in terror.

Patrolmen Heller and Webster visited the notorious roadhouse after 1 o'clock Sunday morning. They found more than a dozen men and women, negroes and whites, enjoying the hospitality of the Bungalow. The two officers searched three negroes for whisky and then the trouble started.

Kinney is alleged to have tried to organize a rescue for Pash, who had been arrested when he tried to keep the officers from searching his customers. A fight broke out and a large sound of police were rushed to the scene on a riot call and they closed up the place. Pash has been running the Bungalow since early in April.

CRIME WAVE NOT BAD AS REPORTED

Expert Says Statistics Fail to Show General Increase.

MILWAUKEE, Wis., June 20.—"The crime wave" in the United States is far less serious than report has made it, Charles L. Crute, New York City, secretary of the National Probation Association, told the delegates in convention here.

"A great deal of public interest has been aroused by the so-called 'crime wave,'" he said. "Statistics fail to show any great increase in crime. In New York State there has been an actual decrease."

Crute said there was no evidence that the greater use of the parole system had increased crime. More intelligence in handling the parole problem should lead toward crime prevention, he said.

The convention is preliminary to the national conference of social work to be held here Wednesday. The national conference of Jewish social service and the conference of the social service workers of the Protestant Episcopal Churches are in progress.

BURGLARS LOOT WEST SIDE HOME

Obtain Small Sum of Money and Rob Drug Store.

Two residences were entered by a burglar early Sunday morning. J. E. Moore, 1124 West New York street, and John Conolly, 1122 West New York street, reported that money and jewelry were taken from their homes by the thief.

A burglar entered the Leo Bond drug store, 618 Indiana avenue Saturday night, and a supply of drugs valued at \$10 is missing.

Edward F. Wagner, 1138 North Oxford street, was robbed of jewelry and money amounting to \$43 Saturday night while walking across the West Washington street bridge over White River. Two men armed with revolvers committed the hold-up.

Leo Cisel, 316 East North street, went to sleep in a stable at 416 West Maryland street last night. When he awoke he found \$100. He told the police his troubles and admitted he had been taking part in a "white mule" party.

FLAT MURDER GOSSIP SEQUEL

Chicago Young Men Kill 1, Wound 1 in Raid.

CHICAGO, June 20.—Because a neighbor talked and linked their names with that of a young married woman, four young men made a sortie on an apartment in West Twenty-Fifth street today and as a result of the battle which followed Jesse Hodja was killed and another man badly wounded. Hodja was stabbed ten times about the head and body and his skull crushed. The wounded man escaped. Seven men and two women were arrested.

Police say the stabbing was done by Frank Falck, who lives with his family on the second floor of the apartment and objected to the visits by different men to the apartment of a married woman below. Falck was held.

Pale Children Need Iron.

Lack of iron in the blood saps the strength of mind and body. Give the kiddies GROVE'S IRON TONIC SYRUP and watch its strengthening effect. Very pleasant to take. 75c.—Advertisement.

SENATE TAKES UP FIGHT OVER 'BIG BUSINESS' Regulation Issue Raised in Seasonal Coal Rate Hearing.

WASHINGTON, June 20.—The Senate today plunged into what threatens to be a long, bitterly fought battle between the advocates of Government regulation of "big business" and the proponents of "less government in business."

The immediate issue was the Freelinghuyzen seasonal coal rate bill. But behind the opposition and support centered upon it was the renewed warfare between the forces seeking to have the Government direct the production, transportation and marketing of food, clothes and fuel and those who contend that they should be left to the law of supply and demand, and of private business.

LA FOLLETTE LEADS FIGHT ON COAL-QUINING ACT.

The Freelinghuyzen bill, given the right of way as the "unfinished business" of the Senate, was the vehicle for fresh onslaughts upon the Euc-Cummins transportation act by Senator La Follette, Republican, of Wisconsin, chairman of the transportation sub-committee of the senatorial agriculture bloc, and other Senators bent upon dragging the whole railroad problem before the Senate again.

Sensors identified with the "agricultural bloc" defended Secretary of Commerce Hoover from attacks directed by interests opposed to the Freelinghuyzen bill. Hoover conferred recently with the "agricultural bloc."

WORLD OF QUESTION.

Why should readjustment of the coal situation, by initiating lower freight rates during the spring and summer months and higher rates during the fall and winter months, as proposed by the Freelinghuyzen bill, be confined to coal? Senators identified with the agricultural bloc inquired. If seasonal coal rates are to be provided, why not open up the entire question and demand a complete readjustment of all freight rates and railroad conditions?

SEEK KEMP IN MURDER CASE

Police Regard Shooting of Negro Outgrowth of Saturday Night 'Mule' Party.

Detectives today are searching for Harry Kemp, negro, who is the missing link in the Norman "Doc" Robertson negro murder case. Turner, negro, 315 Hudson street, surrendered Saturday night and is held on a vagrancy charge.

Robertson was shot at 11 o'clock Saturday night, at 713 Huntington street. A fight broke out and Kemp was seen running away from the scene. Kemp was seen running away from the scene.

'Handsome Jack' Barry Aids Mrs. Orthwein's Case

CHICAGO, June 20.—"Handsome Jack" Barry came to the defense of the woman charged with the murder of Herbert P. Zeigler, his pal, today.

Barry was the first witness called for the defense in the trial of Mrs. Cora Orthwein, charged with Zeigler's murder.

He refuted testimony given last week by Mrs. Francis Koerber, Mrs. Orthwein's cook, who had stated that she heard Mrs. Orthwein make threats against Zeigler.

Barry, a party of 20, was seated by Charles Lewinsky, so-called "kissing blonde" in the case.

HOTEL MANAGER ALSO TESTIFIED.

John Burke, manager of a hotel, testified that Zeigler had his residence at his hotel for five months previous to his death. This witness called to disprove charges that Mrs. Orthwein's flat was maintained by Zeigler as his residence, and, therefore, he had a right to break in.

Mrs. Orthwein's attorney is attempting to impeach the testimony of four State's witnesses, including Edward Nelson, the victim's chauffeur.

Nelson testified to an alleged death threat by Mrs. Orthwein three months before Zeigler was shot to death because he was unfaithful.

"We will show that Nelson perjured himself," said George Guenther, of Mrs. Orthwein's counsel. "We will prove that Moffatt and Buras, detective sergeants, did not tell the whole truth."

STATES CASE CALLED FLIMSY.

Asserting the whole case built up by the State was "flimsy," Attorney Guenther will emphasize the fact that a number of witnesses subpoenaed by the State had not been called, because these witnesses would not support the theory built up by the State.

Three or four days are expected to be used in presenting the defense, with Mrs. Orthwein going on the stand either late Tuesday or Wednesday.

The defense will endeavor to prove that Mrs. Orthwein shot Zeigler after the latter had broken into her apartment and bedroom.

TWO FACTIONS TO GREET SIMS

Irish Plan Demonstration of Protest as Friends Prepare Welcome.

NEW YORK, June 20.—There will be two receptions for Admiral W. S. Sims when he arrives here Wednesday on the Olympic.

One will be laudatory, the other just the opposite.

The Irish sympathizers, who had planned what is vulgarly known as a "razzberry" for Sims because of his "jacks" speech in London, will be at the airport to greet him.

Casper Whitney, former editor of Outing, today announced plans for the laudatory welcome, which will be staged at the time of a quarantine, depending upon where Sims leaves the ship.

On June 20, Admiral Sims will be Washington, D. C., where American mining engineers, returning from Russia, where he negotiated for huge concessions with the Soviet government on a previous trip.

New Continent Is Found Near the South Pole

British Explorer Says Land Is Inhabited by Strange Birds and Animals.

VANCOUVER, British Columbia, June 20.—Details of a continent in the Antarctic region, described as rich in minerals and furs, are given in a cable from Sydney, New South Wales, quoting the Sydney Morning Herald, which announced findings of the British Antarctic expedition headed by Dr. Cope. Strange birds of immense size, seals, sea leopards and gorgeous emperor penguins inhabit the land lying beyond Terra del Fuego, the area of which has been computed at 200,000 square miles.

Dr. Cope left England early in 1920 with a party of geologists to report upon the hidden wealth of the Antarctic continent, landing Jan. 12 on the west coast of Graham Land, latitude 64.50 south, longitude 62.40 west.

Swept with winds, abounding with huge glaciers, the land touched is said to be an extraordinarily inhospitable part of the globe. No human inhabitants were met by the explorers, the last traces of human habitation being found upon the coast of Terra del Fuego.

Scott, Shackleton, Amundsen and other explorers have penetrated the Ross Sea sector of the Antarctic, the last traces of human habitation being found upon the coast of Terra del Fuego.

For many years while I was perfecting my formula, I was told that the best of all laxatives and cathartics on the market and became convinced that their main fault was not that they did not work, but that their action was too violent and drastic, and upset the system of the user, which was due to the fact that they were not thorough enough in their action, some simply acting on the upper end of the intestines, while others would act only on the lower or large intestines, and that they produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimentary system. If this was accomplished, the medicine would produce a natural, but thorough elimination of the waste without the usual sickening sensations, and make the user feel fresh and vigorous.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as Nature's Remedy, which I truly believe goes further than any other.

Richmond Changes Date of Primary

SPECIAL TO THE TIMES.

RICHMOND, Ind., June 20.—Richmond will hold its primary election Aug. 22, according to a decision reached by the city council. It was necessary to set a new date for the primary because the recent vote on the city manager plan of government automatically postponed the holding of the primary as originally planned.

City Clerk William Stevens has announced that all candidates for the primary must state their intentions if they have not already done so. In making this announcement he quoted the opinion of Attorney General Lusk.

It is hoped that the fact that all candidates must file again will bring out many candidates who did not file originally, owing to the uncertainty of the outcome of the special election on the city manager plan.

Counties Appeal to McCray for Highway

About fifty persons living along the Michigan road in Fulton, Pulaski, Wayne, Cass, Carroll, Clinton, Boone and Marion Counties called on Governor Warren T. McCray today to ask him to use his influence with the State highway commission to have the Michigan road from Indianapolis to Rochester designated as a State highway. The road is so designated north of Rochester. The delegation was expected to call on Lawrence McCray, director of the State highway commission, during the afternoon.

Remarkable Phosphate Discovered By French Scientist Increases Weight and Strength of Thin, Weak People in Two Weeks Time in Many Cases.

All that most weak, nervous, thin, mentally depressed people need is ten grains of pure organic phosphate (such as that found in the bones of man) for a few weeks. That is what nerve specialists in London, Paris and New York are prescribing with wonderful results. Dr. Frederick S. Kelle, author of medical text books and editor of "The Physician Who's Who," declares: "It would be a Godsend if more weak, thin, nervous men and women were aware of the value of Bifro Phosphate. Bifro Drug Stores and leading druggists everywhere have a break demand for Bifro Phosphate because of its power to help revitalize the nervous, increase bodily weight and bring back energy and mental alertness."

CAUTION—Although Bifro Phosphate is an excellent all-around tonic, it is not a stimulant, and its use is not advised unless increased weight is desired.

ENGLAND TAKES UP JAP TREATY

Form of Alliance With Japan Is Discussed With Province Leaders.

LONDON, June 20.—The form in which the Anglo-Japanese treaty of alliance is renewed—if it is renewed at all—will be determined within the Imperial conference which opened here today. For a month the premiers of England, Canada, Australia, New Zealand and South Africa will discuss questions of policy affecting the British empire. India will have representation in the session.

The initial session of Premier Lloyd George and the delegates from the British overseas dominions was held at 10 Downing street, but it is understood that later the conference will be shifted to the James Palace. The chief questions that will come before the conference are:

1. The Anglo-Japanese treaty of Alliance.

2. Disarmament and the part the overseas dominions shall play in naval police duty.

3. New air routes to link the component parts of the empire, bringing them closer together by means of aerial navigation.

4. Trade relations between the dominions and the mother country.

5. Means of strengthening the ties between the homeland and the dominions.

6. Imperial postage rates.
