

SOVIET RUSSIA WELCOMED IN WORLD TRADE

Purchases Amount to \$100,000,000, of Which U. S. Contributes \$10,000,000.

LONDON, July 6.—Soviet Russia's business invasion of Europe has started with a boom, according to the Russian trade delegation here today.

So far \$90,000,000 worth of goods have been purchased in Europe and \$10,000,000 worth from the United States. Fifteen mixed cargoes of merchandise were shipped to Petrograd from England last month.

COOPERATIVE SOCIETY.
The bolshievist purchases are made through Arco, the all-Russian cooperative society. European salesmen, are said to be welcoming this ready market and to be besieging the doorsteps of the door plates decorated with battle flags of the soviet legions.

America is represented by floods of samples with quotations on everything from sewing machines to pipes.

Leonid Krassin, soviet emissary to London, gives the following figures of bolshievist purchases in western Europe and America:

Germany, \$60,000,000.
England, \$20,000,000.
Sweden, \$10,000,000.
United States, \$10,000,000.
Total, \$100,000,000.

GOLD SET ASIDE FOR PAYMENT.
"How is soviet Russia going to pay for these goods?" the Arcos headquarters was asked.

"We have set aside a definite sum of the Russian gold reserve for foreign purchases," was the reply.

"Russian mills are going to furnish new gold right along."

KNIFE STICKING IN MAN'S HEART

Woman Sought in Mysterious Murder Near Milwaukee.

WAUKESHA, Wis., July 6.—The body of Robert Traubert Jr., 32, Milwaukee, was discovered today in a drifting row-boat on Lake Pewaukee, near here, a small peninsula imbedded in its heart.

Waukesha officials are baffled over the mysterious death. Coroner F. L. Lee and District Attorney Andrew Young are making an investigation.

Walter Traubert, brother, said he saw Robert at 8:30 o'clock Monday night in company with a woman. He did not know her, he told the authorities. H. M. Traubert, another brother, said he saw Robert Monday morning walking toward the lake. He was alone at the time.

The body was discovered by fishermen. Seven wounds had been inflicted, one behind the ear and five in the region of the heart. The Traubert brothers were camping at the lake with other companions.

Officials are searching for the woman.

RESOLUTION ON PEACE MAY GO TO SUPREME COURT

(Continued From Page One.)

ment of nations maintaining armies of occupation on the Rhine. Incidentally, the American share in this particular claim to date is \$200,000,000. This and many other claims must be permanently secured by the United States. The problem which has confronted Secretary Hughes is to decide upon the form of agreement best calculated to achieve that end and at the same time bearing in mind that such an instrument must be ratified by the Senate.

While officials are reluctant to prophesy when the army on the Rhine will return home it was indicated today that there could be no thought of withdrawal until Germany has agreed to a final definitive settlement and has given evidence of her intention to abide by the decision. Under terms of the treaty of Versailles, the armies of occupation are on the Rhine as a sanction of guarantee of the good faith of Germany and may be retained until the victor nations are satisfied that the need of sanctions no longer exists.

COMPLETE JURY FOR KABER TRIAL

(Continued From Page One.)

second details of her life on the witness stand, the accused woman will paint Kaber, who was one of Cleveland's most prominent business men, as a degenerate of the vilest type. She will claim that in mortal terror of her life, by his threats and distracted by the abuses practiced on her, she sought fortune-tellers to use their "psychic powers" and Mrs. Ermilia Calovito, the "hoboken queen" to use "black magic" not to kill Kaber, but to cure him of his "bad habits."

SLAIN MAN'S FATHER TO BE FIRST WITNESS.

Moses Kaber, the slain man's 73-year-old father, will be the first to face the jury in the trial of his son's slayer.

The little old man who has set in the courtroom and kept his eyes constantly on the woman charged with his son's murder since the trial began, and for two years had her trailed, a silent, waiting Nemesis, says he seeks only justice.

"For two years I have not slept nights and thousands of dollars to trail my son's slayer," he said. "I don't want vengeance. All I ask is justice. I will seek the jury's verdict and, if it is just, I will let my son's slayer go."

As soon as the jury is impaneled it will be taken to the "murder mansion" to review the record of the case. The slain by the still life of Vittoria Piselli, hired assassin.

With only one place in the jury box to fill when court opened, attorneys for both sides expressed confidence that a jury will be had before the afternoon. There is now no chance for a woman to sit on the jury, according to the defense.

25,000 Unemployed Parade in Streets

BRIDGEPORT, Conn., July 6.—An army of 25,000 unemployed mobilized here today for a demonstration in the streets of this bustling factory city.

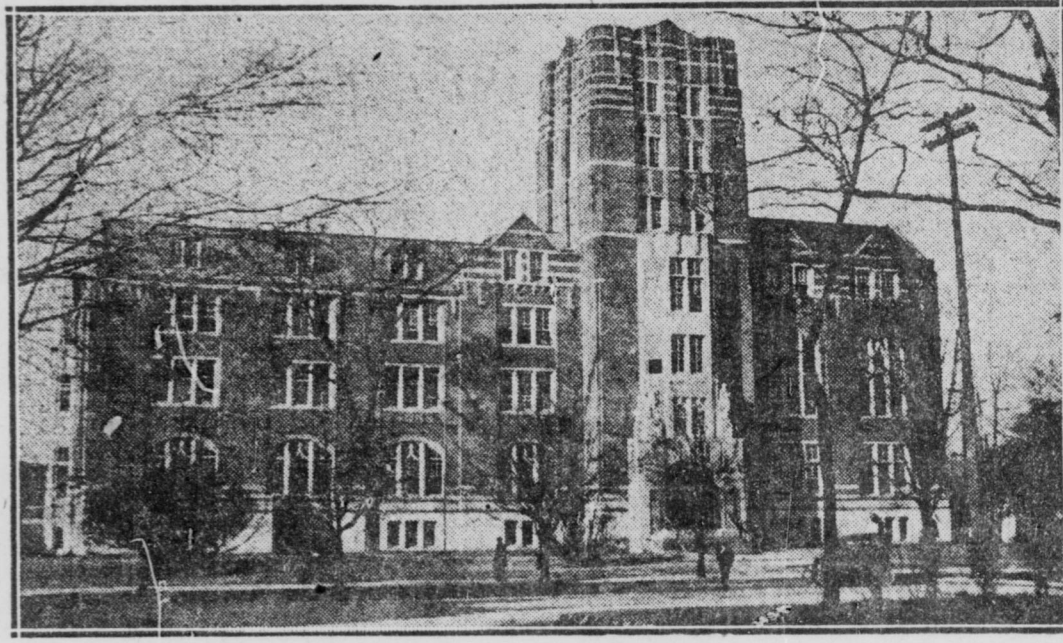

Veterans of the war joined hands with ragged "foreigners" to impress on the onlookers the need of thousands of penniless men out of work. Women carrying babies joined with their husbands in the demonstration, through which they hoped to obtain relief from poverty.

After the demonstration it was said a formal protest would be sent to state and city officials.

Police protection for the paraders was arranged.

Session Postponed
PARIS, July 6.—The meeting of the supreme council, which is to deal with the Upper Silesia and war in the Near East, has been postponed until the middle of August, according to the Echo de Paris today.

Michigan Union Building, Ann Arbor

This is a type of school memorial building, the architecture of which is designed to fit in with its surroundings. The building was constructed at a cost of \$850,000. It contains an auditorium seating 1,000.

Beauty is essential to any war memorial. In writing on this subject Albert S. Bard says:

"Almost equally obviously the building should be made precious in some way, not only to the present generation that has a personal and immediate interest in the individuals and events celebrated, but to those that are to come. Only so can it be a true memorial. One thing that can do this is beauty. Expense without beauty is as sounding brass and a tinkling cymbal; it is nothing and will profit a community nothing; indeed, it is worse than a mere futility; ridicule or contempt will be its fortune; men will laugh or groan over it, depending upon their mood and disposition, and worst of all it will fail of its primary purpose as a real memorial. Here at least beauty and use are interchangeable terms."

"Consider the crop of war memorials that sprang up over the country after the Civil War. This country was then singularly unprepared for an eruption of artistic impulses. It was the era of cast iron lions on the doorsteps with a facial expression that no lamb would hesitate to lie down with. The result was a tidal wave of cemetery monuments, somewhat entangled and furnished with artillery and ammunition. Granite soldiers at 'parade rest' sprang to pedestals all over the country, usually with

careless forearms across the muzzles of their rifle. It was the golden age of the monument man and the local stone cutters, the glacial period of American sculpture. It dropped upon the lawns and greens of the country chunks of stone and carved detritus, where they still persist, irrelevant and ugly, testifying eloquently to the misguided impulse that put them there."

"But our forefathers got what they went after and paid for. They got good art work; the stone was worked and without flaws or spalled corners; the monument stood up straight, and still stands. The essential elements of fine sculpture have been secured or did not seek in the right way, and its absence from the completed product is not surprising."

OIL TAX CAUSES MEXICAN CRISIS

Situation at Tampico Grows Grave With 20,000 Men Out of Work.

MEXICO CITY, July 6.—General Gomez, commander of the Mexican military forces at Tampico, who came here to confer with President Obregon, said today the Tampico situation is very grave.

Within a few days 20,000 laborers will be out of work as a result of the suspension of work by oil companies in the Tampico oil fields, General Gomez declared.

A report is circulated that the Standard Oil Company intends to "boycott" the Mexican government and to force smaller companies out.

The English companies, General Gomez said, were continuing work and were paying the government the new export tax which some of the American companies have refused to pay.

General Gomez declared that when he returned to Tampico he would compel the oil companies to pay disbursement workmen three months' pay as provided under the laws.

Mexican officials admit the situation is serious, but only economically, and not politically, they say.

A report was current on Tuesday that five American warships were on route for Tampico. It caused much excitement, but the government claimed the populace by saying it had no information that the warships were coming into Mexican waters.

There was another report that the American Government had sent a new note dealing with the oil situation, but this was officially denied by the foreign office.

DENIES BOYCOTT ON MEXICAN OIL

NEW YORK, July 6.—Standard Oil officials today emphatically denied that their company is boycotting the Mexican government by trying to force smaller companies out, as stated in Mexico City dispatches.

From well-informed sources it was learned that in common with the other American producers of petroleum operating in Mexico, the Standard Oil officials simply feel that in levying export tax of approximately 45 cents a barrel on crude oil, the Mexican government has raised an insurmountable economic barrier.

"The only thing happening in Mexico at the present time is the natural result of imposing larger taxes than the oil business can bear," said Guy Stevens, director of the American Petroleum Institute in Mexico. "Practically every company has found it impossible to market the oil at a price that will stand the taxes."

DEMAND ACTION ON BORAH PLAN

Disarmament Supporters Call for British-Jap Parley.

WASHINGTON, July 6.—Disarmament supporters today demanded that action on the Borah proposal authorizing President Harding to call a conference of the United States, Great Britain and Japan.

The Borah plan has been approved, but it is part of the naval appropriations bill as yet unpassed. Unless the bill is disposed of this week, disarmament backers let it be known they will bring before Congress the need of getting into the hands of President Harding the authority the Borah plan provides.

Foreign statesmen are becoming more and more open in their hints to the United States that an invitation to a disarmament conference would be instantly accepted.

Senator Borah has had several extended conferences with Shigeno Syuichiro of Kyoto University, Japan. Syuichiro is in the United States in the interest of the disarmament movement. He said today that the Japanese people, burdened with taxes, would eagerly welcome the discussion of naval reduction or anything else that would relieve them of their taxes.

Russ Orphans to Come to Indiana, Illinois

CHICAGO, July 6.—Two hundred Russian orphans arrived here today over the Burlington railroad for adoption among American families in Illinois and Indiana. The youngsters came by way of Seattle. The Red Cross supervised their removal from the land of soviet.

I. C. C. Prunes Rail Bond Issue

WASHINGTON, July 6.—The Interstate Commerce Commission today granted authority to the Minneapolis & St. Louis railroad to issue \$14,000 in 3 per cent gold bonds. The railroad had requested \$2,000,000 for the purpose of reimbursing the treasury for expenditures made for retirement of equipment obligations and for additions to roadway and structures.

Richmond District to Send Missionary Auto

Special to The Times.

RICHMOND, Ind., July 6.—Epworth League societies of the Richmond district have decided to send an automobile to Peking, China, for the use of their missionary, Dr. Lowry.

There are about 30 Epworth League societies in the Richmond district. It is estimated that each chapter will have to raise \$25 to make the gift. It is planned to send the machine to the missionary for a Christmas present.

For the home field the chapters have set aside Tuesday, Aug. 30, as Booth Festival Day, for the purpose of increasing interest in the Methodist Hospital at Indianapolis. Gifts and cash contributions to the hospital will be sought.

SMUTS' RETURN LEADS TO TALK OF ARMISTICE

(Continued From Page One.)

mistake. He is said to have informed Premier Lloyd George that once fighting stopped "it would take a lot to start it again."

ATTENDS MEETING OF TWO FACTIONS.

General Smuts plans to return to Dublin to attend the Friday session of the conference between the Sinn Fein and Unionists. He is attempting to get Sir James Craig to accompany him.

Sir James Craig reported to Premier Lloyd George the limits that Ulster is prepared to go for Irish peace.

Irish office officials believe a truce can be arranged by Friday.

General Smuts later attended a meeting of the sub-committee of the British imperial conference.

Sir Hamar Greenwood, chief secretary for Ireland was closeted with the premier at Downing street for some time.

TERMS SUGGESTED BY FACTIONS.

The South African statesman spent only one day in Dublin, but in that time he held consultations with a number of the Sinn Fein chieftains. He informed the Sinn Fein how far the British government would go toward granting self-government to Ireland.

General Smuts was said to be impressed by the conciliatory nature of the conversations and belief was current here that his mission will be productive of much good and will assist Premier Lloyd George materially in his efforts to bring about a peace parley in London.

It is possible Premier Massey of New Zealand may be called into the peace conference. The New Zealand premier is himself an Ulster man and he may confer with Sir James Craig in an effort to induce the Ulster official to meet Eamon de Valera in conference in the interests of Irish unity.

TACIT TRUCE ALREADY BROKEN

DUBLIN, July 6.—The tacit truce between the Irish Republicans and the British crown forces was broken near Newry early today when five men were shot to death. The victims were dragged from their beds by armed masked men and killed. Newry is near Belfast.

TWO POLICEMEN ARE INJURED

BELFAST, July 6.—Two policemen were seriously wounded in an outbreak of fighting here today. Sinn Fein attacked a freight train at Pomeroy, burning sixteen cars.

Logansport Still Is Seized in Raid

Special to The Times.

LOGANSPORT, Ind., July 6.—Police officers raided the home of James Decker, of this city yesterday afternoon, unearthing a ten-gallon still, one quart of "moonshine" and ten gallons of corn mash. Immediately upon his arrest for violating the liquor law, Decker's wife also filed charges of assault and battery against him. Decker was released under \$800 bond for appearance in court.

Diver, Under Water, Struck by Another

MINNEAPOLIS, Minn., July 6.—Struck by another diver, who followed from the springboard on a high platform at Nokomis Lake last night, Rudolph Philstrom, 29, was knocked unconscious as he was coming up from his deep dive, and was forced under water again. When a life saver succeeded in reaching him and getting him ashore he was dead.

Wheat Prices Drop

Special to The Times.

RICHMOND, Ind., July 6.—The first load of wheat brought this year into Richmond yesterday brought \$1.07 per bushel. Wheat came in rather slowly all day, mainly testing from 58 to 59½ pounds.

STORM SWEEPS HOOSIER TOWNS

Damage in Spencer County Estimated at \$1000,000, With Farm Crops Destroyed.

Special to The Times.

ROCKPORT, Ind., July 6.—A tornado cut a swath three miles wide and ten miles long in Spencer County paralleling the Ohio River late yesterday.

Wind, rain, hail and lightning damaged crops and property to the extent of \$100,000. Hundreds of acres of corn were laid flat, barns were burned and houses partly wrecked. A veritable cloudburst flooded the lowlands.

James A. Gentry found part of his peach orchard two miles from home this morning. Some of it still is missing. Gentry was in his barn putting up hay when the storm came up. The hail split the shingles and let the rain come in. His clothing was soaked and several tons of hay was spoiled.

Interurban traffic was halted and telephone service was crippled. Linemen came here from Evansville to clear away the debris and repair the damage.

James Patties, living on a farm nine miles from Rockport, probably was the luckiest loser. His barn house and granary were struck by lightning. The barn was partly wrecked. The roof of the garage was blown away. Forty tons of hay, twenty bushels of clover seed, farm implements and harness were destroyed. Patties' loss was estimated at \$10,000.

Several chickens taking refuge under the barn were roasted alive when they were imprisoned in the burning structure.

Special to The Times.

LOGANSPORT, Ind., July 6.—A severe rain and wind storm struck the town of Lake Clout, ten miles southwest of this city Tuesday afternoon creating damage which is expected to aggregate several thousand dollars. The roof of the Odd Fellows building at Lake Clout was torn away while many frail structures of the town are reported to have been unroofed.

Farm houses located in the vicinity of the place are also reported to have suffered damage but no fatalities have been reported.

Weak, Thin Folks Need Phosphate Says Dr. Kolle

Dr. Frederic S. Kolle, the New York author of medical text books, whose opinions are greatly valued, writes:

"When the nerve tissue begins to lose its vitality, women begin to lose her youth and vivaciousness. She becomes irritable, moody and despondent. It would be a good idea if more weak, thin, nervous men and women were aware of the efficiency of Bitro-Phosphate."

"Thousands of thin, run-down people whose nervous energy is nearly exhausted are turning to Bitro-Phosphate as dispensed by Hook's Drug Stores and other leading druggists, because it helps to re-vitalize the nerves, increase bodily weight and bring back energy and mental alertness."

CAUTION: Although Bitro-Phosphate is an excellent aid in relieving weak, nervous conditions, its use is not advised unless increased weight is desired.—Advertisement.

This Makes the Curl Stay in Your Hair

The silmerine method is unusually popular just now, according to the druggists. This is largely due to the warm weather and beautiful hair is now spending so much of their time out of doors. This simple method not only produces the loveliest wavy, curling curls and waves, but it keeps the hair in curl no matter how hot or how dry the day, nor how hard the wind blows.

All one need do is to wet a clean tooth brush with liquid silmerine, draw this through the hair before doing it up, and the hair will dry in just the sweetest waves and crinkles. This "natural" keep the hair beautifully soft, silky and lustrous. A few ounces of liquid silmerine will last for months.—Advertisement.

LETTERS OF GRATITUDE

Eloquent language and illustrations in advertising may appeal to many, but after all it is the homely, sincere letters from women, overflowing with heartfelt gratitude for health restored by Lydia E. Pinkham's Vegetable Compound, that convince other suffering women that there is a medicine that will help them also. Many such letters are being published in this paper from day to day, and it is to any woman's advantage who suffers from female ailments to try any form to give this old-fashioned root and herb remedy a trial.—Advertisement.

SODA FANS GIVEN NO HOPE FOR CUT IN DRINK PRICE

Druggists' Official Says Cost Figures From Other Cities Mean Nothing Here.

Soda fans and soft drink devotees of Indianapolis, going their limit on the crest of the torrid wave, need not look for a drop in the prices of these dainties for some time, according to word given out today by W. A. Oren, proprietor of a drug store at 1911 West Washington street and secretary of the Indianapolis Retail Druggists Association. Mr. Oren said there could be no decrease in the prices of ice cream sodas or soft drinks until the ice cream manufacturers and fresh fruit vendors, as well as soft drink manufacturers, decrease their prices.

Mr. Oren discounted the effect of dispatches from New York and Chicago, in which it was announced fair prices of sodas there had been fixed at 10 cents. The prices there, he said, are governed by local conditions, and may be the result of lower prices of cream from the manufacturers.

The cost of a soda in Chicago, to the dealer, is 4 cents, according to figures given by a high cost authority. This price is distributed as follows: Ice cream, No. 16 dipper, 2 cents; charged water, 1 cent; syrup, two ounces, 1 cent.

SAYS CHICAGO PRICE MEANS NOTHING HERE.

Mr. Oren says this price means nothing in Indianapolis, where they are paying high prices for cream and other ingredients of a soda. He says, also, the Chicago man has not figured the price of labor, and the price of service.

Issue was taken with a Chicago soft drink vendor, who said his sirup for a soda cost him 2.7, by the cost expert. The latter said the former's price was too high, as, using two ounces of extract,

costing \$2 a gallon, eight pounds of sugar, costing around 50 cents, and water costing nothing, a gallon of good sirup can be made for less than 70 cents.

Ice cream sodas in Indianapolis cost the merchant about 8 or 9 cents, according to Mr. Oren. This, with a 15-cent charge to the customer, leaves a profit margin of 7 cents at an 8-cent cost, or 6 cents at a 9-cent cost. The Chicago vendor makes a profit of 6 cents on a 10-cent soda.

Ice cream manufacturers claim the price of their product to the druggists is not excessive, and state their prices have dropped three times in the last year. They declare 15 cents is not excessive for a soda in Indianapolis, when the quality of service rendered in the city is considered.

SANITATION.

They call attention to the fact practically all stores serve their sodas and drinks in sanitary cups, which are thrown away after being used once. They remind one also of the sanitary condition of the fountains of the city, which are inspected closely, also.

They also say the price of soda and fruit sodas, which range in price from 11 to 17 and 18 cents, always has been lower than in any of the larger cities.

A fruit sundae, in Chicago, under the fair prices, would cost the consumer 15 cents, including war tax. This leaves the merchant a profit of 7 cents, as they figure it costs 8 cents to make the delicacy.

Prices in some of the smaller Indianapolis soda fountains have dropped, and one of the popular beverages may be purchased for 5 cents. As a rule, however, there has been no change in the prices of sodas, sundaes or soft drinks.

MAN OVERCOME BY HEAT.

LOGANSFORT, Ind., July 6.—The second serious case of heat prostration reported in this county during the past two weeks occurred Tuesday when John McGinnis, residing south of the city was overcome while at work, on his farm. His condition is still considered serious but he is expected to recover.

JUDGE'S IDEA OF RELIGION IS NEW TO MOONSHINERS

Kentucky Hill Billies Sentenced to Prison When They Fail to Pay Fines.

SANDY HOOK, Ky., July 6.—The home of "brewers" was divided today over the latest concoction—home made religion. Circuit Judge A. H. Frisco, before whom nearly two hundred hill folk, of Elliot county, were to answer charges of moonshining, was the center of the alcoholic debate. He began injecting religion into the community where distilling has thrived for ages, by sentencing ten home brewers to prison when they failed to pay fines of \$300 each.

Husky world war veterans, members of the Kentucky National Guard, paced the village muddy thoroughfare to prevent sentiment bubbling over. They carried service rifles in careless fashion in the crooks of their arms as they elbowed their way through the little packs of agitated men clustered in the public square. The grizzled hill billies scowled and gave way.

Friends of the bootlegging band contended half the community had been in the business of making mountain dew. The other side "hoped" the moonshiners had been scared out of the country.

Military Honors for Bloomington Soldier

Special to The Times.

BLOOMINGTON, Ind., July 6.—The body of Sergeant John Hoyer was arrived at his home here from overseas. He died at Nice, Feb. 17, 1919. Funeral services will be held at St. Charles Catholic Church Thursday morning, to be followed by a military burial Sunday afternoon at Rose Hill cemetery.

BIG FAMILY REUNION.

HARTFORD CITY, Ind., July 6.—The Roberts and Puckett families will meet at Pennville Aug. 14 in one of the largest annual family reunions held in this part of the State.

\$100 FOR THREE TIGER KEEPERS

Schultz, Caldwell and Williams Get Heavy Fines in City Court.

George Schultz, living near stop 43 on the Northwestern Interurban line, arrested by Lieut. Harley Jones and squadded on a charge of operating a blind tiger, was found guilty and was fined \$100 and costs and sentenced to forty days in the Indiana State Farm by Judge Walter Pritchard in city court today.

Lieutenant Jones said two gallons of corn whiskey, twenty gallons of corn mash and a complete still in operation were found at Schultz's home.

John Caldwell, negro, 411 North West street, arrested on a charge of operating a blind tiger by Lieutenant Jones and squadded, was fined \$100 and costs and sentenced to forty days on the penal farm. A similar charge against James Davis, negro, living with Caldwell, was continued indefinitely, the judge holding Davis was not implicated in the sale of liquor.

One gallon of "white mule" whiskey, seventy-five empty whiskey bottles which were wet with the liquor, and a sack of corn which fitted the bottles, were found in the raid on the Caldwell home, the officers said.

William Williams, negro, 1235 Fayette street, arrested by Sergeant Jones and squadded, when the officers found a quantity of home-made beer in his home, was fined \$100 and costs by Judge Pritchard.
