

CONDITION OF DOG KENNELS KEPT SECRET

Humane Society Charged With 'Covering Up' Affairs at Medical College.

MEMBERS THREATENED Told They Would Be Expelled If They Revealed Facts to The Daily Times.

W. H. Roberts, president of the Indianapolis Humane Society, declined today to deny a report being circulated among members of the society and others to the effect that the society's self-assumed inspection of the dog kennels at the Indiana College of Medicine had completely collapsed in the last month.

It has become known that at a recent meeting of the board of directors of the society, Dr. G. W. Butler, a member of the committee on inspection of the college, reported:

1. That he had been denied admittance to the laboratories of the college.
2. That when he insisted on an inspection in accordance with an agreement made by Dean C. P. Emerson with the society, he was admitted under protest.
3. That of eleven dogs found in the kennels two were in a deplorable condition, such as required the immediate attention of humane officers. One of these animals was found to have a broken leg.

This report of Dr. Butler, who is at the head of the local Federal bureau of animal industry, is the report which Mr. Roberts refused to make public following the board of directors meeting last Tuesday night.

PROTECT COLLEGE FROM CRITICISM. Today, when he was asked if it were true that Dr. Butler had made this report to the society, Mr. Roberts disclosed that the directors of the society had determined at a secret meeting last Tuesday to protect the medical college from any criticism of its use of dogs for experimental purposes by suppressing all information concerning these reports.

Mr. Roberts made the following statement: "The Indianapolis Humane Society has felt for some time that it did not have the support of the Times. The misrepresentations made by the Times, the character of its editorial on our work, the manner in which the society and its officers were held up to ridicule convinced us of the fact. Under the circumstances the board of directors at its last meeting at the Indiana College of Medicine Tuesday night, officially decided that in the future it would give out no information to the Times."

In addition, it has also been learned that at this meeting of the board of directors of the society, members of the society were threatened with expulsion and other "dire calamities" if they revealed any of the facts that the society was endeavoring to give publicity to. It was also learned that the society was endeavoring to suppress the records of their activity also failed.

The publicly announced intention of the Humane Society to inspect and supervise the laboratory work at the Indiana College of Medicine followed the disclosures in The Daily Times that stolen dogs were being received at the college and were not being humanely treated.

ONE HURT WHEN CAR HITS TRUCK

Harry Peggs, 22, 3938 West Tenth street, was seriously injured, an old truck belonging to the National Refining Company of Indianapolis was demolished, and an Indianapolis and Connersville Interurban car was badly wrecked today when the car crashed into the truck near Wildwood, seven miles southeast of the city limits.

The interurban, which had left the Traction Terminal station at 10 a. m., was bound for Greensburg when the accident occurred. The truck was cut in two and dragged more than 100 feet. The rails were torn up and the ties were split for several hundred feet and all traffic was suspended for several hours.

Motorman Brooks, trapped in the smashed vestibule of the interurban, was uninjured by the flying glass but was saturated with oil and gasoline thrown from the demolished tank.

WEATHER

Forecast for Indianapolis and vicinity (the twenty-four hours ending 7 p. m. today): Partly cloudy tonight and Saturday; not much change in temperature.

Body of First Man Killed in World War to Lie in State at Statehouse Tuesday, Plan

The body of Corporal James B. Bethel Gresham of Evansville, the first American soldier killed in the world war, will lie in state in the rotunda of the Statehouse Tuesday unless plans for its transportation to Indianapolis are changed in the meantime, Governor Warren T. McCray announced today.

Corporal Gresham's body, which now is in New York, will be forwarded Sunday night for Indianapolis. According to present plans, it will be taken directly to the Statehouse where it will be placed in the rotunda and where the coffin may be viewed by the public all day Tuesday. It will then be taken to Evansville for a military funeral and burial.

Details for the viewing of the body were to be worked out this afternoon at a meeting of Adj. Gen. Harry B. Smith, J. Frank Cantwell, chairman of the Marion County council of the American Legion, and J. S. Johnson, secretary of the Evansville Chamber of Commerce. It is at the suggestion of Mr. Johnson that the body will be taken to the Statehouse.

France Protests Hun War Trials by Recall of Mission

PARIS, July 8.—The government has ordered recall of the French legal mission to the German trials of war guilt in that city, it was announced today.

This followed acquittal of General Stenger, accused of ordering war prisoners executed.

It was added that France will refuse to recognize any more of the trials which are regarded as farcical.

1,500,000 MEN VOTE ON LOWER WAGE SCHEDULE

Unions Which Have Rejected Reduction Warned to Await Action of All Affiliations.

CHICAGO, July 8.—A monster referendum among 1,500,000 railroad workers was under way today on the question of accepting the 12 per cent wage reductions ordered July 1 by the railroad labor board. Eight of the sixteen "big" rail unions have already voted to reject the reductions. The remaining eight are being urged by union leaders to take no action pending a vote among the remaining affiliations.

The referendum was a "compromise" adopted at a meeting of all railway union leaders here for the past week. It represents the attitude adopted by the "big four" brotherhoods who counseled a vote of all rail union men before any definite action was taken. The shop craft unions, controlling eight separate organizations, already have rejected the award. Their contention, amounting to a strike threat, was overruled by the other organizations.

A resolution adopted unanimously by the eight shop craft unions, was sent broadcast to all railroad shop workers today warning against any "local" actions. While the shop workers are bitterly opposed to accepting the wage reductions, their leaders agreed with the brotherhood presidents that the rail workers must present a united front in their decision on acceptance of the award.

The situation today amounted to a vote among the brotherhoods and four other affiliated unions on confirmation of the shop craft rejection of the award. Should a majority of these eight unions vote a rejection, a nation-wide rail strike looms for Sept. 1. The vote, it was announced, must be completed by that date.

The rail workers have demanded a promise from the railroads that no further encroachments will be made on either wages or working conditions. Should the railroads give "no" to this effect, leaders predict the July 1 reduction will be accepted. If the railroads refuse, even the most optimistic of the shop craft unions admit that a strike is inevitable.

DRAFT OF PEACE PROCLAMATION Cabinet Discusses Document Prepared by Daugherty.

WASHINGTON, July 8.—A draft of the proposed peace proclamation has been prepared by Attorney General Daugherty and was submitted at the cabinet meeting today, it was learned.

The draft is only tentative, it was said, and it has not been finally decided whether a proclamation shall be issued. Daugherty's draft furnished the basis of the discussion at the cabinet meeting.

PORTLAND STILL SEIZED. PORTLAND, Ind., July 8.—Jim Layman, residing two miles southwest of here, was arrested this morning by Sheriff Jim Ridders on a charge of possessing a still and making train jobs.

Editor's Note: This is the first of a series of articles on the constitutional amendments which will be published in the Indianapolis Daily Times with a view to giving readers information and opinions such as will assist them in determining how to vote Sept. 6.

BUSINESS RUSH IS THOUGHT DUE BY NEXT SPRING

Manufacturers of Country Expect Slack Summer With Pick-up in Fall.

WASHINGTON, July 8.—Manufacturers in the United States in the face of protracted industrial depression and the mounting tide of unemployment, are optimistic, and while they recognize the probability of a dull summer in most lines, they are looking for a healthy business revival in the spring of 1922, according to reports from sixty-five industrial centers compiled and made public today by the department of labor.

The reports indicate that the usual summer business slump had offset some of the improvement which was evident in May, and that retail sales show that the public is still waiting for lower prices.

The fundamental causes of the present business depression, of which unemployment is one of the most alarming features, are the general depression of the employment service of the department of labor as follows:

Unsatistactory condition of transportation with freight rates in many cases considered almost prohibitive.

Lack of a normal foreign market.

Present low value of farm products.

Stagnation in iron and steel.

High costs of construction.

General dullness in the retail trade.

Early wheat harvest in the grain States of the Middle West has relieved unemployment somewhat, but manufacturing, it is reported, has decreased in the industrial States.

Row Started in Diplomatic Row by Dry Ruling

Foreign Governments Object to Search of Ships and Probable Seizure.

WASHINGTON, July 8.—Diplomatic row with foreign governments were in the offing today and the Volstead law, again the root of the trouble. State Department officials may be besieged with envoys protesting foreign powers, because the United States may seize and search their ships for contraband liquor.

Fully conscious of the dangers in international relations, the State Department today was ahead preparing regulations which may fall like a bombshell upon foreign envoys. Foreign ships, having liquor aboard and entering American territorial waters, run the risk of seizure by United States government agents.

Attorney General Daugherty said today that no course was left open to him but to interpret the Volstead law, as it reads, and this statute clearly forbids liquor-laden ships entering American ports, en route to other foreign destinations, even for coaling purposes.

The British government, it was understood today, will be the first of the principal powers to challenge the rights of the American Government to trespass upon the privileges set up in time-honored commercial treaties and other agreements of comity and good will governing reciprocal courtesies.

Practically every foreign diplomat in the corps at Washington has dispatched cablegrams warning his government of the likelihood of ship seizures and asking for instructions. These probably will be given quickly and probably will be followed by representations to the State Department.

HUNGARIAN IMPEACHED. BIDAPET, July 8.—Count Karolyi, former member of the Hungarian government, was today impeached for high treason by national assembly on evidence furnished by the revelations of Prince Windisch-Gratz.

Motorcop Hurt When Machines Collide

When two police motorcycles collided last night on North West street, Motorcop Timothy McMahon was fatally injured and Motorcop Thomas McKinney escaped injury. McKinney's motorcycle skidded and struck McMahon's motorcycle. McMahon was taken to the city hospital where his injuries were dressed and later he went to his home, 1314 East Raymond street.

Rockefeller at Golf on 82d Anniversary

NEW YORK, July 8.—John D. Rockefeller celebrated his 82nd birthday anniversary today at his estate near Tarrytown. He played golf during the forenoon and was expected to enjoy a private band concert in the evening.

His son, John D. Rockefeller, and the latter's family, were to have dinner with him.

BOND ISSUES OF \$4,000 O. K. D.

Bond issues totaling \$4,000 were approved by the State board of tax commissioners today. The issues were: Lake County, \$14,000; school; school city of Michigan City, two bond issues of \$35,000 each for school improvements.

Peggy Gets \$1,350 A Month With \$40,000 for Expenses

Millionaire Husband, Suing for Divorce From Show Girl, Plans Appeal.

CHICAGO, July 8.—Peggy Hopkins Joyce today was awarded \$1,350 a month temporary alimony, \$2500 for solicitors' fees and \$12,500 for courtroom expense in a decision handed down by Judge Joseph Sabath.

The former chorus girl, defendant in the divorce suit brought by J. Stanley Joyce, millionaire lumberman, had asked \$10,000 a month alimony and \$100,000 for solicitors' fees and expenses.

In support of her demands for huge sums from Joyce, Peggy had asserted that her affluent husband had taken her away from a stage position paying her \$700 per week and had taught her to live in a manner that required thousands monthly to maintain.

Defenses for Peggy, it was reported, have been making strenuous efforts to locate Daisy May Lisk, who is relied upon to give evidence to support Peggy's charges that Joyce was pillaging her in America at the time he charged his wife with similar offenses abroad. Miss Lisk was at Long Beach, Cal., two weeks ago, it is declared, but had vanished.

The detectives assert Joyce met Miss Lisk soon after he returned from his honeymoon trip to Paris and became infatuated with her.

Judge Sabath, in his decision, declared Peggy was entitled to alimony prior to the divorce trial as to which it would be to judge the case in advance of the trial. The \$10,000 allotted her for counsel and suit fees, was the largest sum of its kind ever awarded in Cook County.

Attorneys for Joyce, however, did not accept the decision willingly. Alfred S. Austrian, chief of Joyce's counsel, immediately filed an appeal from the order, declaring he would carry the appeal to the State's highest courts. A bond fixed at \$15,000 to cover the appeal, was issued to Joyce pending outcome of the action.

UNION LEADERS IN W. VA. MINE WAR ARRESTED

John W. Brown, Indianapolis, Among Twelve Men Held Without Bail.

WILLIAMSON, W. Va., July 8.—Twelve men, mostly international officers of the United Mine Workers, were arrested today when the mine workers' headquarters were raided by State police, under orders of Maj. Thomas B. Davis, representative of Governor Morgan. The men are being held in the city jail without bond, and charged with violation of the martial law regulations.

Among those under arrest are David Robb, international treasurer, agent, and his secretary, Holy Copp; John W. Brown, international organizer of Indianapolis; Jasper Metzger, international secretary of the union; H. J. Edwards, international board member of Belleville, Ill.; Robert Gilmore, international organizer of Pittsburg, Kan.; and Herbert Halls, international organizer of Danville, Ill.

Among those under arrest are David Robb, international treasurer, agent, and his secretary, Holy Copp; John W. Brown, international organizer of Indianapolis; Jasper Metzger, international secretary of the union; H. J. Edwards, international board member of Belleville, Ill.; Robert Gilmore, international organizer of Pittsburg, Kan.; and Herbert Halls, international organizer of Danville, Ill.

SPRING WHEAT, OATS DAMAGED

Weather Bureau Reports Hot Wave Shortens Indiana Crops.

WASHINGTON, July 8.—Serious damage is being done to the spring wheat and oat crop by the hot, dry weather, the weather bureau reported today. No relief is in sight, it was indicated by the forecast for the next thirty-six hours.

So far the damage has been confined to the upper parts of the Northern States, such as Ohio, Indiana, Illinois, North and South Dakota, and Minnesota. Oats suffered largely in the first three States and wheat was damaged in the last three States, the bureau stated.

Slight damage has been done to corn in the Ohio Valley and Atlantic coast States.

Little change in temperature with scattered showers was forecast for the territory east of the Mississippi for the next thirty-six hours.

WHEAT PRODUCTION PUT AT 809,000,000 BUSHELS

WASHINGTON, July 8.—The total wheat production for 1921 was forecast at 809,000,000 bushels by the Department of Agriculture today. The forecast a month ago was for 830,000,000 bushels. For 1920 the total production was 787,000,000 bushels.

The winter wheat production was estimated at 671,000,000 bushels, as compared with an estimate of 578,000,000 bushels a month ago.

NURSES BOARD NAMED BY M CRAY

Five Members to Supervise Exams and Registration.

The appointment of a State board of examination and registration of nurses in compliance with the 1921 act, which calls for the reorganization of the present board, was announced today by Governor Warren T. McCray.

The members appointed for one year are: Miss Catherine McManus, Indianapolis, graduate of St. Vincent's Hospital, now doing private nursing; Miss Nellie Brown, Indianapolis; Robert W. Long Hospital, Evansville; and Miss Elizabeth Springer, superintendent of the Huntington Hospital, Huntington. Miss Ida McClellan, Martinsville, Morgan county health nurse, was appointed for three years.

Same Story Comes From Washington

WASHINGTON, July 8.—There is no hope for an early break in the heat wave, E. H. Bowie, forecaster of the United States weather bureau, stated today.

The weather bureau has no chance for any radical change in temperature within the next forty-eight hours and probably not for several days," Bowie said.

Helping his case, the forecaster cheerfully observed, however, that "this is a wonderful corn growing weather." Fresno, Cal., hit the high record temperature yesterday with the mercury at 110.

Want Headquarters of Railway Men Here

Efforts to bring the national headquarters of the United Association of Railway Employees to Indianapolis will be made by representatives of Indiana at the annual convention of the association, which will be held in Chicago beginning July 11.

The association formerly was known as the "outlaw switchmen" and its legality was a question before the United States Labor Board. However, in April of this year a decision favorable to the organization was given.

It is believed that 500 to 700 delegates from all parts of the United States, Canada and Mexico will be in attendance. P. S. Galloway and E. J. Morris, both of Indianapolis, will represent the local organization at the convention.

Excursion Boat Hits Schooner; No Deaths of Mail Robbery

BOSTON, July 8.—One man was badly injured and five others were thrown into the waters of the lower harbor today when the Nantasket excursion boat, Old Colony, collided with the fishing schooner, Active, of Provincetown, sinking the schooner.

BANDITS GET \$9,000 IN IOWA. COULTER, Iowa, July 8.—Five bandits today blew the safe of the Coulter State Bank here, secured with \$9,000 in cash and Liberty bonds.

HARDING SEES SOLONS NEED GUIDING HAND

Four Months of 'Watchful Waiting' Leads to All but Hopeless Jam.

CALLS IN WILSON PLAN Throws Campaign Pledge of 'Hands Off Congress' Into Discard.

BULLETIN. WASHINGTON, July 8.—The Senate will not act on the President's proposal for an adjournment and an indefinite postponement of the soldiers' bonus bill before next week, leaders stated this afternoon.

The President does not plan to send his promised message to Congress setting forth the Administration's attitude toward the "bonus" until Monday or Tuesday at the earliest, leaders were informed.

Nation Spending 13 Billions to Buy Foibles, Tax Shows

WASHINGTON, July 8.—Approximately \$13,000,000,000 a year is being spent on liquor, recreation, movies and other amusements and personal luxury, Federal tax receipts show.

More than \$1,000,000,000 a year in taxes is being received by the Government as a result of purchases of foibles. This is nearly one quarter of the total ordinary receipts of the Government.

Sporting goods, autos and motor cycles, amusement parks, fancy bathing suits, summer hats for women and Panama hats for men are netting the Government thousands daily. Cigarettes, cigars and candy bring in more thousands. Pennies that are paid with the purchase of soft drinks and soda water are helping to pay the annual interest charge of \$200,000,000 on the national debt.

Battleships are being built with the tax on motion pictures, sporting goods, face powder, cosmetics and other beautifiers.

Chewers of gum in the past twelve months have contributed more than \$1,000,000 in taxes to the Federal treasury. Tennis rackets and sporting goods paid nearly \$4,000,000. Summer furs alone cost approximately \$5,000,000 and netted the Government the tiny little sum of \$500,000 in tax money.

Toilet soaps and powders brought more than \$2,000,000 in taxes into the Government's coffers in the fiscal year just ended, including the purchases of these articles of about \$20,000,000.

Smokers in the past year paid the Government in excess of \$22,000,000 in taxes over and above the actual cost of tobacco and cigars to the dealers.

More than \$23,000,000 poured into the Government pocketbook from taxes on engagement diamonds and other jewelry and expected to arrive at the Treasury office of something like ten times the tax collected.

LOST VESSEL REPORTED SAFE

Wireless Says Liner Callao Proceeding Slowly to New Work.

NEW YORK, July 8.—Wireless reports were received here this afternoon from the liner Callao, which had not been heard from since June 20. A message to officials of the line stated the vessel had not been in distress and that she was proceeding slowly to New York and expected to arrive at Quarantine Monday night.

There was no reason given for the delay.

The Callao is bound from Rio de Janeiro for New York and carries sixty passengers.

John Christian, 19, son of George Christian, secretary to President Harding, was aboard the liner.

The mystery that for a week has shrouded the whereabouts of the ship which in addition to passengers carried \$1,000,000 in gold still remains to be solved, but the delay has not been attributed to it solely to wireless trouble.

A recognition of the position of the "agricultural bloc" in the Senate, which Harding will point out in his real business for which the session was called, by taking a series of three-day recesses. Harding takes the position that by thus limiting the session's work to the House legislation, the Senate will be able to make good his promise at a more favorable time.

DESIRE TARIFF AND TAX LEGISLATION. A suggestion that the Senate "expedite" the tariff and tax legislation which Harding will point out in his real business for which the session was called, by taking a series of three-day recesses. Harding takes the position that by thus limiting the session's work to the House legislation, the Senate will be able to make good his promise at a more favorable time.

HOUSE DRAWS LINES FOR TARIFF FIGHT

WASHINGTON, July 8.—Democrats leaders in the House came squarely into the open today in their fight on tariff revision and they plan to make all possible political capital for their party.

The decision of the House Democratic conference last night to vote solidly against the Fordney tariff bill, gave the leaders the united backing they sought.

While they intend making no move that will delay unduly action on the bill, they are determined to be heard and created to point out and accentuate the high duties carried in the bill and advantages offered to "special interests" and "big business."

Representative Fordney, sponsor for the bill and other Republican leaders, say they are not worried over the Democratic plan of attack.

The Republicans, however, are alive to the possible effect of the political fight to be made by the House Democrats within the limited time allowed them for assaults on the tariff bill. They are preparing counter attacks.

PATIENTS HELP PUT OUT BLAZE

No Lives Lost in Western Hospital Fire.

UKIAH, Cal., July 8.—More than 900 patients at the Mendocino hospital, at Ukiah, south of here, today were routed from their beds when a fire broke out in a ward building, housing 240 patients. The patients in the burning building were quickly removed from the structure and as a precautionary measure patients in nearby buildings were removed.

Patients joined the hospital fire department in fighting the blaze and it was confined to the roof of one ward building. The damage will amount to several thousands of dollars.

Hospital authorities praised the conduct of both attaches and patients during the fire.

Children's Home Is Burned; Six Hurt

DES MOINES, Iowa, July 8.—Six children were injured in a fire which destroyed the Iowa Children's Home with a loss of \$50,000 here today.

The injured babies, trapped by smoke and flames, were carried out unconscious by firemen. Older children and attendants were able to make their way to safety. Federal agents declared Borgman had been identified by one of the postal clerks on the looted mail car. Borgman, employed as janitor in the Federal building, had been sought for four months.

President Stirs Up Hornet's Nest by Visit to Capitol

WASHINGTON, July 8.—President Harding stirred up a hornet's nest by his official and personal infatuation with his former colleagues of the Senate.

Senators Kenyon (Iowa), Norris (Nebr.) and Capper (Kan.), all Republicans, declare they will fight to a standstill the President's own proposal for an adjournment. They are among the leaders of the so-called "agricultural bloc." A number of Democratic Senators, identified with the "bloc," also are lined up against an adjournment.

Even some of the Republican Senators closely associated with the President and usually eager to comply with his wishes, are opposing the President's action in visiting the Capitol in an effort to whip into line the Republican majority of the Senate. They admit he is "stuffed" to secure the "unanimous consent" of Republican Senators for an adjournment, however successful he was in persuading them to be committed to the Senate Finance Committee, when it came.
