

COMING MEETING OF CARPENTERS OF INTEREST

Important Jurisdictional Questions Will Be Decided at Conference July 26.

The meeting of the general executive board of the United Brotherhood of Carpenters and Joiners of America, in this city beginning July 26, promises to be of unusual interest in view of the fact that there is expected to be held, during the meeting of the executive board, a joint conference with representatives of the National Board of Jurisdictional Awards and the Building Trades Department of the America Federation of Labor.

BROTHERHOOD OUT FOR DISOBEDIENCE.

At the recent Denver convention of the Building Trades Department of the American Federation of Labor, the United Brotherhood of Carpenters and Joiners was suspended from the department on the grounds that the brotherhood had failed to abide by a decision of the National Board of Jurisdictional Awards in a jurisdictional dispute between the United Brotherhood and the sheet metal workers' organization relative to the installation and erection of hollow metal trim.

At a meeting at Atlantic City of the jurisdictional awards board, it was decided to authorize the chair to appoint a committee of two members to act with the chair as a delegation from the board to participate in the meeting delegated from the building trades department of the A. F. of L. in a joint conference with the executive council of the carpenters' brotherhood, while the general executive board of the carpenters is in session in this city, and it is announced that these representatives from the awards board and the building trades department will come to this city July 30.

MEMBERS OF AWARDS BOARD.

The committee from the jurisdictional awards board will consist of Chairman E. J. Russell, St. Louis; F. J. C. Dresser, Cleveland, and C. C. Pierson, Indianapolis. They, as members of the awards board, represent respectively the Associated Builders and Contractors, the Associated General Contractors of America, and the National Association of Building Trades Employers.

The United Brotherhood of Carpenters and Joiners is still a member of the American Federation of Labor, as it is still of the label department of the A. F. of L.

EXPECT BOND APPROVAL, BUT UNDER \$847,000

(Continued from Page One.)

Indianapolis were such as to justify it, but with so many children in temporary buildings and on half-day schedules we dislike to see these places erected. We think all school children of Indianapolis should be treated alike."

HOUGH WOULD BAN FRILLS.

"The trouble is, something has to wait under present conditions. We want to get all the school children of Indianapolis in school all day before making any changes. We want these fancy improvements to wait for the children instead of the children waiting on these fancy improvements. To keep children in these destestable old buildings such as I saw at No. 16, is nothing less than a crime. Memories of school days should be happiest in a person's life, and a child who is kept in these places cannot have happy memories."

Many references were made by the tax commissioners to school No. 16, a negro school at Columbia avenue and Sixteenth street, where the highest grade of maple flooring is being used and where the window sills are of marble. This building will cost \$23,000 when completed.

Another building to come in for consideration is the gymnasium, auditorium and lunch room building at Emerich Manual Training High School. "This is a wonderful building," Commissioner Brown said, "But to build it under present conditions seems to me to be a terrible mistake when so many children are in half day school."

"Any architect who would prepare plans for this school, such as No. 16, with its marble sills and high grade maple floors is doing something almost like a crime against the city when conditions are as they are at present," said Philip Zoercher, member of the tax board.

THINKS ALL CAN BE HOUSED.

Ralph W. Douglas, business director of the school board, attempted to argue that the school city will be able to house all the school children even by adhering to the present expensive building plans, but this view met with little support on the part of the tax board.

"You will have to show me," Commissioner Brown said.

The tax board also showed considerable interest in the matter of why architects are paid 6 per cent for school work in Indianapolis, their home city, when some of the same architects accept school work outside Indianapolis for 5 per cent. Mr. Gadd said that there was an association of architects here and they set their fees at 6 per cent.

As at all other hearings, the inquiry went far astray at times into matters not related directly to the point at issue and there was considerable wrangling on the part of different factions of the school board between themselves, but eventually the conclusion was reached that the tax board would put its recommendations in writing and would submit them to the board of school commissioners.

Mr. Brown said that the tax board would take some little time to do this as it wanted to give the matter careful consideration. This will mean that it will be some time before bids for the four schools can be advertised. However, there is little difference now as says Augustus is always in a hurry for selling bonds and if the bond issue cannot be sold this month he thinks it advisable to hold it until September.

PUSHES ACCELERATOR, SMASHES STORE FRONT

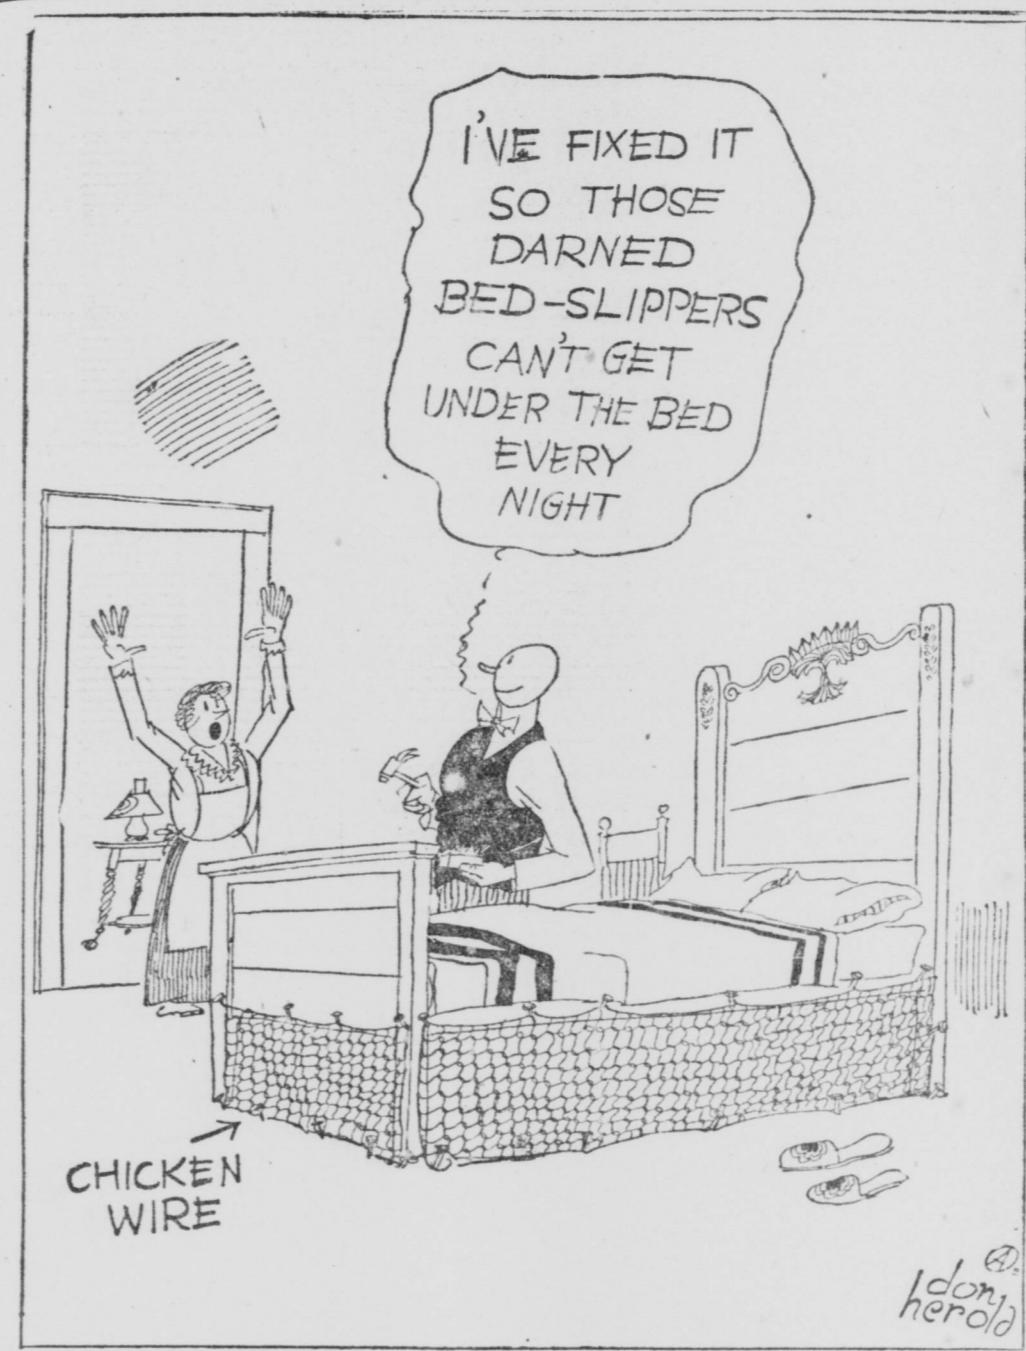

COLUMBUS, Ind., July 23.—A touring car driven by Edward Boston, son of E. Boston, local merchant, was driven into the front of the Metropolitan store here this morning. A large plate glass window was smashed and a penny scale, which was standing in front of the store, was hurled into the building, breaking a large mirror.

Several pedestrians narrowly escaped being caught between the building and the automobile. The driver was unharmed. Boston stopped his car in front of the store, but he passed on the accelerator instead of the brake and went over the sidewalk into the building.

PETERSBURG, Ind., July 23.—Mrs. Nell Critchlow was struck over the head by a burglar who escaped with \$76. The husband and other members of the family were away. Hearing footsteps in the house, Mrs. Critchlow obtained a revolver but when the burglar confronted her she was too frightened to pull the trigger.

Special Congress Objective Forming After 5 Months

WASHINGTON, D. C., July 23.—Con-

gress today, nearly five months after the opening of the special session, started upon the business for which President Harding summoned it, tariff and tax-

ation.

The House Ways and Means Com-

mittee is at work on tax revision and the Senate Finance Committee is about

to begin tariff hearings.

The tariff bill, which was introduced before the two pieces of legislation is a long ways off, but within a few days congressional leaders expect to be

given the custody of their two children, who were not receiving any support from their fathers.

When the judge inquired of Collins

why he had not been contributing to

the support of his two daughters

by his first marriage, who now are in

the custody of his sister in Indianapolis, he replied that his sister told him a year ago that he was not giving

her money, as the girls were working

and could support themselves.

Collins was lectured and ordered to continue

making the payments fixed by the court.

He later was released on bond of \$200 in

connection with the affidavit made by his

present wife.

LATE ENEMIES MAY DOMINATE SHANK, IS FEAR

(Continued from Page One.)

because they have been forced to get in

out of the Shank's election.

The organization fight ends the start

of a major of Indianapolis. As has

been pointed out frequently the municipal

election will have a very direct bearing

upon the county. State and senatorial

primary and election next year. United

States Senator Harry S. New probably

was the person most responsible for

the fall of the chair of Shank himself,

though he was not a member of the

House leaders were able to choke off

the election of Shank.
