

ASK HARDING TO ABROUPE RATE IN MINGO 'WAR'

President of United Mine Workers Asks for Executive Action in W. Virginia.

WOULD ABOLISH GUARDS

WASHINGTON, Aug. 27.—President Harding is giving careful consideration to the request of John L. Lewis, president of the United Mine Workers of America, for a conference of mine operators and workers to end the industrial situation and threatened war in Mingo and Logan Counties, West Virginia. It was stated at the White House today.

The President discussed the situation with Senator Sutherland, who suggested that it is understood the feasibility of calling a conference was considered.

Suggesting a conference between miners and operators, John L. Lewis, international president of the United Mine Workers of America, has sent a telegram to President Warren G. Harding asking him to take the first step in arbitration of the Mingo County, W. Va., mine difficulties.

Mr. Lewis, in his message, states Federal troops are not needed in Mingo County but that the protection of the rights of citizens is needed. He suggests that the conference, which he proposes, take up the question of abolishing the private detective guard employed by mine operators and of settling the differences between the miners and the operators on any honorable basis.

The message to the President follows: "The disturbed situation in the coal fields of West Virginia warrants me in addressing you this message. The presence of many hundreds of armed agents of the notorious Baldwin-Felts detective agency, employed by the coal operators, together with the acts of brutal violence which they have committed, has developed a sense of outrage in the minds of the mine workers of the State which has resulted in their assembling in large bodies to put an end to such an intolerable situation."

LOW TYPE OF MEN AS DETECTIVES

"The Baldwin-Felts Detective Agency maintains its chief offices in Roanoke, Va., and does an interstate business, presumably making it amenable to the regulation of Federal statutes. This concern employs as its agents men of the low type and character and equips them with rifles and side arms to act as guards in the coal fields. The coal operators of Logan, Mingo, McDowell and Mercer counties in West Virginia employ these men by the hundreds, and evidence conclusively shows that these armed men practically control the county government in each of the aforesaid counties. Brutal outrages are committed by these thugs from time to time upon the persons of the mine workers who are employed in that section. No redress is possible to such citizens, because local authority is entirely set aside by these individuals."

"The influence of this notorious agency has in the past extended even into the councils of the State government and appeals for protection which, from time to time, have been made by the Federal mine workers to the chief executives of West Virginia have been denied. The cost of maintaining this private army in contravention of the constitutional guarantee of our citizenship and the statutes governing such matters is charged to the production cost of coal and the public compelled to bear the burden. In other words, the coal consuming public is compelled to pay for the maintenance of these Hessian of industry."

"In Mingo County since the inauguration of the present lockout of the mine workers more than forty men have been killed, which killings are direct results to the murderous acts of these depraved men who kill as a part of their daily work. I call the attention of your Excellency to the fact that the chief villain of the Mingo County coal operators before the senatorial committee recently investigating the strike, was a Baldwin-Felts thug named Lively, who upon his return from Washington, deliberately murdered two unarmed mine workers on the steps of the courthouse at Welch, McDowell County, West Virginia."

FEDERAL TROOPS NOT NEEDED.

"This bloodthirsty act was the culmination of a long series of such outrages which resulted in the present outbreak of indignation on the part of the West Virginia miners and their assembling in large bodies to resist such assaults. In the minds of the mine workers of West Virginia there can be no peace so long as the Baldwin-Felts thug system is in such complete control of the machinery of the law and such terrible acts go unrebuked."

"Federal troops are not needed in West Virginia so much as the recognition of the rights of citizens as guaranteed by our constitution and law and the surrender by the Baldwin-Felts army of privately employed gunmen to the constitutional authorities of the government. The United Mine Workers of America deplores the situation in West Virginia which has disturbed the domestic tranquility of our Nation and affirms its allegiance to the principle of obedience to the law of the land."

"I offer as a constructive suggestion to meet the present emergency in West Virginia that your excellency direct representatives of the operators in these disturbed sections of West Virginia and representatives of the mine workers to appear in conference to give consideration to the following propositions which are forwarded:

1. That the Baldwin-Felts guard system in West Virginia be abolished.
2. That an adjustment of the controversy raging between the Mingo County coal operators and the mine workers of that section be effected upon any honorable basis which can be found.

"I make these suggestions to your excellency in all good faith and sincerity and with a full appreciation of the public interest which is involved. I pledge the cooperation of the United Mine Workers of America in an honorable attempt to adjust the Mingo County situation and if directed by you to do so will gladly arrange for adequate representation on the part of the mine workers in any conference which you may initiate."

Mr. Lewis is cooperating in a similar conference called by Governor Warren T. McCray for Tuesday for the purpose of settling Indiana mine difficulties.

KILL 1, WOUND 2 IN 'HUNGER' RIOT

Mounted Police Quell Demonstration in Munich.

MUNICH, Aug. 27.—One man was killed and two others badly wounded when demonstrators, representing "the hunger" strikers, clashed with mounted police here early today.

Thousands of workers were in the line of march, but aside from one outbreak the procession moved quietly.

It was reported that radical elements here will hold a tremendous demonstration tonight because of the shooting of Mathias Erbenberger, former communist leader. Police are being held in readiness in case of possible attacks upon reactionaries.

MRS. MEGEL DIES; 90 IN TWO WEEKS

Hold Funeral for Aged Resident Tuesday.

MRS. REGINA MEGEL.

Mrs. Regina Megel, who in two weeks would have celebrated her nineteenth birthday, died at the home of her daughter, Mrs. Matthias P. Johannes, 322 East Minnesota street today.

She was a member of the Third Order of the Christian Mothers Society and took an active interest in the organization. For almost fifty years before her death she was a resident of Indianapolis.

Funeral services will be held at the home Tuesday morning at 8:30 o'clock and at Sacred Heart Church at 9 o'clock. Mrs. Megel is survived by ten children, four daughters and six sons, Mrs. Elizabeth Johannes, Mrs. Mary Fox, Mrs. Rose Benman, all of Indianapolis and Mrs. Margaret Alender of Norwood, Ohio; Mike Megel, Adam Kirsch, Peter Kirsch and Jacob Megel, all of Indianapolis; Joseph Megel of Hayden, Ind., and Balser Megel of St. Louis, Mo.

COURT RECORDS SHOW SWINDLER CONNECTED HERE

John Worthington, 'Frenzied Financier,' Dealt With Former Bank.

The records of Superior Court, Room 5, reveal the fact that John Worthington, who now is held in Chicago following an investigation of recent mail robberies and bank swindles amounting to millions of dollars, is mentioned in connection with a stock transaction of the Capital State Bank of Indianapolis, which was taken to the hands of its receivers in 1915.

In 1915 Edgar A. Strauss, R. D. Garrett, receiver for the First National Bank of Peoria, Ill., and Wolfe Adolphus, a stockholder of the bank, were sued by J. T. Moll of Superior Court, Room 4, asking that they be considered as stockholders and be permitted to share in the division of the assets of the Capital State Bank like any other stockholder.

The records show that an organization of the proposed Capital State Bank was getting sufficient capital stock so a charter could be issued.

On the strength of this deposit slip, together with the subscription notes and certificates of stock by the stockholders, the bank received the sum of \$25,000. During the course of time, the organizer of the bank redeemed all of these notes and certificates of stock held by Worthington except those valued at \$25,000. Worthington's evidence showed that he did not return the three certificates of stock on demand and the bank officials hereafter held the certificates of stock.

The three intervening petitioners claimed they purchased directly or indirectly from Worthington the certificates of stock which had been cancelled by the bank officials. Two of the petitioners claimed they received their certificates from Worthington, who had obtained the certificates from Worthington. It was claimed, Wolfe Adolphus claimed he obtained his certificates from Worthington.

The court held the three intervening petitioners had purchased the certificates of stock in good faith and were entitled to share like any other stockholder.

The evidence showed the three petitioners did not know that Worthington had been holding these certificates only as surety on the loan.

ATTEMPTED TO STOP MOTOR CAR

Police Answer Two Calls to Highways.

Three white men and one negro attempted to stop an automobile in which Otto Gasper, 1542 West Vermont street, and his family were riding last night, as they were passing under the elevation of the Vandallia Railroad at the Holt road, south of the city.

Gasper told Sergeant Sheehan and the emergency squad he believed the men had meant to hold him up.

While the police were investigating they met Donald Edmondson and Ernest Walker, both of Clayton, who told them they were driving toward the city on the National road when three or four men walking along the road threw stones at the machine.

The police were unable to find any arm of the men.

Two automobile wheels and three tires and a tire were stolen out of a garage in the rear of 2310 North Chester avenue. Sie Mitrey, who lives at that address, reported to police. He said the lock on the garage door had been pried off.

Sue Boesch, 2114 North Meridian street, apartment 20, told the police some one entered her room and stole a vanity box containing \$10.

CONFESSION OF MURDER GIVEN LITTLE CREDIT

Seymour Authorities Believe All Brookses Were Implicated in Atrocious Crime.

Special to The Times.
SEYMOUR, Ind., Aug. 27.—The confession of Ben Brooks that he murdered Amazona Montgomery was received with some skepticism here today and indications were that the investigation will not be greatly influenced by it.

Authorities and the impression that Brooks did not tell the full truth when he assumed responsibility for the crime in a confession to G. A. H. Shideler, superintendent of the Indiana Reformatory, and his father and two brothers were rushed to the reformatory to escape possible mob violence, following the murder.

One point which Brooks did not explain in the complete satisfaction of the officers was how he happened to meet Montgomery in the thicket where the body was found two days after the man disappeared. Another was why he killed a small dog which always followed Montgomery, and which was found lying dead by its master's body.

The confessor merely said he shot Montgomery in self-defense, following an argument when the latter came at him with a drawn knife. Brooks tried to absolve from all blame his father and two brothers who are held here with him. The technical charge against the quartet is chicken stealing, ascribed by the murdered man some time ago.

It was planned to continue the inquest here. Mrs. Ben Brooks testifying as the first witness gave conflicting testimony as to the movements for her husband on the day Montgomery disappeared.

"Well, he didn't say anything to me about it," she said without emotion when informed Ben had confessed.

The point now which remains unsolved is whether more than one man was implicated.

M'CRAY ASKS PAR VALUE FOR BOND ISSUES

(Continued From Page One.)

Idle cars on the side track and idle locomotives in the round house do not produce incomes or pay dividends. The rates have advanced so steadily that in many instances they are 100 per cent more than they were in 1914.

RAILROADS MUST SHARE WITH OTHERS.

"The railroads must share with the farmers and manufacturers the burden of the present situation by reducing their freight rates to a reasonable basis. The present high rates of freight will restrict production and paralyze industry. With decreased freight rates, operating expenses must be correspondingly reduced."

But the entire burden should not fall upon the railroads alone, the Governor pointed out. The wage earner must do his share in the program of reconstruction by accepting the wage reductions which the Governor said, is inevitable.

"We must all defate together, in as near a true and equal proportion as is possible," he said.

"The perpetuity of our institutions is not secure unless the masses of workers, farmers, manufacturers and, in fact, society in general, feel and know that these institutions will each receive a square deal based upon principles of what is right, rational, and practicable."

"We must approach and solve all these perplexing and disturbing questions with common sense, mutual trust, and with the fullest respect for the rights of each other. These things being done, according to an exalted standard of justice and human sympathy, with the spirit of malice toward none and charity for all as the corner stone, and determined by the Golden Rule as proclaimed by the few Nazarene ages ago, and which still stand as the best measure ever proposed for the settlement of human differences."

"The only way a better deal can be done in order to bring about as speedily as possible a better business situation is one that is vitally pressing. It is a question that concerns every person in the Nation, and doubtless can be answered in a variety of ways, any one of which may seem to be the real panacea for our present ills to the person who offers the supposed remedy."

To his mind there are several influences, each contributing to a better deal, the general unsatisfactory business situation, the solution of which would assist in stabilizing conditions as fast as they could be placed in operation.

He said the solution of which may seem to be the real panacea for our present ills to the person who offers the supposed remedy.

2,000 IN MINE ARMY ARRIVE AT CAPITAL

firm and those were discredited in what appeared to be the most reliable reports.

That there were no casualties, believed to be due to the fighting in the darkness.

Sheriff Chaffin is understood to have spent the rest of the night in reorganizing his forces and establishing them in strategic positions.

Reports here indicate that the main body of armed miners who were stopped at Madison yesterday by C. F. Keeney, president of District 17, United Mine Workers, did not participate in the Blair fight, but are on their way home following the decision to disband, reached in a vote following Keeney's address to them.

The volunteer army was called to duty again at midnight after Logan had spent the early hours celebrating peace prospects as a result of the appeal made to marchers by union officials at Madison.

Shooting on Blair Mountains caused stress to be sounded and other alarms spread, but the Logan forces encountered no opposition when they reached Blair Mountain.

NO TROOPS UNLESS
OTHER MEANS FAIL
WASHINGTON, Aug. 27.—President Harding will not order Federal troops to West Virginia unless there is no other course open to relieve the situation growing out of the gathering of armed miners between Charleston and Mingo and Logan Counties. It was said at the executive offices today.

General Bandholtz in a late report to the War Department said some of the miners army had disbanded and returned to their homes, but that the situation has not yet cleared. He said the "war area" is so extensive and communications so poor that it is difficult to obtain accurate reports.

Two airplanes are now in the coal region for reconnoitering purposes. Assistant Secretary of War Wainwright said.

CHARLESTON, W. Va., Aug. 27.—General H. H. Bandholtz and his aides, representing the War Department, left here early today for Boone County, where thousands of miners who were marching on Mingo County coal fields were camped.

The purpose of the trip, General Bandholtz said, was to make certain the miners have abandoned their march and will return to their homes. Until this was definitely ascertained, Federal troops will remain in readiness.

Today was expected to witness the disintegration of the miners' army.

C. F. Keeney, president of the United Mine Workers, District No. 17, made a personal appeal to the marching men at Madison to halt and reported he believed he had been successful. The advance guard passed the night at Madison, the remainder being scattered through the hills. Special trains to take the men away, have arrived at Madison.

FRENCH AND 8 CHARGED WITH MAILS' MISUSE

Master Mind in Reputed Conspiracy Turns Back on Former Aid.

CHICAGO, Aug. 27.—Charles W. French, "master mind" of an alleged band of \$50,000,000 swindlers, was arraigned with eight alleged associates before United States Commissioner James L. Gleason. With the exception of A. L. Streizin of Milwaukee, they entered pleas of not guilty to charges of using the mails to defraud.

Streizin waived examination and was held under \$10,000 bonds for appearance at Milwaukee, where he will be arraigned later.

French and the other alleged swindlers waived examination before the United States Commissioner and were held to the grand jury in the Ideal Tire and Rubbers Company of Cleveland. This brings the total of such paper seized by the Government to \$40,000,000.

Dramatic scenes occurred in the courtroom when French faced Attorney W. Harsh, who is said to have revealed to Federal officials the inside workings of the "financial wizard's" various schemes. French sat in a chair back on his former aid and walked away.

"What I would like to know," French asked newspapermen, "is who is financing all this prosecution on the part of the Federal Government and all this publicity in the press?"

SAVING DAVIS.
When told of the arrest of Zebulon W. Davis in Canton, Ohio, French said: "Mr. Davis is a thoroughly good and honest man. His paper has been circulating for more than thirty years. There never has been any difficulty about discounting it as it always has been paid promptly. No banker in the State of Ohio would think of turning it down."

It was an attempt to discount notes signed by Davis that led to the arrest of French and the revelations of his alleged stupendous swindling operations.

Those to be arraigned besides French are Rudolph E. Kohn, vice president of the American Rubber Company; Charles W. Hawkins, Cleveland broker; A. L. Streizin, the "Boy Patriot" of Milwaukee; Alva W. Harshman, former secretary to French; Elmer L. Gerber, James H. Lees and Charles H. Deniecke, Cleveland, and Charles K. Strobel, Akron, Ohio.

Others involved with the band and who are under indictment will be arraigned as they are arrested.

Assistant United States District Attorney John V. Clinch holds possession of \$500,000 more in questioned notes turned over to him by Kohn, together with many letters exchanged between Kohn and French. Most of the letters were written to Kohn from Dayton, Ohio, in June, while French said to have been endeavoring to obtain \$1,000,000 in unsecured notes from the Master Tire Company. Clinch considers the letters as among the most important evidence yet uncovered in substantiation of the charges of misuse of the mails.

NAB OHIO MAN AS SWINDLER RING MEMBER

CANTON, Ohio, Aug. 27.—Z. W. Davis, one of the central figures in the French \$50,000,000 reputed swindle ring, who declares he has been the victim of, rather than a participant with, the "wolf of La Salle street," was taken in custody this morning by United States Deputy Marshal Connors of Cleveland.

WILL CLOSE FOR REPAIRS.
HARTFORD CITY, Ind., Aug. 27.—The Fort Wayne Corrugated Paper Company's plant here will close Saturday for two weeks for repair of machinery.

RESINOL

Soothing and Healing for Skin and Scalp Troubles

Even the first few applications will convince the most skeptical. Your druggist sells Neubro's Resinol. If you are not satisfied,

Ten cents in stamps or coin sent to The Herpicide Company, Dept. 20, Detroit, Mich., will bring you a generous sample and a booklet on "The Care of the Hair."

HEALTH FOR WORKING GIRLS

Those Who Suffer and Are Unable to Work Need Helpful Suggestions

Springfield, Ill.—"I had periodic trouble with weakness, cramps and backache and I could not work. A doctor recommended your medicine and I took four bottles of Lydia E. Pinkham's Vegetable Compound. I am now strong and healthy and I can recommend your medicine to my friends."

ANNA RIMKUS, R. R. No. 8, Springfield, Ill.

Why will girls continue to suffer month in and month out as Miss Rimkus did when case after case is related where Lydia E. Pinkham's Vegetable Compound has removed the cause of the trouble and brought good health. For more than forty years this old-fashioned root and herb medicine has been the standard remedy for such ailments, and has the record of having restored more suffering women to health than any other medicine.

If there is any complication about your condition you do not understand write Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health.
