

## AD MEN FROLIC AT FUNFEST

All Sorts of Amusements in Outing at Turner Park.

Headquarters of the Indianapolis Advertising Club, in the Chamber of Commerce building, was an exceptionally busy place this morning—package after package, until they seemed fairly endless, was being carried out and sent to Turner park.

But in the afternoon the scene of activities shifted—moved to Turner Park, for there the annual fun carnival and basket picnic of the Advertising Club was being held.

The packages? They were prizes—generous in numbers and in value. There were 1,383 of them and the value was set at \$1,000.

The program was varied, including a 60-yard dash for girls and women, from 15 to 21 years; baseball, horse shoes, a 60-yard dash for women over 21, a country store, buried treasure, football kicking for women, sack race for boys under 14, potato races for women, a "crazy cat" contest, baseball throwing for women, a sack race for girls under 16, a clothes pin contest, and dancing.

The program for the evening included a watermelon-eating contest, a motion picture, a concert by the Indianapolis News Newsboys band, a movie impersonation contest, and dancing.

## Thompson Case Still Mystery

Special to The Times. GREENSBURG, Ind., Sept. 2.—Mrs. Hazel Benham Thompson was found Thursday at the home of her uncle, Henry Benham, three miles north of Versailles, by her husband, William Thompson, of Joliet, Ill., who has been in Decatur and Ripley counties several days searching for her, following her alleged abduction from their home at Joliet by members of her family.

Mrs. Thompson, according to the story told by her husband, refused to talk to him nor was she allowed to be with him in private by her uncle's family. Mr. Thompson said her actions were such he believes she has been drugged.

K. OF P. CLASS INITIATED. The degree team of the Nineteenth Century Lodge, No. 470, Knights of Pythias, conferred initiatory rites of the first degree of page on a class of fifteen candidates last night at Castle Hall, 230 East Ohio street, as the beginning of its fall and winter activities. The presentation of the work of the rank will be repeated at the Pythian Jubilee at Greensburg Sept. 14.

KINDNESS WINS FORTUNE. ROME, Ga., Sept. 2.—Kindness to a blind man has led Allison Gravelly, 10-year-old youth, to a fortune. Ed Cousins, the blind man, cut off dozens of relatives in his will and when he died the boy inherited \$10,000. The boy was adopted by Cousins, but a contest over the will probably will be made. The youth led Cousins about Rome for several years.

BOOZE THIEVES CAPTURED. TERRE HAUTE, Ind., Sept. 2.—John Kelly, Edward Cahill and Elmer McDaniel, all of Peoria, Ill., were brought here Thursday evening from Mattoon, Ill., by Illinois authorities, suspected of being the thieves who stole ten barrels of bonded whiskey recently from the Commercial Distillery warehouse. Two of the ten barrels were recovered in a corn field Wednesday by a Matton farmer. The three men were arrested when they were in the act of burying it.

LEGION POST AT VALPARAISO. VALPARAISO, Ind., Sept. 2.—An American Legion post, to be known as the Valparaiso University Post, is to be organized here. Several hundred university men are attending the university.

## HOOSIER DEATHS

GREENSBURG.—Mrs. Amy Bird, 67, of Indianapolis is dead at the home of her daughter, Mrs. Harry Hamilton. She is survived by five daughters, Mrs. Fred Thomas, Mrs. Clyde Meek, Mrs. Hamilton, Mrs. Roy De Armond of this city and Mrs. Curtis Elkins of Warren, Ohio; one son, Lewis of this city and a brother, Henry Van Pelt, of Chicago.

NOBLESVILLE.—Miss Mildred Foster, 23, is dead at her home in the northern part of Hamilton County.

LOGANSPOUT.—Mrs. Galle Berry, 34, wife of Henry Berry of Hayward, Cal., is dead at the home of her mother, Mrs. A. M. Hanna, south of this city. The mother, husband and two brothers survive.

## RUSHVILLE JAIL HAS SMALLPOX

Bastile Under Quarantine for 21 Days.

Special to The Times. RUSHVILLE, Ind., Sept. 2.—A case of sore arms exists today in the Rush County Jail. Eight prisoners, one woman and seven men, were vaccinated yesterday, while a visitor to the jail broke out with smallpox. The visitor was a 7-year-old girl from near Laurel, who was with several people. The city board of health established a twenty-one-day quarantine on the jail, and any prisoner arrested within that time, will be taken to Connersville and held in jail.

The quarantine has been established only a short time when the police arrested John Dixon, the man who thought court had adjourned after he paid a fine, and eluded the police on a surety of peace charge. He was taken to Connersville and will be brought back here Saturday for trial.

## Shelbyville Will Observe Labor Day

Special to The Times. SHELBYVILLE, Ind., Sept. 2.—Labor day will be celebrated here with an all-day program of attractions, which has been arranged by the Central Labor Union, members of thirteen local unions to take part.

A parade in the morning will open the events for the day, most of which will be given at the fairground. A twenty-five-mile automobile race will be the principal attraction.

HELD ON LARCENY CHARGE. James Hammond, negro, 621 West North street, was arrested late Thursday on a charge of grand larceny. It is alleged he took a watch from the home of Mrs. John Alexander, 804 1/2 South Senate avenue, where he was delivering ice. The police were called and followed the negro to Charles and Morris streets where they searched him and found the watch.

## What Causes Skin Troubles?

Many of the fiery, itching skin troubles are due so very to disorders of the blood. Don't let these impurities torture you. Thousands have gotten relief from such troubles by taking S.S.S., the blood medicine that drives out the impurities and helps put in the healthy red blood corpuscles.

For Special Booklet or for individual advice, without charge, write Chief Medical Adviser, S.S.S. Co., Dept. 433, Atlanta, Ga. Get S.S.S. at your druggist.

**S.S.S.**  
The Standard Blood Purifier

## Students Finish Work at State Normal

Special to The Times. TERRE HAUTE, Ind., Sept. 2.—The summer school term at the Indiana State Normal School here was completed today with 2,000 students finishing.

The graduating exercises were completed with a farewell exercise for Dr. W. W. Parsons. Dr. Parsons read the names of 82 graduates, after which he made an impressive talk. He introduced L. M. Hines, the new president.

## CHICAGO VIEW CONFUSES, BUT BASIS IS SOUND

(Continued From Page One.)

Isable unemployment today is lower in this territory than at any time since the first of the year. Chicago probably is the greatest labor market of the world. Its good report of today may be ascribed to the flow of workers to the farms for the harvesting of the crops. Owing to the general depression it is said this movement was greater than usual. When the crops are all gathered there may be a different story to tell, but for the present the fact remains that while there is idleness there is less, very much less than seven months ago, or two months ago. From the highest total of the year—that of January—there appears to be a reduction of nearly 27 per cent.

ALSO FAVORABLE FINANCIAL SHOWING.

With the improvement in the employment situation there is a favorable showing financially. The latest combined statement of the national and State banks indicates a slight decrease in loans and discounts, a slight increase in commercial deposits, an enlargement of cash resources and an increase in savings deposits. The savings deposits, which are in excess of \$500,000,000, are not far from the highest record.

Here is something bearing upon the building situation nationally that is so contrary to general belief that it might be questioned but for the source from which the information was received.

Building permits are not a safe index to the building business. Permits may be obtained and pigeon-holed. But when a builder buys plumbing and other fixtures they are for use. The Crane Company of Chicago is the largest supplier in this line in the world. It has sixty branches in this country. Twenty-three of these branches show an increase for this year thus far as against the average for the last ten years. Six others are about 1 per cent below the ten-year average. The increases in some of the agencies are quite substantial. The whole business of the company thus far this year is up to the ten-year average. The cities that show best are Sacramento, Oklahoma City, Indianapolis, Los Angeles, Davenport (Iowa), and Minneapolis.

HOPE OF SETTLEMENT FOR LABOR STRIFE.

What an expansion there would be in construction if the labor difficulty was settled! In Chicago there is hope of adjustment. A very large amount of work has been hampered by labor strife. Some of the trouble has been what is termed jurisdiction—that is, owing to disputes between unions jealous of each other. Some of it has been owing to attempt to lower costs. On some of the work here union men have received \$1.25 an hour, \$10 a day—and attempt is being made to bring wages down.

The bosses are not without sin. They have resorted to practices vile if not unlawful and Judge Landis has been conducting an inquiry into the whole affair. He has laid bare the facts in every relation and has been no more sparing of the bosses than the men. It is the confident belief that much good will result. He may not bring the wage scale down so low as is hoped (in some instances men who get \$1.25 an hour are now eager to work at 60 cents), but he is likely to force the unions to do away with rules restrictive of production. Whatever the verdict of this umpire, the situation unquestionably is better.

The wrongs are being laid bare and the feeling is that they will not be continued. Undoubtedly there will be more of sanity and common sense in the trade at large.

LABOR QUESTION ALSO PERTINENT.

In this connection the lumber question is pertinent. Lumber men are not san-

guine of a revival in their industry. Why this is so is not clear. It is one branch that can come back regardless of foreign trade. It is the one major business hurt most by the war having been classed as unnecessary for some time. It is hard to understand. The injury due to that ruling was great. The decline in lumber production from 1907, when the total was forty-six billion feet board measure, to 1920, when production was thirty-two billion feet, would seem to indicate a tremendous shortage presaging great activity impossible of long postponement, yet lumber men talk pessimistically. Chicago is the great lumber market of America. Here lumber has been financed for decades. Here it is controlled today. Undoubtedly high railroad rates operate against lumber, but, while they admit that lower rates will help somewhat, lumber men still maintain a somber view as to the future. Possibly they are right. Perhaps they are wrong. There is demand insistent and persistent for lumber and it would seem certain to broaden with improvement generally. Much lumber goes into such construction. The railroads are in urgent need of lumber. Neither the home builder nor the railroads can stay out of the market long. What's more, with improvement in general business, there must come demand for lumber for boxes, which makes a big item in lumber consumption.

Wholesale and retail merchants and particularly the department stores report a good business. There is no doubt they have cut prices radically. Shoe hats, suits and general furnishings are down to a level that commands attention. The department stores are crowded. The volume of sales is fully up to that of last year, but the money volume is much lower.

NOW ABLE TO LAY FINGER ON ERROR.

Talks with leaders in finance and general industry show a general belief that an error was made just after the war in stressing the statement that the world was dependent upon this country for goods and that owing to this demand we were to have a tremendous foreign trade. The opinion seems to prevail that the East was fooled more by this foreign trade possibility than the West. Now the men of the Middle West go to the other extreme and declare that outside of coal, food stuffs and a few other products, this country cannot expect much foreign

trade until the exchange situation is adjusted and the part of wisdom is for the American to fashion his production on domestic requirements until things clear up abroad for otherwise he will be loaded with a surplus without a market. How long it will take for the exchanges to recover to permit European purchases without too heavy a handicap he ventures no opinion. What he knows is that misjudgment of the foreign market cost America billions of dollars directly and was that cannot be measured in money. He does not intend to make the same mistake again. As to the general outlook perhaps the
