

RATE CUT FOR ROAD MATERIAL IS AGREED UPON

Governor, Highway Commissioners and Rail Men in Conference.

18 PER CENT REDUCTION

Through the efforts of Governor Warren T. McCray and the State Highway Commission, freight rates on road building materials will be substantially reduced in the near future. This decision was reached at a conference of railroad men, the Governor and the highway commission yesterday afternoon.

On Aug. 25, 1920, the rates on road materials were increased 40 per cent. The new rates will be 15 per cent below the rates in effect before that date, or a 15 per cent increase on the old rates instead of a 40 per cent increase. This would be about an 18 per cent reduction from present rates.

APPROVAL NEEDED TO MAKE RATES EFFECTIVE.

The date on which the new rates will be effective can not now be determined because they can not be put into effect without the approval of the Interstate Commerce Commission. Both the railroads and the State expect to ask the commission for permission to put the rates into effect.

Little opposition to a rate reduction on the part of representatives of nearly every railroad in Indiana was met by the commission and the Governor. Governor McCray explained that the highway department has felt for some time that freight rates on road-building material were excessive and that the 40 per cent increase is considered as unfair.

LYONS AND CRAWFORD SPEAK.

Lawrence Lyons, director of the commission, told the railroad men that the commission believed that it should make a dollar go as far as possible and that inasmuch as there had been a reduction in material rates he believed there also should be a reduction in freight rates. He quoted figures to show that the rates in Indiana are higher than elsewhere. He said that unless some relief was forthcoming the road building and maintenance program must be cut materially.

Earl Crawford, a member of the highway commission, declared that the freight rates are so high the railroads are losing a large amount of business.

"We can't build roads with the freight rates two and a half times the cost of the material used," he said. "We will

not be able to show the public where we spend its money for roads when we spend it for freight. It would be to the advantage of the railroads to make an adjustment."

RAIL MEN STILL COMPLAIN OF EARNINGS.

Mr. Crawford told the railroad representatives that the commission had needed 45,000 tons of material that it did not buy because of excessive freight rates and that orders for \$3,000 tons in addition are being held up. He said he had asked county surveyors how much material they needed but refused to order because of high freight rates and that the report of twenty-one of these officials showed that 751,200 tons had been held up.

H. R. Kurrie, president of the Monon railroad, objected that if one rate charged others will be affected. William H. Hodgdon of Chicago, freight traffic manager of the Pennsylvania railroad, pointed out that similar arguments had been used in other States and that some reductions had been granted. He declared, however, that the railroads are not receiving sufficient return on their investments and that the State should accept.

Following Mr. Hodgdon's statement, the railroad representatives went into executive session and returned some time later with their proposal, which was accepted.

Two Have Close Call When Boat Burns

CHICAGO, Oct. 7.—Two men narrowly escaped death here early today when a tugboat belonging to the Great Lakes Dredge and Dock Company burned and sank in the Calumet River.

Lewis Kopp, sole member of the crew on board when the boat burst into flames, was rescued by the tugboat and the fire tug Illinois came to the rescue. Kopp

was hanging to the vessel when Frank Smith, fireman, attempted to rescue him. Both plunged into the water, wreckage tumbling on them. They were rescued. The loss was \$150,000.

MARIAN M'ARDLE APPEALS TO JURY

State Expects to Finish Case Today.

CLEVELAND, Ohio, Oct. 7.—Indictments today were that the State would complete its presentation of evidence against Miss Marian McArdle, charged with complicity in the murder of Daniel F. Kaber, wealthy publisher, during the trial of the defendant, Walter Rathenau, minister of reconstruction in the Weimar cabinet, and by Louis Louchere, French minister for liberated regions. It was learned today.

Miss McArdle's attorneys are expected to rely mainly upon an appeal to the jury. Evidence to be presented, it is expected, will deal chiefly with palliative circumstances, no effort being made to deny that Miss McArdle was privy to the crime for which her mother, Mrs. E. Kaber, is now serving a prison sentence.

The chief plea of the defense, it is thought, will be that Mrs. McArdle's action in concealing knowledge of her mother's plans was an act of filial affection.

CLOSE OF CONFERENCE.

MUNCIE, Ind., Oct. 7.—The thirty-fourth annual conference of the Brethren Churches of Indiana closed Thursday night at Oakville with the selection of North Liberty as the conference city for 1922. The Rev. E. L. Miller was elected chairman of the board of home missions for Indiana.

COLOSSAL SUM TO REIMBURSE FRENCH LOSSES

Germany and France Agree on Amounts to Be Paid in 1926.

BERLIN, Oct. 7.—Germany is pledged to deliver to France a maximum amount of seven billion gold marks' worth of goods, cattle and raw materials before May 1, 1926, under an agreement signed at Weissenhof by Walter Rathenau, minister of reconstruction in the Weimar cabinet, and by Louis Louchere, French minister for liberated regions. It was learned today.

Herr Rathenau stipulated the conditions that the supplies only could be turned over if Germany's producing facilities and her social and economic affairs enabled her to make the vast payments required of her. The goods promised by Germany will apply on her indemnity.

The agreement is known as the reconstruction contract and much of the German supplies will be used in rehabilitating those areas of France devastated during the war.

Coal prices and the restitution of rolling stock were among the subjects discussed at Weissenhof. The total amount of goods delivered by Germany during the life of the contract must not exceed 52 per cent of the annuities as issued France by the London indemnity agreement.

SOVIET LEADER SAYS AMERICA IS UNSELFISH

MOSCOW, Via Berlin, Oct. 7.—High praise for the United States and the manner in which the Americans came to the rescue of starving Russia, was sounded here today by M. Kameneff of the Soviet.

M. Kameneff's remarks were made in a speech opening the convention of the all-Russian Central Executive Committee.

After charging various attempts had been made by sources hostile to the Soviet to take advantage of Russia's plight, M. Kameneff added: "The humanity and efficiency of America deserves tribute. Although America is farthest away from us, I believe she is nearest to Russia's heart in our hour of need. Without waiting for political discussions, America came to us with economic forces and immediately materialized plans for our assistance. Already 150,000 Russians are being fed and by December 1,000,000 will be getting food. America works with a will. Her system and her organization are nothing short of amazing."

The American relief work in Russia is in charge of Col. William N. Haskell of New York, who is now in Moscow.

BOY MISSING SINCE MONDAY.

Norman Wright, Sr., 233 South Harris street, today appealed to the police to search for his son, Norman, Jr., 9, who has been missing from home since Monday. The boy is described as having light hair and wore a white waist and gray trousers and gray cap when he left home.

BAR WILL HONOR MEMORY OF LATE J. A. PRITCHARD

Memorial Services to Be Held in Court Where Former Jurist Presided.

Plans were under way today for memorial services in honor of Judge James A. Pritchard, T. former judge of the Marion County Criminal Court, who died yesterday, to be held in the Criminal Court rooms by members of the Bar Association tomorrow morning at 10 o'clock. Judge James A. Collins of Criminal Court will preside.

Funeral services for Judge Pritchard, who was the father of Walter Pritchard, judge of the city court, will be held from the home, 3123 Central avenue, tomorrow afternoon at 2 o'clock and burial will be in Crown Hill.

FAYETTE COUNTY BIRTH PLACE.

Judge Pritchard was born in Fayette County, Ind., on Oct. 25, 1846, and was the son of the Rev. Henry R. and Emeline Birdsell Pritchard. His father was one of the pioneer ministers of the Christian Church in this State.

At the age of 8, Judge Pritchard moved with his parents to Columbus, Ind. He received his early education there and later attended Miami University at Oxford, Ohio. In 1868, he began reading law. Three years later he gave up the study and practice of law and went to his father's farm in Daviess County

where he remained for three years, then coming to Indianapolis. He practiced law in Marion County in 1873 and since that date had been active both on the bench and in the practice of his profession. On Jan. 1, 1907, he became judge of the Marion County Criminal Court. After serving for four years on the bench he resumed the active practice of law.

Judge Pritchard is survived by his widow, Mrs. Lillie O'Hair Pritchard, formerly of Laurel, Ind., whom he married in 1885; a son, Judge Walter Pritchard, and two daughters, Mrs. Marie Pritchard Mullane and Miss Irene Pritchard.

HEALTH BREAKS IN ADVANCED AGE.

The health of the jurist during the summer showed signs of breaking under the strain of his advanced age. His son obtained a cottage on the river near Ravenswood in the hope that the open air and the seclusion would aid his father. Last week the elder Pritchard insisted on staying at legal business and appeared in person in Superior Court, room 3, to make inquiry concerning the date of trial of some of his cases.

Judge Pritchard served as a city councillor and aided in drawing the franchise for the Indianapolis Gas Company. Prior to the time of his son becoming city judge, Judge Pritchard was associated with him in the practice of law. He was interested in politics and even in his advanced years always found time to discuss political situations with his friends.

Plane to Return to New York City

EDMONTON, Alberta, Oct. 7.—The Larson all metal monoplane J. L-6, which

has been lying dismantled here all summer after a successful trip from New York, will start the return flight to New York next Monday or Tuesday. Captain Hyde Pearson and Lieutenant Hueli made this announcement upon arriving here Thursday. They are setting up the machine.

Getting Too Fat? Try This—Reduce

People who don't grow too fat are the fortunate exception. But if you find yourself accumulating or already cumbersome, you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Ask your druggist for Marmol Prescription Tablets and follow directions. One dollar is the price the world over. Get them from your own druggist or send price direct to Marmol Co., 4612 Woodward Ave., Detroit, Mich. By doing this you will be safe from harmful drugs and be able to reduce steadily and easily, without starvation diet or tiresome exercise. Advertisement.
