INDUSTRIAL EXHIBIT WILL OPEN TONIGHT

(Continued From Page One.)

F. Campbell, are in charge of the activities this evening. An elaborate program of band music will be presented by the Indianapolis Military Band. W. S. Mitchell is the conductor.

"Take Center, College or Illinois street cars marked 'Exposition,'" said Claude Wallin, director of the Exposition. "We are expecting to have to close our doors several times during the evening because of the jams of people. Everything is in shape following the general inspection by the manufacturers' committee at noon today."

Tomorrow will be Purchasing Agents day at the Exposition. The delegates to the convention of the National Association of Purchasing Agents which is being held in Indianapolis this week, will attend the Exposition in a body. They will leave the Exposition Terminal Station on special cars at 2 o'clock. After spending the afternoon in a healthy condition, they will go to the Women's building, where an elaborate fun fest and dinner program has been arranged by the Purchasing Agents Association of Indiana.

Tuesday evening, the announcement of the awards for the best essays written in the sixth, seventh and eighth grades in the city schools on "Industrial Indianapolis" will be made by Myram M. Hughes, president of the Indianapolis Junior Chamber of Commerce, which conducted the contest. Prizes of \$25, \$15 and \$10 are to be given for the best three essays written in the schools. In addition to these, a number of honorable mention diplomas will be announced by Mr. Hughes. The members of the committee of judges for the essays are B. Wallace Lewis, A. E. Roberts, J. P. Jenks and J. D. De Marcellus.

Awards will be made Tuesday evening for the winning posters in a contest carried on by the Exposition organization six weeks ago. O. B. Iles, chairman of the manufacturers committee, will give the prizes of \$100, \$50 and \$25 to the designers of the three best posters. Walter T. White, 2205 Park avenue, designed the winning poster. Ed Herman of L. Strauss & Co., the second poster and B. Boaz, Jr., 13 Pembroke Arcade, the third.

The judges in the poster contest were Earl Stafford, Paul Richey, V. T. Robinson, Phil J. Plunkett, Jr., and Fred Mills.

It was the original intention of the manufacturers committee to have each exhibit graded by a committee of judges who would be three purchasing agents attending the convention of the National Purchasing Agents Association in Indianapolis this week. However, it was found impossible to get three purchasing agents who would give the necessary to go over all of the exhibits carefully.

Each exhibit will be graded on the following points: Presentation, selling points, educational value to professional buyer and to the general public, originality of exhibit and attractiveness or beauty.

Prizes will be awarded Friday evening by the manufacturers committee for the eight best booths. These prizes are as follows: First prize, \$100 in gold, second prize, \$50 in gold, third prize, \$25 in gold, fourth, fifth, sixth, seventh and eighth, each \$10 in gold.

"A certificate showing the grading of each exhibit by the committee on each exhibitor, regardless of whether or not he is a prize winner," said Mr. Iles. "Exhibitors are urged to make it understood that prizes won will go to members of the organization directly responsible for the planning and execution of the exhibit."

The members of committee on exhibits in charge of judging are as follows: Roy Adams, chairman; Carl Walk, Horace Ryan, Paul Richey, Woods A. Caperton, James Lowry, Ferdinand L. Hollweg, Howard Little, Paul Porter,

Royal Flush Hand Causes Man's Death

NEW YORK, Oct. 10.—Medical Examiner Nammack reported today that Phillip Brenner, 47, a retired tailor, had died of a cerebral hemorrhage, superinduced by a royal flush.

Brenner was playing in a 10-cent bluff family poker game last night at the home of his wife, when he was dealt a royal flush. He was suddenly stricken.

The medical examiner, seeking a cause for the stroke, found Brenner had held a "once-in-a-lifetime" hand—the ace, king, queen, jack and ten of hearts.

Nearly 100 Indianapolis stores in the retail district will display Indianapolis-made products in their downtown show windows this week and are entered in a contest for the best display windows, according to Eli Schloss, chairman of the retail store decorations committee.

The judges of the window contest are Felix M. McWhirter, Elias J. Jockay and Julian Wetzel. Mr. Schloss' committee includes T. W. Ellis, Briant Sando, O. T. Roberts and W. D. Keenan.

Among the retail stores who are entered in the contest are L. S. Ayres & Co., William H. Block Company, Goldsboro Bros., 704 Indiana street, Liberty Market, Sander & Recker, Poster Furniture Company, Star Store, L. Strauss & Co., Taylor Carpet Company, Vonnegut Hardware Company, Lilly Hardware Company, Kottman Furniture Company, Krause Bros., National Furniture Company and People's Outlet Company.

According to Mr. Schloss this list is incomplete as he is being notified regularly of other stores that are officially entering the contest. Prizes of \$25, \$15 and \$10 are being given by Mr. Schloss' committee for the best decorated windows.

"I want to emphasize that, although there are only two rules set down by our committee, the window decorations must be in accordance with the official colors of orange and black must be used. Second, the Indianapolis-made products must be shown exclusively."

building, owned by the bank of which Mr. McWhirter is president, according to Mr. Ritter. The agreement has been in force since May 1, 1920.

The financial side of the agreement with the dairy has been investigated by the attorney general. Results of this investigation were not made public, Attorney General U. S. Leah asserting that the facts involved might be used in the State's prosecution of the alleged "milk trust."

Sanitary conditions at the dairy and the quality of milk delivered to the city are excellent, according to Mr. Ward's report. He says in the report that in company with Fred T. Davenport, assistant city purchasing agent, he made a thorough inspection of the dairy Oct. 5 and found the "modern" dairy clean and orderly in every respect. All of the cows were apparently in a healthy condition and were exceptionally clean. After the milking in the evening I took two samples of the milk, using every precaution to obtain a fair sample from the entire herd."

The next day, the report states, two more samples were taken from a delivery wagon on its way to the city hospital from the farm, which is located near Millersville. James T. Moffett, city bacteriologist, analyzed these samples and reported that the two taken directly from the farm tested 3,000 bacteria to the cubic centimeter and 3.7 per cent butter fat, and 8,000 bacteria and 3.5 per cent butter fat. The samples taken from the delivery wagon tested 10,000 bacteria and 4.6 per cent butter fat and 9,000 bacteria and 4.9 per cent. These tests show the milk to be far above the quality required by State milk standards. The maximum permitted bacterial count for raw milk (the product is delivered to the city unpasteurized) is 20,000 per cubic centimeter and the minimum permitted butter fat is 3.25.

Dr. Foreman, superintendent of the city hospital, informed me that he preferred raw milk because it is more nourishing, tastes better and will not sour so quickly as pasteurized milk," continues the report. "For infant use the milk is pasteurized at the city hospital. He further stated that no ill effects have been traced to Lemona milk and he is well pleased with the same. He estimates that the milk from this dairy is cleaner than 70 per cent of the farm milk in this vicinity. Employees at the city hospital also state that the milk has been satisfactory in every respect."

Dr. Herman G. Morgan, secretary of the board of public health, who said he did not know the city hospital was being supplied with unpasteurized milk, announced that he will send a dairy inspector to the farm this week to see about the physical examinations of employees.

How Many Men Keep Youthful Looking

It is well known that within recent years the men have become extensive patrons of beauty specialists and masseurs. Not only the fastidious, but men generally who have a care for personal appearance. This has also led to the employment by many of home methods calculated to enhance or preserve physical attractiveness. Of these, perhaps the most widely used is the mercurized wax treatment, which explains the mystery of the silver-haired gentleman with the boyish face. The mercurized wax obtainable at any drug store, is applied the same as cold cream, only not rubbed in. This gradually absorbs the dead and half-dead cuticle in tiny particles, releasing the fresher, healthier tissue beneath. To secure best results many apply the wax at night, washing it off in the morning. Women not only encourage husbands in this, but use the treatment themselves.

To keep away wrinkles and flabbiness, many men use after shaving preferably, a simple lotion made by dissolving an ounce of powdered salicylic in a half-pint of witch hazel. This gives splendid results.—Advertisement.

MIDDLE COURSE NOT POSSIBLE

Wirth Cabinet Must Accept Peoples' Party or Independent Socialists.

BERLIN, Oct. 10.—A fateful week for the Wirth cabinet opened today. The ministry must decide without much further delay whether to take within the official fold the German People's party, representing the industrial and financial backbone of the nation, or instead, make room for much-talked-of swing leftward, admitting the Independent Socialists, which would pave the way for a new socialization program with radical taxation measures for a reorganization.

After dexterously steering a middle course between these two antipodal parties, which provide the balance of Germany's political power, the Government is confronted with the imperative necessity of embracing either one or the other.

The motive power relentlessly forcing Chancellor Wirth toward a prompt and clear decision is the exchange situation which cannot continue at the present rate without bringing a crash that might compel Germany to throw up her hands as a bankrupt and petition to victorious allies for a receivership.

On the latter occasion a gold crown was placed upon young Leeds' head.

A fortune in gems was sent to the young couple as wedding presents. King George and Queen Mary of England sent the bride a diamond necklace and with their initials, "G. and M."

Cleaner Clothes because of More Water

600 gallons for each family washing

WHAT makes clothes clean? Water! Hundreds and hundreds of gallons of it, flushing gently through and through the fabric of your clothes!

SOAP merely loosens the dirt—WATER washes it out and away! The more water, the better!

Here, we use 600 gallons of pure, soft water (actually three times softer than rain water) for every family washing.

Nothing but mild, pure soap and oceans of water gently, positively cleansing, sterilizing and freshening your clothes!

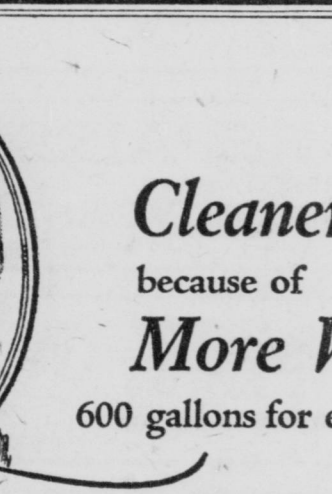

We have four services—"wet wash," "rough dry," "economy dry wash," and "family finish." We recommend the "family finish"—the complete service which leaves you nothing to do. You can even include the men's soft shirts and collars. The cost is, in our judgment, no more than the cost of doing it at home.

Try us THIS WEEK. Phone Main 0523, and one of our route-men will call. If you live out of town just mail us your bundle—we pay return postage. Try us this week—just once!
