

NEW RECORD FOR FINES IN COURT MADE PAST YEAR

Collections Totaled \$103,500, or \$12,000 More Than Previous Record.

MORE ARRESTS MADE

During the year 1921, the records of the city clerk's office show that a total of \$103,500.10 was paid by defendants convicted in city court. This sets a new record, the largest previous amount being collected in 1920, when \$91,601.27 were paid to the city clerk. In 1920 the total collected by the clerk was \$79,100.10. In 1918, the amount collected was \$64,840.00. This makes a total collection of the city clerk's office during the four years that Judge Walter Pritchard was Judge of the city court, \$330,481.47.

The number of convictions in State cases in city court in 1918 was 4,019; in 1919, 5,574; in 1920, 5,177, and in 1921, 5,625. The number of convictions in city cases in 1918 was 517; in 1919, 539; in 1920, 585, and in 1921, 575. The largest total of convictions was in 1921, when 6,206 State and city cases resulted in convictions.

The total of \$103,500.10, collected in fines and costs in 1921, is a larger amount than the combined collections of fines and costs in city court during the three years 1918, 1919 and 1920. In those years the total was \$239,939.37. The smallest amount collected was in 1918, when there were 4,775 convictions in state cases, 633 convictions in city cases and the fines and costs amounted to \$239,939.37. In 1919, there were 5,714 convictions in state cases, 1,422 convictions in city cases, which makes the largest total number of cases in which convictions resulted in fines and costs in city court in seven years. However, the total of 7,136 convictions, the collection of the city clerk in 1919, amounted to only \$34,939.37. In 1917, the number of convictions in state cases was 4,335; and the number of convictions in city cases was 5,204, the total collection of fines and costs being \$36,533.67.

It is pointed out that the increased amount of fines and costs collected while George O. Hutsell was city clerk during the last four years was due to the many blind tiger cases in which the fines and costs are very heavy, and to Judge Pritchard's system of assessing heavy fines in speeding cases and in cases where a driver of an automobile was found guilty of driving past a street car while passengers were getting on and off. It also is a fact that the city clerk has the fines and costs collected up closer at the close of the last four years than any other city clerk who has held the office in Indianapolis. John W. Rhodenhamel, the new city clerk takes office with fewer stayed fines pending.

Davidson was charged with assault and battery only. The arrests followed a call to the police of the Salvation Army Citadel on a report that robbers had killed a man. The investigation officer, on his arrival, found Dugan lying on the ground, his face badly bruised. Fighting over his body were the other two youths. Packinghouse Riot Narrowly Averted

EAST ST. LOUIS, Ill., Jan. 3.—Following the arrest today of twenty-four packing house strikers for refusing to move on at a policeman's orders, it was feared for a time that an attempt would be made by strike sympathizers to break into the police headquarters where the men were held. A strong cordon of police was thrown around the building. A clash was averted by the fact the police made no attempt to disperse the crowd and uniformed officers who rushed to the scene urged their men to leave.

SCENES AT INAUGURAL OF MAYOR SHANK

ENGLAND HOPES U. S. WILL JOIN

Awaits Reply of Harvey on American Participation in Consortium.

LONDON, Jan. 3.—England today invited Ambassador Harvey's reply to the suggestion of Lloyd George that the U. S. join a proposed twenty-million-pound international corporation, a part of Lloyd George's ambitious scheme for European reconstruction.

Harvey's attitude, it was believed here, would produce first intimation of American official sentiment toward the plan. If Harvey replies to the proposal in the name of the American government, he would be considered a participant in the council of Canines, instead of merely a spectator.

The consortium plan called for nations subscribing to stock through private individuals and banks. The British are convinced the supreme council will approve and are anxious for American approval as well.

they will remain substantially as the city has found them.

The problem of administering the property is a large one. It includes two apartment houses, each with many tenants. In order to take care of these, the city council last night adopted an ordinance providing for the appointment of a janitor and a custodian for each. The apartment buildings are the Chalfont and the Sun Tower. The custodian of each is to receive \$35 a month and the janitor will receive \$75 a month. William Le Rue, present custodian of the Chalfont apartments, was reappointed. This was done at the request of the former owners of the building.

There are a number of small houses and doubles which will be rented by the city from month to month. On Pennsylvania street there is the Crawford drug store and another business building which also will be rented from month to month. The Cochran Photo Company on Michigan street has a long time lease on its property and it is understood that steps will be taken to terminate the lease. No difficulty is expected in connection with other properties.

FIRE LOSS HALF MILLION LESS IN 1921 THAN IN 1920

(Continued From Page One.)

reason our campaign is attracting National attention. It is a regrettable fact that our fire loss this year was largely increased by the three boys now under arrest and charged with having caused the loss of a very large amount of property. With these young men out of the way and a continuation of the campaign we should make a wonderful record in the year 1922. The following list of the 1921 fires, the loss of which was in excess of \$10,000:

Jan. 17.—Indianapolis Coal Company, 928 E. Michigan street, \$10,728.
Jan. 30.—Central Wall Paper Company and adjoining properties, \$134,589.
April 5.—Hotel Laundry and adjoining properties, \$84,994.
May 13.—Stutz Motor Car Company, \$100,144.
May 15.—Granger Department Store, 328 West Washington street, \$20,094.
May 15.—New Jersey street and Central avenue, dwellings, \$45,632.
June 10.—Citizens Motor Garage, 31 West Thirtieth street, \$15,334.
June 12.—Hag Drug Company and adjoining properties, \$83,581.
June 13.—Central Plating and Specialty Company, 1369 West Market street, \$19,234.
Sept. 5.—Glazier Furniture Company and adjoining properties, \$33,109.
Sept. 5.—Franklin building and tenants, \$15,475.
Oct. 5.—Cabinet Makers Union, \$15,540.
Oct. 7.—Probst & Kassebaum Feed Co., \$10,924.
Oct. 12.—Michigan Lumber Company, \$13,853.
Nov. 10.—Norway Sanitarium, East Tenth street, \$10,402.
Nov. 12.—Columbia School Supply Company, \$13,505.
Nov. 12.—Franklin Building and adjoining properties, \$36,096.
Nov. 12.—Baldwin Piano Company and adjoining properties, \$36,672.
Dec. 12.—Brannan-Keece Lumber Company, \$25,435.

In most cases it will be noted that the official estimates are below the original estimates of property owners. "For more than twenty years I have been very much interested in the subject of fire prevention," said J. J. O'Brien, newly appointed chief of the fire department. "I cannot tell you how much it pleases me to realize that the citizens of Indianapolis are taking a real interest in this great subject. During the past year I had the pleasure of doing my bit in cooperation with the fire prevention committee, and the fine spirit of cooperation evidenced by every one indicated to me that the campaign would achieve some results. The reduction of \$40,000 in fire loss is an indication of what Indianapolis can do if every one will take a serious interest in fire prevention. The Indianapolis fire department will gladly cooperate in the fire prevention campaign and we are looking forward to a record of which all Indianapolis citizens can feel justly proud."

NATIONAL CITY BANK MOVES TO NEW QUARTERS

Doors of New Structure Open to Public for Inspection.

With counters and desks buried under masses of roses, gifts of other financial institutions and friends of the bank, the new quarters of the National City Bank, 108-112 East Washington street, were thrown open to the public today for the first time. The banking rooms in the new sixteen-story office building, which just has been completed, occupy the entire ground floor and basement of the structure, and are said to be the very last word in bank architecture and equipment. One of the most pleasing features of the bank is the subdued tints in the marble and finishing which is most attractive. Soft tones prevail in the decorative effects, thus taking away the glaring, cafeteria-like appearance of cold whiteness, which is the mark of so many buildings of a public or semi-public character. Counters, cages and regular business

departments occupy the entire first floor. Across the front of the main room extends a mezzanine floor and in the rear is a half story to accommodate the book-keeping department.

The banking rooms are composed of layers of heavy felt and linen to deaden the sound of the typewriters and adding machines.

The banking rooms are finished in panels of cream tint while the vestibule is in tawny olive marble with gold leaf decorations. The banking cages are in bronze and the subdued effect is carried out effectively with tan indirect lighting system.

MODERN VAULTS IN BASEMENT.

In the basement are located the vaults and the safety deposit systems. The steel vaults contain a number of unusual features. They are so constructed that underneath them is a clear space of two feet and a clever mirror arrangement makes it possible for the watchman to see under them at all times.

The vaults are the very best obtainable and the door on the main vault weighs eighteen tons.

As soon as the doors opened this morning, crowds of visitors began to crowd through the doors, and the bank was soon crowded to capacity.

The officers of the National City bank are: J. M. McIntosh, president; L. P. Newby, John R. Welch, Frank M. Miller and Louis P. Egan, vice presidents; Harry R. Groff, cashier.

Without organic iron both food and vitamins are absolutely useless as your body cannot change lifeless inert food matter into living cells and tissue unless you have plenty of organic iron in your blood.

For centuries scientists tried in vain to make organic iron. At last the problem was solved so that you may now obtain pure organic iron like the iron in your blood from any drugstore under the name of "Nuxated Iron."

It has been arranged to give to every purchaser of Nuxated Iron, who wishes to put on flesh or increase weight, a large regular \$1.00 package of Genuine Yeast Vitamine Tablets absolutely free. Be sure to take only Nuxated Brand Yeast Vitamine Tablets with Nuxated Iron.

P. O. RECEIPTS MAKE RECORD CLIMB IN 1921

Total Income at Indianapolis Office for Twelve Months, \$2,913,480.

Receipts of the Indianapolis postoffice for 1921 were the greatest in history, according to a statement issued by Robert E. Springsteen, postmaster, today. Total receipts for the year amounted to \$2,913,480.74, an increase of \$100,997.74 over those of 1920.

As a result of the fine showing of the office during the year, postoffice employees are jubilant, for they are certain that the \$3,000,000 mark will be passed during the year 1922 and when that occurs salaries will be increased automatically.
